President’s Welcome

WELCOME TO WHATCOM COMMUNITY COLLEGE

Dr. Kathi Hiyane-Brown, College President

Our 50-year tradition of expanding opportunities for all students – regardless of backgrounds or goals – is one reason Whatcom Community College is a critical component in our community’s educational and cultural life. For many students, Whatcom is the best choice to start their academic journey, whether they are preparing to transfer to a university or to enroll in our new Bachelor of Applied Science in IT Networking, pursuing a new career through our professional-technical programs, or participating in courses for personal or professional enrichment.

Smaller classes taught by outstanding instructors make the difference at Whatcom. As do dedicated advisors who connect students with the resources and direction they need to achieve their goals. We also invest in state-of-the-art equipment and technology that support our commitment to innovation and excellence in instruction and student services. Outside the classroom, a vibrant student life program reinforces the focus on collaborative learning that engages students with an increasingly global world. Students can gain valuable leadership skills and experiences by participating in one of 30 student clubs or Service-Learning programs. Added all together, at Whatcom, students secure marketable skills they need to get good jobs and learning experiences that enrich their lives and the life of our community.

As we reach the half-century mark serving our region, we’re excited by the prospects for the College and our students. All of us at Whatcom Community College look forward to helping you achieve a rich and fulfilling educational experience that will last you a lifetime. I hope to see you on campus soon.

HISTORY & PHILOSOPHY OF THE COLLEGE

Whatcom Community College has been serving the community since 1967 with its first programs being offered in 1970 (Farm Management and Transportation of the Sick and Injured). The College was one of the original community colleges in the country to offer classes without a centralized campus. As a result of that commitment, early faculty and staff became experts in developing alternative modes of instruction to reach students with varying interests. Another early commitment was individual attention to the educational goals and learning styles of each student. The College became known throughout the country for its unique approach and as a result grew to such an extent that centralized facilities and a campus became the preferred solution to reaching the thousands of students seeking access each year.

By the mid 1980s, the commitment to serving as many students as possible led the Board of Trustees to begin developing a central campus in the Cordata neighborhood. As the campus developed, younger students sought access in increasing numbers. Though the College has grown rapidly, it has retained a commitment to personalized instruction and promotion of success for students of all ages.

The original philosophy of considering what was best for students was necessary for our early development and continues to guide the actions of all who serve Whatcom Community College.

WCC FOUNDATION

The Whatcom Community College Foundation seeks to support student access to higher education and to help ensure student success by providing scholarships and funding for key College initiatives that directly impact students. Programs like academic support services, facilities and equipment needs, outreach and community building activities, and support of faculty and staff development are funded with help from the Foundation.

Over the last four years, the Foundation – with generous support from community members, businesses, and professional and charitable organizations – has provided over $2 million to fund student scholarships and College programs. In 2014-15, the WCC Foundation contributed over $300,000 in scholarships to more than 200 students and granted an additional $380,000 to fund important College programs.

All gifts add up to make an impact on students today and in the future. President’s Circle members receive special recognition as their leadership giving provides an extra measure of flexibility and strength that the College needs to fulfill its mission. Thank you to all donors whose gifts make a real difference to individual students, the College, and our community.

For more information or to make a contribution, contact the WCC Foundation:

Strategic Plan

Whatcom’s strategic plan includes a mission statement, vision statement, promise statement, core themes and guiding themes and objectives.

Mission Statement
Whatcom Community College contributes to the vitality of its communities by providing quality education in academic transfer, professional-technical and life-long learning, preparing students for active citizenship in a global society.

Vision Statement
Whatcom will be an innovative college, engaged with our diverse and changing communities.

Promise Statement
We transform lives through education. We accomplish this by...
• supporting student growth
• respecting student investment
• embracing diversity
• promoting excellence
• creating opportunities

Core themes
WCC’s core themes are...
1. creating opportunities
2. building community
3. achieving success

Guiding Themes & Objectives
Goal 1: Expand opportunities for students to achieve their potential
• Increase student achievement in transfer and career preparation
• Increase academic support for students
• Increase access for diverse and nontraditional student populations
• Introduce new opportunities for student learning and engagement

Goal 2: Strengthen the culture of learning
• Maintain currency in College curriculum and delivery
• Improve instructional delivery
• Improve student learning

(continued on next page)
• Establish a center for strengthening instructional delivery
• Increase professional development opportunities for faculty and staff

Goal 3: Contribute actively to the vitality of Whatcom County
• Increase College stature as a community and educational partner
• Lead collaborative efforts with other educational institutions
• Be an active partner in economic development
• Strengthen sustainability practices on-campus and in local and global arenas

Goal 4: Advance the College as a more diverse learning community
• Reinforce diversity elements in curriculum
• Enhance diversity among faculty and staff
• Increase access for under-represented populations

Goal 5: Strengthen the College’s ability to deliver its mission
• Create and manage growth through fiscal, capital, technological and human resource development
• Diversify and secure funding/resources from external sources
• Promote a safe environment for teaching, learning, and working
• Foster an evidence-based culture of continuous improvement

Adopted February 20, 2013

ACCREDITATION

Whatcom Community College is accredited by the Northwest Commission on Colleges and Universities, an institution accrediting body recognized by the Council for Higher Education Accreditation and/or the Secretary of the U.S. Department of Education. The Commission is located at 8060 165th Avenue NE, Suite 100, Redmond, WA 98052-3981.

The College’s programs of study are approved by the Washington State Board for Community and Technical Colleges. The College’s physical therapist assistant program is accredited by the Commission on Accreditation in Physical Therapy Education, and the medical assisting program is accredited by the Commission on Accreditation of Allied Health Education Programs. The College’s nursing program is accredited by the Accreditation Commission for Education in Nursing.

The College is recognized by the American Council on Education, and is a member of the American Association of Community Colleges, the Northwest Athletic Association of Community Colleges, and the Washington Association of Community and Technical Colleges.

STATEMENT OF EDUCATIONAL VALUES

WCC is committed to providing an educational experience that is transformative. The College’s promise statement outlines the following five values which guide that work: (1) supporting student growth, (2) respecting student investment, (3) embracing diversity, (4) promoting excellence, and (5) creating opportunities. These values provide focus for the College’s collective efforts and context for measuring its effectiveness.

CORE LEARNING ABILITIES

Core learning abilities (CLAs) are overarching skills that are emphasized in all courses and programs, student services support and interactions, and co-curricular activities at WCC. CLAs define the skills the College expects its students to develop by the time they graduate with a certificate or degree. WCC’s CLAs are communication, critical thinking, global consciousness, information literacy, and quantitative literacy. The most up-to-date information pertaining to the College’s CLAs can be found at whatcom.edu.

PROGRAM AND COURSE OUTCOMES

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program. They are measurable statements that define the skills the College expects its students to develop over and above the core learning abilities by the end of a certificate or degree at WCC. Course outcomes are the most important skills the College expects its students to develop by the end of a course and are unique to each course. For specific program and course learning outcomes, visit whatcom.edu
AFFIRMATION OF INCLUSION

Whatcom Community College is committed to maintaining an environment in which every member of the College community feels welcome to participate in the life of the College, free from harassment and discrimination. We welcome people of all races, ethnicities, national origins, religions, ages, genders, sexual orientations, marital status, veteran status, abilities and disabilities. Toward that end, faculty, students and staff will:

• Treat one another with respect and dignity;
• Promote a learning and working community that ensures social justice, understanding, civility and non-violence in a safe and supportive climate;
• Influence curriculum, teaching strategies, student services and personnel practices that facilitate sensitivity and openness to diverse ideas, peoples and cultures in a creative, safe and collegial environment.

Adopted 9/10/96; Amended 4/15/03

NOTICE OF NON-DISCRIMINATION

Whatcom Community College complies with federal and state laws specifically requiring that the College does not discriminate on the basis of race, color, creed, national origin, religion, sex (including pregnancy and parenting status), disability, veteran status, sexual orientation, gender identity or expression, genetic information, marital status or age in its programs or services. The following person has been designated to handle inquiries regarding the non-discrimination policies and Title IX compliance: Director for Human Resources, 237 W. Kellogg Road, Bellingham, WA 98226, 360.383.3400. WCC publications are available in alternate formats upon request by contacting the disability support services office at 360.383.3080; VP 360.255.7182.

Accommodations for completing the application process are available to persons with disabilities by contacting the human resources office. The College employs only lawfully authorized alien workers or US citizens. Verification of employment eligibility as specified by US Immigration and Customs Enforcement (ICE), the investigative branch of the Department of Homeland Security (DHS), is required of all new employees. In accordance with RCW 10.97.050, a criminal and educational background check will only be initiated when an applicant becomes a semi-finalist. Whatcom Community College maintains a smoke-free environment. Information related to campus safety may be obtained from the WCC website at whatcom.edu.
Заявление о недискриминации

Уатком (Whatcom Community College) не дискриминирует по признакам расовой принадлежности, цвета кожи, национальности, вероисповедания, пола, инвалидности, статуса ветерана или отношения к военной службе, сексуальной ориентации, генетической информации или возраста в осуществлении своих программ и деятельности. Для решения вопросов, связанных с политикой недискриминации, обращайтесь к директору по персоналу по адресу 237 W. Kellogg Road, Bellingham, WA 98226, тел. 360.383.3400. Публикации WCC доступны в различных форматах по запросу, в Отделе поддержки студентов-инвалидов, тел. 360.383.3080; вице-президент 360.255.7182.

Абитуриенты с инвалидностью могут получить помощь при заполнении заявления, обратившись в отдел кадров (human resources office). Колледж принимает на работу только законно оформленных иностранных рабочих, либо граждан США. Все новые работники должны пройти проверку права на трудоустройство, в соответствии с требованиями Иммиграционной и таможенной полиции США (ICE), следственной службой Министерства национальной безопасности (DHS). В соответствии со сводом пересмотренных законов 10.97.050, проверка образования и наличии правонарушений производится только когда кандидат становится полуфиналистом. Двухгодичный Колледж Уатком (Whatcom Community College) является зоной, свободной от курения. Вы можете получить информацию о безопасности на кампусе, посетив вебсайт колледжа WCC по адресу whatcom.edu.

CATALOG AGREEMENT

Students are eligible to apply for graduation under any catalog in effect during the time of enrollment provided continuous enrollment was maintained. Continuous enrollment is maintained as long as a break in enrollment of four or more consecutive quarters does not occur. Summer quarter is counted and enrollment is determined by transcript activity. Whenever a break in continuous enrollment occurs the student becomes eligible for graduation under the current catalog of the most recent reenrollment.

CONSUMER INFORMATION

As a student or potential student, you have the right to know information regarding Whatcom Community College. The following is a list of available consumer information required by state and federal regulations and where to find it. Most are available in this catalog and/or from the College website. Tuition and Fees

TUITION RATES

Tuition rates are set by the Washington State Legislature. Students are required to pay all tuition and fees each quarter or to enroll in the College's tuition payment plan* before attending classes.

The College offers certain classes on a self-support (rather than state-funded) basis throughout the academic year. Examples include some online classes and the massage therapy program. These courses are charged at a non-standard rate set by the College.

Certain classes or programs such as Adult Basic Education (ABE), some English as a Second Language (ESL), and Parent Education (PARED) carry a reduced tuition rate established by the State Board for Community and Technical Colleges. Tuition rates for such classes or programs are noted in the quarterly class schedule and on the College's website.

The College also participates in a number of state-authorized tuition waiver programs (e.g. senior citizens, state employees, refugees, etc.). See page 14 for more information.

FEES

Special Fees

A special fee can be charged upon approval of the Board of Trustees or the College president when the specialized nature of the class warrants an additional charge. Such fees will be noted on the College's website.

Some programs may have additional fees or tuition rates because they are self-supporting. For more information, visit whatcom.edu under Admissions, Tuition & Fees.

Examination, Certification and Placement Testing Fees

These fees range from $5-$250 and may be waived in certain circumstances.

Common Fees

<table>
<thead>
<tr>
<th>Fee Description</th>
<th>Fee Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Studio print making fee</td>
<td>$150</td>
</tr>
<tr>
<td>Nursing application fee</td>

<td>$50</td>
</tr>
<tr>
<td>Science lab fee</td>
<td>$30</td>
</tr>
<tr>
<td>Various misc. fees</td>
<td>$5 - $200</td>
</tr>
</tbody>
</table>

All fees are subject to change. Fees not listed above may apply to other specific courses and programs or be assessed on a per credit basis.

Running Start students are required to pay a technology and comprehensive fee of $6 per credit with a maximum of $60.00 per quarter.

REFUNDS

A student who stops attending one or more classes without officially withdrawing will forfeit all claims for credits in classes and refunds of fees for those classes.

Refunds are made for withdrawals from classes according to the following schedule for fall, winter, and

<table>

</tbody>
</table>

Note: In addition to the standard tuition charges, most students pay a $6.32 per credit fee (up to 15 credits, or $94.80) to fund a major remodel of the Student Recreation Center. This project was initiated and approved by Whatcom students.

*TUITION PAYMENT PLAN

Whatcom Community College offers students the option of paying their tuition and fees in multiple payments by enrolling in a tuition payment plan. This plan offers students the opportunity to make a down-payment upon registration for each quarter, and then pay the balance of their tuition in several equal payments. Students must sign up online for this option. The plan is administered and serviced by Nelnet Business Solutions and requires a non-refundable fee for each quarter enrolled. Please refer to the College’s website for more information.
Tuition and fees

Spring quarters:
• For the first five instructional days, 100% of the tuition and refundable fees will be refunded.
• After the fifth day of instruction and through the 20th calendar day of the quarter, 40% of the tuition and refundable fees will be refunded.
• After the 20th calendar day of the quarter, no refund will be granted.

Notes:
Instructional days are counted from the official start date of each quarter regardless of the course start date or the date the student first attended the class. Weekends and holidays do not count.

Specific refund dates are on the College’s website.
Summer quarter dates are prorated and are published in the quarterly schedule and on the College’s website.

Refunds for classes that begin and/or end on a schedule other than a normal quarterly schedule will be prorated accordingly.

A reduction of credits will result in a refund of (a) 100% of the difference between the original and the reduced load fees if the change is made by the fifth day of instruction; (b) 40% of the difference if the change is made after the fifth day of instruction and through the 20th calendar day of the quarter; (c) no refund after the 20th calendar day.

Cancellation of classes by the College or failure to admit the student will result in no loss of tuition or fees by the student.

Students withdrawing from reduced tuition programs are subject to the refund schedule outlined above.

Refunds of 100% will be made with the successful submission of a hardship withdrawal for medical reasons. Hardship withdrawals are only granted at the discretion of the registrar’s office.

Residency Requirements

As a Washington state public institution, Whatcom Community College is required to comply with all applicable state laws regarding residency classification (references: RCW 28B.15.011 through RCW 28B.15.015 and WAC 250.18).

Students are initially classified as “resident” or “non-resident” based on the residency questions answered on the admissions application.

In general, a student is considered a “resident” for tuition and fee purposes under the following conditions:

1. The student is a U.S. citizen, or has permanent or temporary resident status, or holds “Refugee-Parolee” or “Conditional Entrant” status with the United States Immigration and Naturalization Service, or is otherwise permanently residing in the United States under color of law, or has a qualifying visa (A, E, G, H1, K or L); and
2. The student is financially independent for the current calendar year and the calendar year prior to which application is made (if the student is not financially independent, then residency is based on whether one or both parents have met all residency requirements); and
3. The student (or, if financially dependent, at least one of the student’s parents) is in Washington primarily for reasons other than educational and has officially established Washington as his or her true, fixed and permanent home and place of habitation for a period of at least one year prior to the start of the quarter of enrollment.

Note: Washington state laws require that new residents of Washington change out-of-state driver’s licenses and out-of-state motor vehicle registrations within 30 days of arrival in this state (references: RCW 46.16.028 and RCW 46.20.021). New residents should also change out-of-state voter registrations.

Students are eligible to change to resident status after they have met Washington state’s residency requirements for students and submitted a residence questionnaire with supporting documentation to the registrar’s office. Residency questionnaires must be completed and submitted prior to the 30th calendar day of the quarter for which the change is being made.

Other conditions which might qualify a student for resident status are:

1. Members/dependents of the U.S. military or Washington National Guard; or
2. Students who spent 75% of their junior/senior years at a Washington state high school, graduated and immediately enrolled in a Washington state college, and whose parents were residents of Washington during that time; or
3. Students who are not U.S. citizens and do not have permanent resident immigration status, but attended a Washington state high school for at least three years and graduated (reference: HB 1079); or
Students who do not qualify for resident tuition under any of the conditions listed above might qualify for a waiver of the non-resident tuition differential (see next section).

The following residency forms are available on the College’s website:
- Residence questionnaire
- Residence checklist/application for non-resident waiver
- Washington higher education residency affidavit

Students can contact the registration office at registration@whatcom.ctc.edu with additional questions.

**Waivers of Non-Resident Tuition Differential**

Tuition waiver applications must be received in the registrar’s office prior to the 30th calendar day of the quarter for which the waiver applies.

Students who are U.S. citizens or have permanent resident immigration status may apply for a waiver of non-resident tuition (operating fees only) under one of the following conditions:

1. Students who have completed three quarters of full-time enrollment at Whatcom Community College, occurring during or after fall quarter 1999; or
2. Washington state high school graduates; or
3. U.S. military veterans; or
4. Students with permanent resident immigration status who came directly to Washington state from their country of origin.

Students who qualify in one of these four categories are to submit the residence checklist/application for non-resident waiver form to the registration office.

Students who do not meet the criteria above, but participate in a co-curricular program (student government, student clubs/activities, athletics, student publications), are to contact the student information center, located in the Syre Student Center, for information and an application.

Refugees/asylees and their dependents may qualify for a waiver of non-resident tuition, regardless of whether or not they have met the one-year residency requirement.
Admissions

GETTING STARTED

Whatcom Community College (WCC) welcomes future students at least 18 years of age, or who graduated from high school or completed a GED certificate. WCC uses emails for formal college-related communication. Please make sure your WCC account contains a current email address.

Apply for Admission

New students: Apply online at whatcom.edu/get-started/apply-now or in person at the admissions and registration office, Laidlaw Center (LDC), 102.

Returning students: If you’ve been away from Whatcom for less than one year, email registration@whatcom.ctc.edu or call 360.383.3030 to reactivate your account. If you’ve been away for more than one year, please complete a new application.

Transfer students: Complete a new student application and submit official transcripts from previous institutions to admissions and registration. To transfer credits to WCC, submit a transfer credit evaluation request form in LDC 102. For more information, visit admissions and registration from WCC’s homepage and click “transferring credits.”

SPECIAL ADMISSIONS

International Students

Whatcom Community College admits qualified international students to academic programs during each of the four academic quarters, and eight times throughout the year to intensive English courses.

Admission requirements for academic programs include:
1. A completed and signed international student application form with an application fee of $50
2. An original financial statement of support demonstrating sufficient funding for one full year of study
3. High school transcripts, and college/university transcripts (if applicable)

4. Advanced placement on Whatcom Community College’s English placement exam, or completion of the intensive English as a Second Language - Academic program

Admission requirements for the intensive English courses include:
1. A completed and signed international student application form with an application fee of $50
2. An original financial statement of support demonstrating sufficient funding for one full year of study
3. Minimum 16 years of age

Students 16 to 17 years old:

The College values the purpose of local public schools and rarely makes admission exceptions. Students who apply for special admission demonstrate competency in academic skills, the ability to benefit in an adult learning environment, and/or a unique artistic, academic, or technical talent. The Running Start office reviews applications from students 16-17 years old on an individual, case-by-case basis.

Students under age 16:

The vice president for student services reviews and provides admission decisions for applicants under the age of 16. Interested students should first contact the Running Start office to review the process with an advisor. Federal grants require students to be over 16 years old to enroll in ABE, GED, or ELL courses.

The Running Start Program

The Running Start program is a partnership between Whatcom Community College (WCC) and the public high schools in Washington. The program allows high school juniors and seniors to enroll in WCC classes tuition free and earn college credits that also apply to high school graduation requirements. Students may enroll concurrently in high school and college classes, or solely in college classes. The cost of fees, books and supplies is paid by students.

The Running Start program offers the eligible high school student the opportunity to get a “head start” on earning college credits, take courses that satisfy both
high school and college requirements, seek academic challenges, and take courses that are not offered in high school. Students do not need permission of the high school to enroll in the Running Start program. This choice is made by the student and parent/guardians. Running Start students have the same rights and responsibilities as all WCC college students.

To participate in Running Start, high school students must be of eleventh or twelfth grade standing, as determined by the public high school or public school district. (This includes students attending a private school or receiving home-based instruction.) Students must place at college-level English. Specific procedures regarding enrolling in courses under the Running Start program are available online at whatcom.edu/runningstart or from the WCC Running Start office.

Note: Students under 18 who do not meet the regular admission or Running Start requirements and who want to attend WCC may do so. Students must first meet with a Running Start advisor to complete the necessary steps prior to review and approval by the vice president for student services.

Professional-Technical Programs
The following degree/certificate programs have special admission requirements that must be completed prior to entry:
- computer information systems – bachelor of applied science degree in IT networking
- massage practitioner certificate and degree
- medical assisting certificate and degree
- nursing degree
- physical therapist assistant degree
- visual communications degree

Refer to pages 63-100 for specific program requirements.

Next Steps

PLACEMENT

Students pursuing a degree or certificate must place into certain course levels prior to registering unless they have successfully completed college-level courses in English composition and math at another institution. Placement opportunities vary, including high school transcripts, placement testing and instructor recommendation. Students should contact entry and advising for more information.

REGISTER FOR CLASSES

Admissions and registration assigns registration access times for new and returning students based on application date. Current student access times are based on number of credits completed. Registration access times are set two to three weeks prior to the end of each quarter. For more information, visit Whatcom’s homepage and find admissions and registration under student services. Click “register for classes.”

PAY TUITION OR CONFIRM FINANCIAL AID

Prior to attending classes, students must pay tuition or confirm financial aid is available. WCC encourages all students to prepare a personal budget and inventory financial resources before starting college. Students receive access to SALT, a financial advice and guidance program designed to help students make informed financial decisions.
resource. Students should complete a Free Application for Federal Student Aid (FAFSA) and/or enroll in a tuition payment plan. See pages 12 and 24 for more information.

**ORIENTATION**

New students will learn about resources and services available on campus at the Whatcom Wave, a new student orientation. For more information, visit whatcom.edu/wave.

**STUDENT STATUS**

For academic purposes, a full-time student enrolls in 12 credits or more. Students interested in more than 18 credits must obtain an advisor signature.

**LATE REGISTRATION**

Registration ends on the third day of each quarter. To register after the third day, students must obtain permission from the instructor of the course they wish to enroll in. Students who register late must pay tuition with any applicable late fees immediately and complete all missed assignments.

**CONTINUOUS ENROLLMENT CLASSES**

Select classes are offered as continuous enrollment, which allows students to register or make schedule changes until the last day of the quarter. (See quarterly calendar online.) Tuition for continuous enrollment courses is due at the time of registration. Late fees do not apply.

**SATISFACTORY/UNSATISFACTORY GRADING**

Students may request satisfactory/unsatisfactory (S/U) grading for courses offered with letter grading until the last day to make a schedule change in the quarter in which the course is taken. (See online quarterly registration calendar for dates.)

**AUDITING A CLASS**

Students can audit certain college courses. Students auditing courses are neither required to attend regularly nor take exams. Audited courses neither calculate into GPA nor apply toward an academic credential. Students may request to change to an audit status or from an audit status until the published last day for enrollment changes for the quarter the class is taken. (See quarterly calendar online.) Tuition for audited classes is paid at the full tuition rate. No discount is offered for audited classes.

**DEADLINES AND DUE DATES**

Visit the registration and academic calendars online for current information: whatcom.edu/degrees-and-programs/calendars

**CHANGE OF SCHEDULE/WITHDRAWAL**

Students may change their schedule or withdraw from classes within the first eight weeks of fall, winter and spring quarters or the first six weeks of summer quarter at the Registration office, Laidlaw Center, 102 or online. Students receiving financial aid should meet with a financial aid representative prior to withdrawing from classes.

*Note: Refer to the online registration calendar for official dates and deadlines.*

**HARDSHIP WITHDRAWALS**

Students unable to complete a quarter or a class due to a hardship (i.e. emergency or extreme events such as divorce, death of an immediate family member, severe illness, call to active military, etc.) may petition for withdrawal. Complete withdrawals may warrant a partial or full refund of tuition. A hardship withdrawal petition and supporting documentation must be submitted to the registrar’s office by the last day of the quarter to which the petition applies.
**Student Records**

Students may access their own records through the student portal on the College’s website. Access requires use of a student identification number (SID) and personal identification number (PIN). Students are strongly encouraged to select a private, secure PIN. Contact the registration office for more information.

---

**NOTIFICATION OF STUDENT RIGHTS UNDER FERPA**

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99), a federal law that protects the privacy of student education records, applies to all federally funded schools. FERPA provides parents with certain rights to their children’s education records. These rights transfer to the student at the age of 18 or during enrollment at a higher education institution. FERPA provides students with rights to their education records, including:

1. The right to inspect and review the student’s education records within 45 days of the day Whatcom Community College (hereinafter referred to as “the College”) receives a request for access.

   Students submit a written request to the registrar, identifying the record(s) they wish to inspect. The registrar coordinates access and notifies the student with details to inspect the records. If the records are maintained by another College official, the registrar will refer the student to the correct College official.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

   Students interested in amending a record submit a written request to the responsible College official. The request identifies which part of the record needs to be changed and provides reasoning for the change. Once the College finalizes a decision, students are notified in writing, including the student’s right to a hearing regarding the amendment request.

3. The right to provide written consent before the College discloses personally identifiable information (PII) from the student’s education records, except to the extent that FERPA authorizes disclosure without consent. FERPA authorizations include:
   - Disclosure to school officials with legitimate educational interest. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, third party servicers such as the National Student Clearinghouse, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
   - Volunteers or contractors outside of the College performing institutional services or functions under the direct control of the College with respect to the use and maintenance of PII from education records. Examples include attorneys, auditors, collection agents, or student volunteers assisting another school official in performing his or her tasks. College volunteers or contractors have a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility for the College.
   - The Solomon Amendment authorizes disclosure of “student recruitment information” for military recruiting purposes without student consent. Disclosed information for currently enrolled students over the age of 16 includes name, address, telephone listing, year of birth, class level, academic major, degrees received, and most recent previous educational institution.
   - The right to prevent disclosure of directory information.

   The College routinely publishes and discloses student directory information. Whatcom Community College defines directory information as: address, email address, telephone number, field of study, weight and height of athletes, most recent previous school attended, photographs, date of birth, class level, academic major, degrees received, and dates of attendance, and degrees/awards (including names of scholarships). A College official will determine whether to disclose directory information if requestor presents a legitimate need.
FINANCIAL OBLIGATIONS OF THE STUDENT

Students who receive services from the College for which a financial obligation is incurred (e.g., tuition, fees, loans, library/parking fines, etc.) are expected to exercise responsibility in meeting those obligations. Appropriate College staff are empowered to act in accordance with regularly adopted procedures; to carry out the intent of this policy, and, if necessary, to initiate legal action to ensure that collection matters are brought to a timely and satisfactory conclusion.

A student’s failure to meet their financial obligations to the College may result in the College’s restricting admission to or registration with the College and withholding the conferring of degrees and issuance of grades and academic transcripts.

STUDENT IDENTIFICATION NUMBERS

The College assigns identification numbers to differentiate student records, and to maintain confidentiality of social security numbers. Students are encouraged to change default personal identification numbers (PIN) to a private, secure code ensuring greater protection of student records.

FINAL GRADE REPORTS

Final grades are available on the Tuesday following the last day of each quarter.

TRANSCRIPTS

In compliance with FERPA, students must request a transcript of grades sent to a college, university, or other agency in writing or through the National Student Clearinghouse. Students submit requests to the registration office directly or online at studentclearinghouse.org. Transcripts may be withheld from students with outstanding fees or other obligations.
Student Services

Whatcom Community College provides comprehensive services that complement its instructional programs and facilitate student learning and development. Beyond the traditional classroom experiences, students are offered a variety of activities that foster leadership, diversity awareness, effective communication, teamwork, self-responsibility, health and wellness. Our mission is to support and challenge individuals in their pursuit of educational, career, and personal goals.

Whatcom Community College faculty and staff believe students are unique and capable adults, responsible for their own learning and achievement of life goals. We foster self-reliance by providing students with access to the information they need for their own educational planning. We strive to create an enriching and supportive environment that encourages people to learn and achieve.

PLACEMENT

Success in college-level courses depends upon adequate academic preparation and study skills. Placement testing helps students determine their current skill levels in reading, writing, and math. The placement test results assist students and their advisors with selection of courses that will help them reach their educational goals.

Students who have not yet completed college level math or English are required to take placement tests. Placement testing may not be required for students who have:
1. Earned college-level credits for English composition and math at an accredited college or university with a grade of 2.0 or higher (submit an official college transcript).
2. Earned a bachelor or associate degree (submit an official college transcript).
3. Taken an English composition, reading, and/or math placement test from a Washington state community or technical college within the last year (submit official copies of the placement results to the placement testing coordinator).
4. Completed at least an algebra 2 (or equivalent) course in a Whatcom County high school within the last two years. See an advisor for individual placement information.

Group and individual placement tests are offered each quarter. Group placement testing sessions include a brief overview of new student services, College processes and financial resources to assist students with early steps for enrollment at WCC. Contact the WCC entry and advising center to make an appointment for placement testing. Testing fees apply.

NEW STUDENT ORIENTATION

A comprehensive half-day new student orientation is offered quarterly to prepare students for their first day of classes and beyond. The new student orientation includes information about WCC educational programs, support services, financial resources, classroom expectations, student activities, and more. Additionally, a two-credit college success course designed for new students (EDPL 100) is offered quarterly, exploring such topics as learning styles, test taking strategies, educational planning, financial literacy, and stress management in college. Contact the entry and advising office or visit WCC’s website for more information and to register online.

ADVISING

The advising program at Whatcom Community College encourages active participation by students. Students are responsible for decisions and choices that affect their academic success and educational goals. Advisors are available on a drop-in basis or by appointment in the entry and advising center to assist students in:

• understanding degree requirements
• obtaining transfer information
• preparing for professional-technical programs
• preparing an educational degree plan
• determining prerequisite courses for specific college majors
• adjusting to the learning environment
• identifying career and educational goals
• determining eligibility for specialized programs

Planning with advisors is also available prior to and during each registration period to help students finalize quarterly class schedules. These appointments are intended to be brief so that students can verify that courses they have selected apply to their degree
or certificate program. Although the College provides assistance in program planning, the final responsibility for fulfilling all academic and graduation requirements rests with the individual student.

Workshops, information sessions and fairs are offered throughout the year, including:

- Transfer and university major options
- Career and major planning
- Strategies for student success

**CAREER AND TRANSFER CENTER**

Located in entry and advising, Laidlaw Center, 116, the career and transfer center provides a wide variety of services to assist students with their career planning, job search, and transfer degree planning. Advisors are available by drop-in for brief advising and by appointment for discussions and topics deserving more time. Staff will assist students on an individual and group basis with career exploration and provide services and assistance in resume writing, interviewing, networking and other job and transfer readiness skills. Other resources are available at the Library, the Writing Center and WorkSource.

**Career and transfer services include:**

- Job listings, announcements and workshops
- Computer-based skill and interest assessments
- Reference books and newsletters on career trends
- Vocational biographies
- Computers for use by students in their job search
- Correspondence and scholarship information
- Job openings and advising updates at wccadvising.wordpress.com
- University-specific degree information and transfer requirements

**COUNSELING**

Personal counseling is available to all enrolled Whatcom Community College students at no charge. Our professional counselors offer a safe confidential place for students to explore and receive support in addressing personal challenges that may be interfering with their academic, personal and career goals; helping them problem-solve and find solutions. Counseling at WCC is short-term, so when needed, our counselors are able to help students access community resources. Many of the concerns for which students have sought counseling are:

- Problem solving and decision making
- Stress management
- Transition to college life
- Academic success strategies
- Grief
- Coping with anxiety and depression
- Crisis management
- Career planning
- Relationship issues
- Support for problems resulting from chemical dependency
- Referrals to community support services

To schedule a counseling appointment contact entry and advising in Laidlaw Center, 116.

**ACCESS & DISABILITY SERVICES**

**Access and Disability Services**

Whatcom Community College recognizes disability as a valued aspect of diversity and is committed to ensuring access to programs, activities and facilities for students with disabilities. Students with a permanent or temporary disability are encouraged to contact the access and disability services office. To receive services, students must self-disclose to the office of access and disability services and provide written, formal documentation from a health care provider that states the diagnosis and functional limitations of the disability.

**Academic Adjustments**

Accommodations and appropriate academic adjustments are determined on a case-by-case basis and include, but are not limited to: note takers, readers, scribes, accommodated testing, sign language interpreters, speech-to-text transcribing, texts in alternate format, and adaptive equipment. Students must renew accommodations on a quarterly basis. For more information, contact entry and advising in Laidlaw Center, 116, to schedule an access planning appointment with access and disability services.
FINANCIAL AID

Financial Aid Eligibility

Students attending Whatcom Community College for the purpose of receiving a unique degree or unique certificate may be eligible for financial assistance through federal, state or local funding programs. Federal and state regulations limit the amount of time a student can receive financial aid to attend school. Students who plan carefully with the assistance of an academic advisor have the best chance of graduating in a timely fashion and accomplishing their academic goals without exhausting their financial aid eligibility before completing their program. It is especially important for students who are planning to transfer to a four-year program to meet with an advisor to ensure that WCC degree requirements and the four-year program entry requirements are met without exhausting their financial aid eligibility.

For financial aid eligibility purposes, WCC students may take a maximum combined total of two unique degrees or certificates. See the satisfactory academic progress policy, receiving aid for more than one program of study, on the financial aid section of the WCC website for detailed information.

Financial aid students are required to enroll only in courses that meet remaining requirements for their selected program of study. For example, a physical therapist assistant student would not be eligible for financial aid funding to take a physical education class, since a PE class does not apply to the PTA degree. Students who enroll in courses that do not apply to degree requirements may lose financial aid eligibility.

Information about establishing financial aid eligibility, maintaining financial aid eligibility, and about various financial aid benefit programs is available in the financial aid section of the WCC website and is also available by visiting the financial aid office.

Changing Your Program of Study

For financial aid eligibility purposes students are allowed to make program changes. All previously attempted credits that are degree or elective requirements will count toward the maximum credits allowed for the new program. Students who have made multiple program changes may be required to meet with a WCC academic advisor to secure an approved program completion plan including only classes needed to complete the degree or certificate. Students who do not follow the approved program completion plan may lose their financial aid eligibility. Students within 15 credits of completing their program of study will not normally be permitted to change programs of study and be eligible to receive financial aid funding.

Application Process

Whatcom Community College has implemented a secure portal for financial aid that provides applicants with 24/7 access to the status of their financial aid requirements for each award year. Once the financial aid office receives the student’s FAFSA information from the U.S. Department of Education, students can access the financial aid portal. Additional information on the use of the secure financial aid portal is available in the financial aid section of the WCC website.

The Whatcom Community College financial aid office communicates to students and prospective students who have completed their FAFSA via the email address that the student provides on their FAFSA.

Apply Early! The WCC financial aid process takes approximately 6-8 weeks. Awarding for a new school year (currently summer quarter through spring quarter) starts approximately May 1.

Step 1 - Student completes FAFSA at www.fafsa.ed.gov

• WCC school code: 010364
• Need help completing the FAFSA? Call 1.800.433.3243.
• It takes WCC approximately one week to receive the student’s FAFSA information.

Step 2 - WCC receives student’s FAFSA information

• Student is sent an email alert (to email address listed on FAFSA) verifying FAFSA received and sending student to WCC financial aid portal to see list of additional requirements.
• Processing will not continue until all requested elements are met.

Step 3 - Apply for WCC admission

• Student must apply for Admission to WCC and enroll in an aid-eligible program.

Step 4 - Review

• After all elements are met and worksheets completed and returned, WCC is ready to review a student’s application.
• Review process may take 3- 4 weeks.
Step 5 - Initial Awarding Process
- The initial awarding process takes approximately 2-3 weeks.
- Student awarded maximum amounts for grants, work study and scholarships.
- Once awarded, student receives an email alert notifying student to go to WCC financial aid student portal to see their financial aid awards.
- If student is not eligible for grants, work study and/or scholarships, student is sent an email alert informing them and notifying them of their student loan eligibility and the WCC student loan process.

Step 6 - Student Loan Awarding Process
- Students who are not eligible for grants or scholarships or whose awards do not meet their education funding needs may request a student loan award after the student has been notified of their potential student loan eligibility.
- To request a student loan, go to the federal student loan section of the financial aid section of the WCC website.

Step 7 - Awards Released
- Financial aid awards are applied directly to tuition and fees due; remaining credit balances are provided via WCC’s third party disbursement servicer.
- Student credit balance availability and amounts can be viewed by using the WCC financial aid portal.

Application Deadlines
WCC has established a “priority deadline” of March 15 for completing the financial aid process for the next award year. Students may apply for aid throughout the year; however, if the student is expecting a determination of eligibility and financial aid awards by the time the student will be starting classes, the student must complete the financial aid process by the “priority processing deadline” that applies to the quarter for which they will be starting to attend. WCC has established a “priority processing deadline” for new students for each quarter. These dates are listed in the “important dates” area in the financial aid section of the WCC website. Students are always encouraged to complete their FAFSA and the WCC financial aid process as early as possible, as applications are reviewed and aid is awarded in the order in which the student has completed all of their financial aid requirements.

Students who have not been awarded aid prior to published tuition due dates for the quarter that they will be starting should plan on paying their own tuition by the published tuition due dates to prevent being dropped for non-payment from the classes for which they registered.

Satisfactory Academic Progress Requirements for Financial Aid Recipients
Federal and state financial aid regulations require that students who receive financial aid be required to make satisfactory academic progress in order to maintain financial aid eligibility. It is reviewed at the completion of each quarter for every student receiving federal and/or state aid awards.

WCC’s federal financial aid satisfactory academic progress requires students to maintain a minimum 2.0 cumulative academic grade point average for the academic program in which the student is enrolled and requires that the student cumulatively complete a minimum of two thirds of the program credits for which the student has enrolled.

WCC’s state financial aid satisfactory academic progress requires students to maintain a minimum 2.0 quarterly grade point average and requires the student to complete at least one-half of the amount of credits for which aid was received for that quarter.

Students have a maximum time frame for completing a program of study. To remain eligible for financial aid the student must be mathematically capable of completing their program within at least 150% federal (or 125% for state regulations) of the total number of credits that are required for their declared program. (Note: all program credits attempted are counted in this calculation.)

Students are urged to carefully plan their academic class load each quarter, as any classes which are started and then dropped, adversely affect the student’s satisfactory academic progress.

See the financial aid section of the WCC website for detailed Satisfactory Academic Progress Policies.

Scholarships
Whatcom Community College, the Whatcom Community College Foundation and numerous friends of the College have cooperated to develop and offer scholarships for WCC students. Awards typically range from $500 to full tuition. Scholarships are available
to students who demonstrate outstanding academic achievement, financial need, athletic skills, personal growth, or contributions to fellow students or the College. More information is available on the WCC website, at the financial aid office or by contacting the Foundation.

A scholarship web tool has been developed by the state of Washington and supporting private industry to assist higher education students in Washington to locate and apply for scholarships. This web tool can be accessed at theWashBoard.org.

**VETERAN SERVICES**

Whatcom Community College offers degree programs approved by the Washington Student Achievement Council—the State Approving Agency—for the enrollment of those students eligible under Veterans Administration (VA) education benefit programs. Veterans, reservists, and eligible dependents should contact Veteran Services at 360.383.3015 to begin their education at Whatcom.

Eligible veterans and dependents must apply for admission to Whatcom and are encouraged to contact veteran services as early as possible before enrolling. Depending on the student’s funding status, payment of benefits may be made directly to the student, or both to the student and to the College. Students should be prepared to meet the cost of tuition, fees, books, and other expenses prior to receiving any payments from the VA. Benefit payments are mailed directly to the student’s residence or directly deposited into the bank account of the student’s choice. Generally, payments are made at the end of each month of school attendance for as long as the student is enrolled and making satisfactory progress.

It is the responsibility of the student to stay in contact with Whatcom’s veteran services office to ensure the continuation of benefits on a quarterly basis. This also includes changes to the student’s enrollment status, such as adding or dropping classes.

Students must designate a VA-approved program of study on their GI Bill benefit application in order to receive benefits, and only classes listed in the VA-approved curriculum will be funded. All of Whatcom Community College’s associate degrees are deemed approved for VA education benefits.

Veterans benefit recipients are required to maintain satisfactory academic progress according to the College’s policies. Failure to comply with Veteran Administration regulations may result in termination of benefits.

Veterans using VA benefits must have their military credits sent to Whatcom, evaluated, and applied to their program of study where applicable. Failure to transfer and evaluate military credits within three quarters will result in suspension of VA benefits. More information about military credits can be found by visiting the veteran services office.

**Rights of Washington National Guard and other military reserve students called to service (RCW 28B.10.270)**

A member of the Washington National Guard or any other military reserve component who is a student at an institution of higher education and who is ordered for a period exceeding thirty days to either active state service, as defined in RCW 38.040.010, or to federal active military service has the following rights:

- May be given a grade of incomplete and allowed to complete the course upon release from active duty.
- May continue and complete the course for full credit.
- Is entitled to make up the class, test, examination, laboratory, presentation, or event without prejudice to the final course grade or evaluation.

Contact veteran services for more information about this law and how it may affect you.

Active, reserve, and National Guard service members interested in using Tuition Assistance must first determine eligibility with their respective branches and commands. Veteran services will provide students with a Tuition Assistance degree plan, quarterly advising, and assistance submitting the appropriate paperwork necessary to pay tuition and fees.

**INTERNATIONAL STUDENT SERVICES**

The staff of Whatcom Community College’s international programs provides a variety of services to support international students throughout their studies at the College, from the point of applying for admission through graduation. Services for international students include:
• Admission advising  
• Homestay placement and housing coordination  
• Airport pick-up  
• Placement assessment, orientation, and registration advising after arrival  
• Immigration, academic, cultural adjustment, and personal advising  
• Educational planning and university transfer advising  
• A recreational activities program

LEARNING CENTER

The College’s learning center is the place to go for academic support. Open to all registered WCC students, the learning center offers skills development and tutoring. Drop-in tutoring is available in writing and math at the writing center and the math center located in the learning center. Tutoring in other subjects is also available by arrangement. Every effort is made to locate tutors for students in a wide variety of subjects, including ESLA.

Writing Center

The writing center provides assistance to students at all stages of their writing processes: assignment analysis, prewriting, revising and editing. The writing center promotes the exchange and discussion of ideas in order for students to enhance their writing abilities and become independent writers. Peer tutors, under the direction and supervision of the writing center coordinator, staff the writing center.

Math Center

The math center offers students drop-in assistance with math problems in a supportive environment. Tutors assist students with math concepts, alternative math texts, math software, calculators, and the online math center. Students may download programs to their calculators and interface their calculators with the computers for class assignments. Peer tutors, under the direction and supervision of the math center coordinator, staff the math center.

Tutoring in Other Subjects

The tutoring program offers opportunities for students to receive free tutoring. Information and forms for requesting tutoring or becoming a tutor are available in the learning center. Qualified students may be hired and paid as tutors. The tutoring program is funded in part by student services and activities fees.

English speaking students are also available to help students in ESLA classes understand the content and the cultural context of their class reading assignments. This service is funded in part by the international program. Tutoring programs are under the supervision of the learning center director. Contact the learning center for more information.

LIBRARY

The library, located in the Heiner Center, provides a safe space for students to collaborate on projects, study, perform research and obtain assistance from librarians. The library houses books, journals, videos, music CDs, DVDs, maps, etc. There are silent and group study rooms, along with computers and printers for student use. Photocopiers and miscellaneous supplies (stapler, paper cutter, 3-hole punch, etc.) are also available.

Librarians at the reference desk work with students on a one-to-one basis for help with research. Students can chat via “ask-a-librarian” 24/7 through a link on the library’s website. Librarians teach information literacy and provide customized instruction sessions to classes from disciplines across the curriculum.

The library’s website (library.whatcom.edu) provides access to music and video streams, periodical databases, local library catalogs, tutorials and subject guides. Textbooks and other course materials placed on reserve by faculty members may be checked out at the reserves/circulation desk. WCC students with library cards from the local Bellingham Public or Whatcom County library systems may place holds from either catalog and designate “community college” as the delivery location. Students needing resources unavailable on campus may request them through interlibrary loan using a form on the library website or use their student ID to access any one of six area libraries in the Whatcom Libraries Collaborate. Media services, on the top floor of the library, loans equipment such as digital cameras and camcorders to students. Students can receive production help with video and audio projects.

STUDENT BOOKSTORE

The WCC bookstore carries all instructor-designated required and recommended course materials, as well as a large selection of supplies, study aids, gifts, snacks, academically priced computer software, WCC sportswear and logo merchandise. Items are available for purchase either on campus or online via the
The bookstore’s website (bookstore.whatcom.edu). All instructor-submitted course material information and pricing details are posted quarterly on the bookstore’s website. For added savings, the bookstore carries a wide selection of discounted used books for purchase or rent, as well as discounted WTA bus passes and Regal Cinema theater passes. The bookstore accepts cash, personal checks, Whatcom’s Orca Card, Mastercard, Visa and American Express. The bookstore is open extended hours at the beginning of each quarter to assist students with locating their course materials. Textbook buybacks are held the final week of each quarter. The bookstore is located on the first floor of the Syre Student Center.

**STUDENT COMPUTER USE**

WCC is a Windows/Office-based PC environment providing open access for student use. The College’s library provides computers for research purposes and the student access lab provides students with the full complement of Office, internet, web-based email, and specific curriculum based software (check with your instructor). Open hours for both venues are posted throughout campus and can also be found on the College’s website.

All computer access requires students to use a personalized network account. This is required for computer access in all labs, classrooms, etc. With the network accounts, students will have:

- Personalized username and password
- “My Documents” network storage 5 GB and Web Storage 25GB
- Wireless access
- Whatcom email address
- Web-based Microsoft Office
- Remote access to campus desktops and applications

The College also supports several computer classrooms used in computer aided instruction (CAI). Access to these computers will be limited to those students enrolled in CAI classes for the quarter. Instructors will inform students that are scheduled in a computer based lab.

Visit whatcom.edu under student services, computer access & tech help for more detailed information.

**Student Access Computer Lab**

There are 79 computers in the student computer lab offering Windows 7, Office 2013, and internet access. The lab provides WCC students with access to their student network accounts, curriculum based software, email, faxing, scanning, copying and printing (black & white and color).

Students can check out laptops, Flip video cameras, and digital cameras and get assistance setting up their network accounts. Also available are five big screen monitors for group projects.

Student technology helpdesk staff are available in the computer lab to answer questions about access to course management systems, use of online resources, student email and common software used by students.

**STUDENT LIFE**

**Associated Students of Whatcom Community College (ASWCC)**

The ASWCC represents students in many important ways, including advocacy for solving student problems, review of college policies affecting students, facilitating issue forums, and survey implementation to determine student needs. The ASWCC senate significantly contributes to College decision making. With other students around the state, ASWCC represents student concerns to the Washington state legislature and to state officials. It manages the services and activities (S&A) fee budget, sets goals and priorities, and develops a proposed budget for approval by the WCC Board of Trustees.

The S&A budget is derived from fees that each student pays as part of tuition. With these funds, the senate supports services such as the office of student life, the student newspaper, WCC student activities committee, intercollegiate and intramural sports, co-curricular programs and student clubs.

Membership on the senate offers an opportunity for students to earn college credits and a stipend while gaining valuable leadership experience, which can be applied to future endeavors, such as business, community activities, or government service. To become a member, a student must obtain at least 25 signatures of WCC students on a constituent election form, be enrolled for at least 8 credits, and maintain a 2.50 GPA. Some officers are elected, while others are appointed.

Please check the College website for more information. All officers and senate members receive a quarterly stipend for active participation. Information about the council and election procedures is available from the office of student life, located in the Syre Student Center.
Programming and Diversity Board
(Student Activities)

The ASWCC programming and diversity board is a group of student leaders who work to enhance student life by offering a wide spectrum of educational and recreational programs. The board is dedicated to providing programming around topics of diversity and social justice issues, with the intent to increase conversations across campus that promote inclusivity and cultural competencies. Members of our campus community look forward to participating in the wide range of events brought to campus. While the board is focused on diversity and social justice, the group also offers events such as theater productions, concerts, speakers, intramural sports, movies, ski trips to Mt. Baker, hikes, music, and more!

Students on the board are members of a high-functioning leadership team and receive both training and real-life experience in leadership, budgeting, marketing, program planning, graphic design, and contract negotiations. All students are welcome and encouraged to apply for a position on the board. This unique, one-year employment opportunity begins in fall quarter. Applications are accepted during spring quarter for the following year and are available online or may be picked up at the programming and diversity board office, which is located in Syre Student Center, 208. Upon completion of the one year program, members of the board will have tangible evidence of their experience and achievements, and will have completed a culminating portfolio that will support their academic transfer and/or transition into employment. For more information, email activities@whatcom.ctc.edu or call 360.383.3170.

Ambassadors Program

Student ambassadors serve as outstanding representatives of Whatcom Community College by strengthening connections with faculty, staff, and current and future students. Ambassadors provide tours for prospective students, market and attend campus events, guide community members to campus resources, and welcome new students at orientations. Student ambassadors strive to support student success and retention, provide peer leadership, promote diversity on campus, and assist with the successful transition of new students. Applications for this program are accepted annually in the spring quarter, and selected ambassadors serve a year-long term from September through June. Program participants earn a stipend for the 30+ hours they contribute per quarter. The student ambassador program is located in Syre Student Center, 208.

Clubs

Clubs offer an excellent opportunity for Whatcom students to get involved, meet new people who share similar interests and make friends. They also provide the opportunity for students to engage with the campus in new ways that enhance their college experience. Through co-curricular programming, clubs create an excellent way for students to connect and network with faculty and staff, and develop life skills such as interpersonal communication, critical thinking, time management, and conflict resolution. The ASWCC recognizes a wide variety of clubs, including the ethnic student association, service-learning club, math club and many more. For more information about the 30+ clubs on campus, please visit the WCC website or stop by the office of student life located in Syre Student Center, 208.

Athletics

Whatcom Community College engages in intercollegiate sports competition for both men and women. The athletics program provides opportunities for students to develop teamwork, self-discipline and leadership skills. The WCC Pavilion provides a home for the Orcas’ men’s and women’s basketball and women’s volleyball teams. Orca Field, a lighted, state-of-the-art synthetic turf facility, is home for the men’s and women’s soccer teams.

The College is a member of the Northwest Athletic Association of Community Colleges (NWAC) and is governed by the rules and regulations of this organization, in addition to those of the College. To maintain athletic eligibility at Whatcom Community College, students must pass at least 12 quarter credit hours each quarter with a grade point average of 2.00 or better. Academic advisors, counselors, and coaches work together to promote the academic success of athletes.

Athletic grants-in-aid are available in all sports and are based on talent and need. Persons interested in intercollegiate sports programs, including information about athletic grants, should contact the athletic director or the head coach for the sport of their interest. The office of student life administers WCC’s athletic programs and is located in the Syre Student Center.
Intramural Sports
The intramural sports program provides competitive and recreational opportunities in sports, such as basketball, volleyball, tennis, and soccer. The ASWCC programming and diversity board plans and schedules an intramural program meeting student needs. Any student may join the activities committee to become involved in planning. All students are welcome to participate.

Pavilion & Student Recreation Center
Whatcom Community College’s Pavilion & Student Recreation Center is open to students, faculty and staff. This has been a very exciting student-led project, culminating after several years of planning, design and construction. The facility includes more than 24,000 square feet of new construction and 6,700 square feet of renovated space.
Amenities include:
• New fitness and strength training equipment, including cardio machines (with live TV and video capabilities), free weights, and more
• Indoor running track
• Balcony-level fitness and stretching areas
• Updated gym for basketball and volleyball
• Two studio spaces equipped with specialized flooring (e.g. wood-sprung floor in second level studio)
• Towel service and upgraded locker room facilities
• Food and beverage services (available to members and non-members)
• And more!
Students, faculty and staff must complete an online waiver in order to access the facility’s amenities. See the WCC website for information.

Horizon, the Student Newspaper
Horizon, the Whatcom Community College student newspaper, is published 15 times during the school year. Any student interested in journalistic writing or photography is welcome to participate. Desktop publishing technology is used to produce the paper. Staff positions include editor, production manager, photo editor, and marketing manager. These positions receive quarterly stipends. Students who work on the Horizon may earn college credit and gain newspaper experience. Information about the newspaper and about application for staff positions is available from the office of student life. The Horizon office is located in Cascade, 129.

Residence Life
Whatcom Community College residence life provides off-campus apartments available to house 164 students and provide programming for its residents. These furnished apartments are affordable and within close proximity of the campus (within 2 miles), shopping, restaurants and public transit. The residents are a mix of currently enrolled domestic and international students. The convenience of these apartments encourages participation in on-campus activities, study sessions at the library, and after-hours use of campus facilities like the Pavilion and Student Recreation Center. There are on-site resident advisors to assist residents and provide resources. It is the mission of WCC residence life to provide a learning environment and a feeling of community that fosters the advancement of its residents. More information about the residence life program is available at whatcom.edu/housing.

WCC Orca Card (Student ID)
The WCC student ID card (Orca Card) is issued to all currently enrolled students. To obtain an Orca Card, you must provide your student ID number and a photo ID (driver’s license, passport, or military).

WCC student ID cards can be used to access:
• Business and classroom labs
• Items from the WCC library
• Fitness center, Pavilion gym and tennis courts

The College deposits $15 for printing and copying on your card each quarter. In addition, you may deposit funds into your account to make purchases at:
• The Dockside Café and campus coffee stands
• WCC bookstore
• Campus vending machines

Students may deposit funds onto their Orca Card through MyWCC or by depositing cash into a point of deposit (POD) located in the Heiner and Syre buildings. Family and friends of WCC students can support a student’s education by depositing funds to help pay for books and meals. Go to whatcom.edu/orcacard. Under “stuff you should know,” click on “deposits” and then “guest deposit.” The information you will need includes:
• The student’s 9-digit ID number (located on the back of the card)
• Their first and last name as it appears on the Orca Card

Note: WCC students must log in at least once on the student portal before guests can make a deposit.
Your first Orca Card is free; replacement cards are $15.00. To learn more, please contact the Office of Student Life at 360.383.3007 or stop by Syre Center, 208.

**WORKFIRST**

WorkFirst provides parents currently receiving TANF access to training to improve skills and increase opportunities for employment with stronger earning potential. A referral from a DSHS case manager is required to participate. Eligible pathways include pursuit of a professional-technical certificate, prerequisite courses for a professional-technical program, and basic education. Students can take courses in pre-college level English and math, or prepare to take the GED exam. WCC also offers classes for adult high school completion. For more information, please contact the WorkFirst office in the Cascade building, room 133 or call 360.383.3180.

**WORKER RETRAINING**

Worker retraining provides educational access, follow-along support, financial assistance and re-employment activities to eligible individuals seeking retraining in one of Whatcom Community College's professional-technical programs. Worker retraining serves individuals with unemployment claims within the last 48 months, displaced homemakers, the formerly self-employed, eligible veterans and vulnerable workers at risk of losing their income without proper training. Worker retraining coordinates services with WorkSource partners and the Employment Security Department. For more information, contact worker retraining in the office of entry and advising.

**BASIC FOOD AND EMPLOYMENT TRAINING (BFET)**

BFET provides eligible students access to basic food benefits, Working Connections Child Care subsidies, and limited funding for educational access. Eligible pathways include professional-technical programs. Students can take courses in pre-college level English and math, or prepare to take the GED exam. WCC also offers classes for adult high school completion. For more information, please contact the BFET staff in Laidlaw Center, room 116 or call 360.383.3080 to schedule an appointment.

**PASSPORT TO COLLEGE PROGRAM**

The Passport to College Promise scholarship program helps students from foster care prepare for and succeed in college. Eligible students receive a scholarship that assists with the cost of attending college (tuition, fees, books, housing, transportation, and some personal expenses), specialized support services from College staff, and priority consideration for the state need grant and state work study programs. For more information or to schedule an appointment with the passport program advisor, visit entry and advising in Laidlaw Center, 116 or call 360.383.3080.
Educational Options

Whatcom Community College offers a variety of programs and courses:

**DEGREE/CERTIFICATE/DIPLOMA PROGRAMS**

The Associate in Arts and Sciences (AAS) transfer degree provides a broad range of courses designed to prepare students for upper-division study at a four-year college or university. The Associate in Science (AS-T) Transfer option allows science and engineering majors to concentrate on preparation in the sciences before transferring to a four-year college or university. The Associate in Science (AS) and Associate in Arts (AA) degrees offer practical training in a range of two-year professional-technical programs to prepare students to enter the work force; shorter certificate options are available for some programs. The Associate in Applied Science-Transfer (AAS-T) degree is built upon technical and general education coursework designed to prepare a student for direct entry into the work force or transfer to a participating four-year institution. For more information and a complete listing of available programs, refer to the Degree/Certificate/Diploma Programs section that begins on page 46.

**TRANSITIONAL LEARNING PROGRAMS**

These programs are designed to equip students with the academic skills necessary for success in a variety of educational, employment, and personal pursuits.

**Adult Basic Education**

Adult Basic Education (ABE) classes in reading, writing, and math are designed to meet the employment and pre-college educational needs of students 19 years or older. Day, online and evening courses are offered. Students may take these classes to help them prepare for GED tests, to complete the adult high school diploma, to fulfill job retraining, to improve their employability skills, or to improve their basic academic skills. Emphasis is on skill development for educational career pathways and job skills. Orientation and assessment are required before enrolling into classes. Contact the office of transitional learning programs for more information.

**College Success Studies**

Courses in reading, writing, mathematics and study skills are available for students who would benefit from skills enhancement before or while attending regular college courses. Performance on assessment tests or recommendation by advisors determines placement in most of these courses. Several college success courses are offered to meet the unique learning needs of each individual. These include critical analysis, college study skills, and college success. Many students enroll in below 100 level math and English courses to prepare for the math and composition classes required in college.

These academic skill-building courses are offered both day and evening. Courses numbered below 100, although assigned credit for financial aid purposes, are nontransferable as part of a degree or certificate program. Students are encouraged to talk with an advisor to determine which courses best meet their needs.

**English as a Second Language/English Language Learner**

Whatcom Community College offers high quality programs for students whose first language is not English. ELL (English Language Learner) classes are open to immigrants and refugees 19 years or older. Classes are offered fall, winter and spring and are available day and evening. The ELL program provides instruction and practice in listening, speaking, reading, writing and vocabulary building. Emphasis is on skill development for educational career pathways and job skills. Classes provide instruction and practice in listening, speaking, reading, writing and vocabulary building. Orientation and assessment are required before enrolling into classes. Contact the office of transitional learning programs for more information.

ESLA (English as a Second Language for Academic Purposes) classes are open to low-intermediate to advanced students whose first language is not English. These classes provide instruction in composition, reading, vocabulary development, oral communication, discussion skills, lecture note-taking, and grammar. These courses are designed for students who plan to pursue college degrees or certificates, as well as for international students and visitors who have come to this country in order to improve their English. Orientation and assessment are required before enrolling into classes. Contact the ESLA coordinator or the international programs office for more information.
Adult High School Completion (HS21+)

The Adult High School Completion program provides adults 21 years and older with the opportunity to finish their high school education and earn a diploma from Whatcom Community College. Students who are 19-20 years of age should speak with an advisor about other options including the GED exam.

I-BEST

I-BEST stands for Integrated Basic Education and Skills Training. An I-BEST program is one that pairs basic educational skills (English and math) with workforce training. Students learn literacy and workplace skills at the same time. There are two instructors in the classroom and an extra support class to help students understand classroom information. Contact the director for transitional learning programs for more information.

COMMUNITY & CONTINUING EDUCATION

Whatcom Community College offers a wide variety of quality non-credit certificates and classes designed to meet the training needs and lifelong learning interests of local citizens, businesses and organizations. Community & Continuing Education classes are affordably priced and offered at convenient times—days, evenings and weekends—throughout the year. There is no application for admission and registration can be completed over the phone or online. Classes are listed in the Discover quarterly schedule and on the Community & Continuing Education website. Customized training is also available to businesses and agencies to meet specific needs. For more information, visit Community & Continuing Education at whatcomcommunityed.com.

Learning Options

Learning is a lifelong experience that takes place in many forms and settings. At Whatcom Community College, various modes are available for learning, as well as methods of obtaining credit for learning that occurred elsewhere. The various modes of learning are as follows.

INSTRUCTIONAL MODES

Face-to-face

Students attend regularly scheduled class sessions where instruction consists of classroom discussion, presentations, lecture, laboratory, and/or group work. The course may be supplemented through the use of a variety of other learning methods, including online discussion groups, writing assignments, or testing. Face-to-face course sections with a required, graded online component will be designated as web-enhanced, identifiable by a footnote in the registration schedule.

Online/Hybrid

WCC provides a convenient alternative to traditional face-to-face classroom instruction for busy, self-motivated students. Online courses use a variety of technologies, materials, and methods to achieve the same learning outcomes as traditional courses. These courses are conducted solely through an online platform, but may include site-proctored testing. Hybrid courses are conducted partially through an online course platform, and partially face-to-face. For more information, visit the College’s eLearning website at whatcom.edu/elearning.

Contract Learning

A learning contract is a mode of learning where a student can earn credit for independent, individualized, college-level experiences outside the classroom. Students can design their own course or use the learning contract as a way to take a course from the WCC catalog. A faculty mentor, an individual with expertise in the subject area, is recruited to facilitate and evaluate the student’s learning. The learning contract broker helps students to develop ideas and put all the elements of the learning experience together. For further information, contact the learning contract coordinator in the entry and advising center.
Cooperative Education/Internships

Cooperative education/internships are experience-based learning courses for credit across disciplines. Students deepen their learning while adding to their resume by applying knowledge and skills in a structured, career-related setting within the employing community. Students also develop the proper work ethics and attitudes, responsibility and personal qualities, along with critical thinking and problem solving skills necessary for success in the workplace. Measurable learning objectives are developed collaboratively by the student, faculty mentor and employer through a learning contract process. The students complete written and oral reflections of learning throughout the quarter, along with an evaluation process at the end of the quarter. Students interested in cooperative education/internships are encouraged to plan ahead to secure a placement in their field of study.

WCC Service-Learning

Service-learning is one vehicle in the College’s curriculum that presents opportunities for learning by experience. Service-learning is an activity — usually an assignment or a set of assignments — within a credit-bearing course in which students participate to address identified community needs. Students reflect on the activity and the value of their own participation to gain further understanding of course content, greater recognition of the applications of disciplinary content, and an enhanced sense of civic responsibility.

Various courses across the disciplines offer a service-learning component. For more information, contact the service-learning coordinator.

Compass 2 Campus (C2C)

Compass 2 Campus is a cooperative education course that is an introduction to mentoring principles while putting “best practices” into action through mentorship experience in a school setting. The course is designed to develop the skills of reflective practice, community service, and active citizenship (social responsibility) through outreach in placements with 5th – 12th grade students from varied cultural, social and economic backgrounds. College students will gain experience in public service, social work, human services and/or teaching to build critical skills necessary for their work in career pathways. Western Washington University leads this course in partnership with Whatcom Community College. For more information, contact WCC’s entry and advising center, Laidlaw Center 116.

Self-Paced Labs/Mediated Learning

This learning mode allows students to progress at an individual pace with assistance from an instructor.

Study Abroad

Several opportunities for student learning occur in other regions of the world. These programs are very experiential in nature; students learn subject matter in a unique way and increase their cross-cultural communication skills and global knowledge. Students report that the experiences are often “life changing.” The associate director of international programs can assist students in finding the right program to fit their interests.
CREDIT FOR PRIOR LEARNING

College Level Examination Program (CLEP)

WCC awards credits for CLEP exams that meet the subject and score criteria agreed upon by the college departments that oversee each appropriate discipline. Acceptable scores/course equivalencies are published on the college’s website. Students who apply for CLEP credit must request that official CLEP scores be sent directly from the College Board to the WCC records office. CLEP is considered transferred-in credit and is posted on the student’s academic record at the time of graduation. CLEP credits may not transfer to other colleges and universities. It is the student’s responsibility to contact transfer institutions regarding the acceptance of these credits.

Prior Learning Assessment

Prior Learning Assessment (PLA) provides students with an opportunity to earn college credit for the knowledge and skills you bring as a student. Prior learning credit is aligned with a corresponding WCC course. Students who believe that their professional experience, self-study or industry certifications meet the specific outcomes of a WCC course may demonstrate their prior learning through a course challenge. Each department determines the evaluation method required for students to demonstrate mastery of the course content. Not all courses are appropriate for course challenge. Information outlining procedures and fees is available in the entry and advising center as well as the college website.

High School Programs

Advanced Placement (AP)

The Advanced Placement (AP) program consists of college-level courses and exams for high school students. WCC awards specific course credit for AP exams with acceptable scores that are similar to courses offered by WCC. AP exams without comparable course offerings may be eligible for elective credit.

Students who apply for AP credit must request that official AP scores be sent directly from the College Board to the WCC records office. AP credit is considered transferred-in credit and is posted on the student’s academic transcript at the time of graduation. Acceptable scores/course equivalencies are published on the College’s website.

College in the High School

High schools in Whatcom County may contract with WCC to offer designated classes for college credit through the College in the High School (CHS) program. Students enrolling in such classes pay an administrative fee rather than full tuition. Information on classes, fees and procedures for CHS is available at individual high schools.

International Baccalaureate (IB)

The International Baccalaureate program consists of college courses and exams for high school students. WCC awards credit for higher level IB examinations that meet subject and score criteria agreed upon by the college departments that oversee each appropriate discipline.

Students who apply for IB credit must request that official IB scores be sent directly from International Baccalaureate to the WCC records office. IB credit is considered transferred-in credit and is posted on the student’s academic transcript at the time of graduation. Acceptable scores/course equivalencies are published on the College’s website.

Tech Prep Program

Tech Prep is a dual credit program that offers high school students an opportunity to earn college credits for approved high school courses. Working together, high school and college instructors have determined that certain high school career and technical education courses meet the entry level course requirements of comparable college courses. These courses are identified as Tech Prep approved. Students enrolled in these courses may be eligible to receive WCC credit through the high school’s articulation agreement with the College.

Students who complete approved high school College Tech Prep courses with a grade of “B” or better may request college credit by completing and submitting a Whatcom Tech Prep application form along with a one-time transcript processing fee. Registration instructions are available in the career and counseling centers at each area high school. All college Tech Prep courses accepted for credit at WCC will be transcribed with the grade earned in the student’s high school course. Courses are only transcribed within the academic year the student completes the course work.

Award of articulated credits through WCC does not guarantee or imply acceptance of such credits by other institutions.

For more information, contact the College’s Tech Prep
coordinator or visit Whatcom County’s Tech Prep website at whatcomtechprep.org.

Military Training

Whatcom Community College (WCC) values the training, knowledge, and experience provided to our military servicepersons. Anyone who has served in a branch of the United States armed services and who is enrolled at WCC is eligible to have military training evaluated for college credit (RCW 28B.10.057).

Whatcom Community College (WCC) will make every effort to award credit for military training where possible. The following procedure is intended to clarify requirements, processes, and timelines for awarding credit.

Students receiving veteran education benefits or who desire an evaluation of military training are required to complete the following:
1. Declare intent to complete a program of study offered at WCC.
2. Provide an official Joint Services Transcript (JST), from the Community College of the Air Force, or from any other college/university attended.
3. Submit all transcripts for evaluation within three quarters of admission to the program or be decertified for benefits.
4. Submit a request to evaluate military training to the Credentials Evaluation Department.

Students receiving VA benefits cannot opt out of prior credit evaluation.

The college, upon receipt of all the official transcript(s) and the student’s credit evaluation request will:
1. Review military training transcripts received within 3 weeks for reading, English and mathematics placement (academic advising staff)
2. Evaluate and record military training or experience that is substantially equivalent to any academic or program course offered at WCC no more than 8 weeks (credential evaluation staff & program faculty).
   a. Credential evaluation staff will evaluate all training and courses that are academic in nature towards the general education required for the program of study.
   b. Program coordinators, directors and/or appropriate faculty will evaluate all training and courses applicable to the program of study. Transcripts, course descriptions, previously determined credential equivalencies** and ACE (American Council on Education) course recommendation will be used to determine equivalent credit recommendations.
   c. With final approval from the registrar, credentials evaluation staff will post all applicable credit to the student record and notify the student of the courses and credits awarded.

WCC will establish standard equivalencies to military credentials where possible. In the event the student changes their program of study, transfer credit will be re-evaluated at the student’s request and applied to the student record as applicable.

An exception will be made when criteria from an outside agency must be met prior to acceptance into the program.

A maximum of 65 credits may be applied to the Associate in Science degree. A maximum of 75 credits may be applied to the Associate of Arts & Sciences or Liberal Studies degrees.

Other Transferred-In Credit

Maintaining the integrity of Whatcom’s curriculum is a primary concern, and every attempt will be made to grant credit for equivalent courses. WCC reserves the right to determine which courses are acceptable for transfer from other institutions. Course credits must be earned from a regionally accredited institution. Only college-level courses for which credit has been granted by the sending institution will be considered. (Credit for sectarian religious studies is not accepted.) Courses from other accredited institutions (national, etc.) are considered on a case-by-case basis. Maintaining the integrity of Whatcom’s curriculum is a primary concern, and every attempt will be made to grant credit for equivalent courses. Each student must initiate a request to have transfer credits evaluated. (Note: Students with non-U.S. transcripts must request an evaluation from a professional service for evaluating foreign credentials.) Each student will be individually notified of the results of the evaluation, with specific information about how the courses apply to his/her course of study.

Questions and concerns regarding a credential should first be addressed with a credential evaluator. If decided that it is necessary for an official exception/appeal to an evaluation, a course substitution form will be required. Any official exceptions/appeals to an evaluation should be addressed through this form, which can be initiated by a student, evaluator, advisor, administrator or faculty member.

These practices have been developed in accordance with the Intercollege Relations Commission (ICRC) for the
State of Washington Handbook, AACRAO’s Transfer Credit Practices of Educational Institutions, and the “Transfer of Award & Credit” policy adopted by AACRAO, ACE and CHEA.

**RECIPROCITY AGREEMENT**

Washington’s Community and Technical Colleges (CTC’s) offer reciprocity to students transferring within the CTC system. Students who have fulfilled a specific course requirement or entire areas of their AAS transfer degree requirements at one college—for example, communication skills, quantitative skills or distribution area requirements—will be considered to have met those same requirements if they transfer to another Washington CTC. Students must initiate the review process and must be prepared to provide all necessary documentation to WCC. Students are subject to WCC’s catalog agreement and must complete the minimum number of credits required for a WCC degree. For complete information, students should contact an advisor in the entry and advising Center.

**TRANSFER RIGHTS AND RESPONSIBILITIES**

**Student Rights and Responsibilities**

1. Students have the right to clear, accurate, and current information about their transfer admission requirements, transfer admission deadlines, degree requirements, and transfer policies that include course equivalencies.
2. Transfer and freshman-entry students have the right to expect comparable standards for regular admission to programs and comparable program requirements.
3. Students have the right to seek clarification regarding their transfer evaluation and may request the reconsideration of any aspect of that evaluation. In response, the College will follow established practices and processes for reviewing its transfer credit decisions.
4. Students who encounter other transfer difficulties have the right to seek resolution. Each institution will have a defined process for resolution that is published and readily available to students.
5. Students have the responsibility to complete all materials required for admission and to submit the application on or before the published deadlines.
6. Students have the responsibility to plan their courses of study by referring to the specific published degree requirements of the college or academic program in which they intend to earn a bachelor’s degree.
7. When a student changes a major or degree program, the student assumes full responsibility for meeting the new requirements.
8. Students who complete the general education requirements at any public four-year institution of higher education in Washington, when admitted to another public four-year institution, will have met the lower division general education requirements of the institution to which they transfer.

**College and University Rights and Responsibilities**

1. Colleges and universities have the right and authority to determine program requirements and course offerings in accordance with their institutional missions.
2. Colleges and universities have the responsibility to communicate and publish their requirements and course offerings to students and the public, including information about student transfer rights and responsibilities.
3. Colleges and universities have the responsibility to communicate their admission and transfer related decisions to students in writing (electronic or paper).
Academic Standards

CREDITS AND GRADES

Credit
Credit is recorded in quarter hours. Each quarter hour represents one 50-minute period of class time each week for the duration of a term, or the equivalent in laboratory, field work, or approved independent study.

Credit Load
For academic purposes, 12 credit hours is considered to be a full-time load. To complete a degree program in two years, a student should average 15 credit hours per quarter. Prior to registering for more than 18 hours per quarter, a student must obtain an advisor signature.

Course Numbering System
1-99 Developmental courses intended to bring the student to a general level of knowledge equivalent to Grade 12 completion OR post-high school review courses.
100-199 Freshman level courses
200-299 Sophomore level courses

GRADING SYSTEM

Grades are recorded on the student’s permanent record at the end of each quarter. The following symbols are used to indicate achievement for courses in which the student is officially registered.

A Superior Achievement
A-
B+ High Achievement
B-
C+ Average Achievement
C-
D+ Minimum Achievement

F Less than Minimum Achievement
Indicates that a student did not demonstrate minimum achievement toward course outcomes either because the student did not complete a sufficient amount of work or because a student performed at a level below minimum achievement on work completed.

I Incomplete
Indicates that a student was given permission to complete the requirements of a class at a later date. Incompletes are issued by the instructor when a student has, for good reason, been delayed in completing the required work but can successfully do so without additional instruction. A signed agreement between the instructor and the student, outlining the timeframe and work to be completed must be submitted to the Registration Office. Grades awarded for completed work replace “I” grades and are recorded in the initial quarter of enrollment. Credits are not granted until the “I” has been changed. If a student does not complete the agreement in the allotted amount of time, the Registrar’s Office will change “I” to the standing grade that was assigned by the instructor on the incomplete agreement.

N Audit
Indicates that a student chose not to receive credit for a class. A student may change to or from audit grading through the initial registration process or by submitting an add/drop/change form to the Registration Office no later than the end of the eighth week of the quarter.

P Pass
For predetermined S/U graded credit classes, “P” indicates a passing grade for the class but does not satisfy the prerequisite for other classes. For specialized non-credit, non-graded classes, “P” is an administrative symbol.

S/U Satisfactory/Unsatisfactory
Certain classes are designated S/U grading only. A student may change to or from S/U grading for any other class through the initial registration process or by submitting an add/drop/change form to the Registration Office no later than the end of the eighth week of the quarter.
**W Official Withdrawal**

Indicates that a student officially withdrew from a class by completing a withdrawal transaction through the Registration Office or via the web by the end of the eighth week of the quarter, or received approval for a hardship late withdrawal after the eighth week of the quarter. Official withdrawals occurring after the 20th calendar day of the quarter are posted to the student’s permanent record.

**Y Work in Progress**

Indicates that a student has work in progress for a class that begins and/or ends outside the regular starting/ending dates of the quarter. Such classes include Learning Contracts, Co-op Contracts and continuous enrollment classes. Grades awarded for completed work replace “Y” grades and are recorded in the initial quarter of enrollment. If a student does not complete the requirements for the class by the end of the following quarter, the instructor may change the “Y” to the appropriate grade earned; otherwise, the “Y” will be automatically changed to an “F” grade. Credits are not granted until the “Y” has been changed.

**No Grade Recorded or Invalid Grade or Late Finishing Class**

Note: All quarterly deadline dates noted above are prorated for summer quarter to compensate for the shorter length of time.

---

**GRADE POINT VALUES/AVERAGE**

Grade point values are assigned to the following grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
</tr>
<tr>
<td>B+</td>
<td>3.30</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.70</td>
</tr>
<tr>
<td>C+</td>
<td>2.30</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.70</td>
</tr>
<tr>
<td>D+</td>
<td>1.30</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>F</td>
<td>.00</td>
</tr>
</tbody>
</table>

Grades S, U, I, N, W, Y, P do not carry grade point values and are, therefore, not computed into the student’s grade point average. Note: Credit is awarded for S and P grades.

A student’s grade point average is computed on a quarterly and cumulative basis. The quarterly GPA is computed by dividing the total number of quarterly grade points by the total number of quarterly A through F credits earned. The cumulative GPA is computed by dividing the total number of all grade points by the total number of all A through F credits earned.
DEAN’S LIST

The Dean's List is a fall, winter, and spring quarterly roll of full-time students who have satisfactorily completed a minimum of 12 credits in which letter grades with grade point values have been assigned and who have earned a minimum 3.50 quarterly grade point average. Official withdrawals that occur during the first 20 calendar days are disregarded.

HONORS PROGRAM

The honors program provides outstanding students with challenging and stimulating two-credit seminars. The seminars, usually taken simultaneously with a distribution course in the regular curriculum, allow students to pursue a subject in depth and to experience a high degree of student-faculty interaction. Once a student has taken an honors seminar the first quarter after admission to the program, the student may elect to complete a special performance, exhibit or research project during a subsequent quarter instead of participating in a second seminar. To graduate in the honors program, a student must complete one seminar or project for every 20 credits taken after entering the program, but no fewer than two seminars/projects. Honors program students register early to ensure enrollment in the regular courses associated with seminars.

Eligibility and Application Process

Students selected for the honors program should demonstrate superior academic ability and intellectual curiosity. A cumulative WCC college-level GPA of at least 3.50 for completion of at least ten WCC credits is required. The process for acceptance into the program includes:

1. Complete an honors program application and return it to the program coordinator.
2. Submit at least one faculty recommendation which addresses the student’s creativity, intellectual curiosity, motivation, and commitment to go beyond the norm.
3. Demonstrate college-level writing in the honors program application and by placement in ENGL& 101.
4. Maintain a 3.50 cumulative college-level GPA and abide by the WCC student rights & responsibilities to continue in the honors program.

GRADE CHANGES

Once a grade has been recorded on the student’s academic transcript, it is considered final. If a student believes a grading error has occurred, the student should contact the instructor as soon as possible. An instructor may initiate a grade change form only under the following circumstances:

- Instructor error in grade computation (must be submitted within one year after the end of the quarter in which the grade was issued).
- Additional or supplemental coursework submitted to complete “I—Incomplete” (as agreed upon in Incomplete Agreement signed by student/instructor) or “Y—Work in Progress” (by the end of the following quarter).

Documented data entry errors brought to the attention of the registration office within one year after the end of the quarter in which the grade was issued will be corrected immediately (no grade change form is required.)

Grade disputes between a student and instructor must be resolved in accordance with the student rights & responsibilities outlined in the college policies section of this catalog. Students are encouraged to consult with instructors and/or the appropriate department chair before initiating a formal grievance.

REPEATING A COURSE

Some courses are designated as repeatable for additional credit up to the maximum specified. A separate grade is issued for each completion. See individual course descriptions for such courses.

For courses other than those designated as repeatable for credit, a student may only repeat a course a maximum of two times (this is defined as two repeats in addition to the original enrollment). The student must submit a course repeat card to the registration office at the time of registration. Although courses may be repeated to improve the grade earned, credit is applied only once. Each grade received will appear on the student’s academic transcript, but only the credits and grade with the higher grade point value will be used to compute grade point average. The course with the lower grade will be designated with an “R” symbol to designate that it has been repeated.

Caution: Other colleges and universities may not accept a grade earned in a repeated course. If accepted, the grade may be treated differently in the calculation of grade point average.
For more information and an application, contact the honors program coordinator, visit the honors program page on the WCC website, or drop by Cascade Hall, 145.

**PETITION FOR EXCLUSION OF LOW GRADES**

This process is designed for students who may have had academic difficulties in a past quarter(s), left the College and have demonstrated improved academic performance since returning to the College. A student may petition to have courses with low grades earned at WCC excluded from credit and GPA calculation for graduation purposes when the following three conditions have been met:
1. The grades to be excluded are at least three years old; and
2. There has been an interruption in college attendance; and
3. The student has completed at least 25 college level credits with a GPA of 2.00 since returning to WCC.

Petitions must request exclusion of all grades prior to a given quarter; a request to exclude single grades within a quarter will not be considered.

**Caution:** Courses excluded will not be used for credit or GPA calculation toward graduation requirements; however, they will remain permanently on the student’s academic transcript. Therefore, other colleges may not exclude these courses when calculating credits and GPA.

**ACADEMIC STANDARDS OF PROGRESS POLICY**

Whatcom Community College is committed to facilitating student academic success and completion of degrees and certificates. The purpose of the academic progress policy is to recognize students in good academic standing and to intervene with students when low academic progress occurs. The academic progress standards are listed on the college website and are intended to alert students to potential academic problems and encourage students to seek assistance from various college resources.

**Graduation**

**GENERAL GRADUATION REQUIREMENTS FOR ALL DEGREES AND CERTIFICATES**

In order to receive a degree or certificate from Whatcom Community College, students must fulfill the following general requirements:

1. Complete, with a passing grade, the minimum number of credits required. All courses must be at the college level.
2. Earn a minimum of 25 college level credits (100 or above) at WCC. Exception: Earn a minimum of 15 college level credits (100 or above) at WCC to complete the AAS/DTA.
3. Submit an application for graduation by the priority deadline published in the registration calendar on the website. Late applications will be accepted but might not be processed in time for last quarter advising.
4. Obtain a cumulative grade point average of 2.00 in all college level work.
5. Related instruction/general education requirements (except for required prerequisites) in professional/technical degrees and certificates are automatically satisfied for students who have completed an associate transfer degree from an accredited institution within the state of Washington or a baccalaureate degree from an accredited institution within the United States. Other degrees will be considered on a case-by-case basis.
6. Students must meet degree/certificate requirements according to the College’s catalog agreement on page 6.

Students have the following responsibilities in successfully completing a degree or certificate:

- Knowledge and understanding of College policies;
- Ensuring that all necessary course requirements have been met;
- Providing official transcripts of course work to be transferred in from other accredited institutions;
- Providing appropriate course descriptions and/or syllabi for transferred courses from the year the courses were taken, if requested by the evaluations department.
GRADUATION WITH HONORS

Students graduate with honors when they completed a degree program and have a cumulative college-level grade point average of 3.50 in which at least 65 of the credits have grade points assigned.

Students who transferred to WCC and have completed less than 45 WCC graded college-level credits or who have a WCC cumulative college-level GPA below 3.50 will have their transfer credits included in the calculation for honors status.

Students who are in the honors program should see page 42 for additional graduation requirements from the honors program.

WAIVING A GRADUATION REQUIREMENT

Students can petition the academic standards committee to waive a graduation requirement. Documentation must be provided with the petition and not all petitions are eligible for review. Students are encouraged to seek advice from the graduation department or an academic advisor when considering this option. Petitions are available in and submitted to the admissions and registration office.

COMMENCEMENT

Commencement activities are held in the spring for all degree and certificate graduates of the preceding summer, fall and winter quarters, as well as for applicants of the current spring quarter. Students planning to graduate in the subsequent summer quarter may also participate provided that an application for summer quarter graduation is submitted by the deadline stated on the College website.
Degree/Certificate/Diploma Programs

Applied Bachelor Degrees

Bachelor of Applied Science (BAS) IT-Networking

Building on its nationally acclaimed Computer Information Systems Associate in Science degree program, Whatcom Community College will offer a Bachelor of Applied Science (BAS) degree in IT Networking starting fall 2017. The degree is designed for students who have earned an associate's degree in an information technology related field from a regionally accredited institution within the past five years or any prior degree plus relevant industry experience. See page 77 for specific program information, a course list and application information.

Associate Degrees & Certificates

Transfer Degrees

Associate in Arts and Sciences - Direct Transfer Agreement (AAS-DTA)

The Associate in Arts and Sciences-Direct Transfer Agreement (AAS-DTA), is designed primarily for students who plan to transfer to a four-year college or university with junior status.

The AAS-DTA degree requires completion of 90 credits within specified distribution areas and is accepted as fulfillment of the general university requirements by Washington state four-year institutions. Students should discuss transfer plans with an advisor to plan appropriately for variations in requirements at different universities.

General Education. Whatcom Community College’s AAS-DTA degree ensures that our students receive the liberal arts and sciences education that employers, baccalaureate institutions, and accrediting associations believe are necessary for success in our rapidly changing world. Earning an AAS-DTA at Whatcom means that a student has successfully completed courses in writing and oral communications, a course in symbolic or quantitative reasoning, courses across three distribution areas (humanities, social sciences, and sciences), and courses that foster a greater understanding and awareness of global, diversity, and sustainability issues. The content, goals, and learning outcomes of the transfer degree reflect Whatcom’s core learning and educational values.

See pages 50-58 for specific AAS requirements.

Direct Transfer Agreement / Major Related Program (DTA/MRP) Associate Degrees

Major related programs follow the requirements of the AAS-DTA, and also include specifically defined coursework to prepare students for upper-division classes in the major area after transferring to a 4-year college or university. WCC currently offers the following DTA/MRP degrees:

- Associate in Business DTA/ MR P
- Associate in Nursing DTA/MRP (This degree includes two years of professional-technical coursework in nursing.)

See pages 71 and 94 for details on above degrees.
ASSOCIATE IN SCIENCE - TRANSFER (AS-T) DEGREE

The Associate in Science-Transfer (AS-T) degree is based upon an agreement between Whatcom Community College and many colleges/universities in Washington state. This degree is an efficient, pre-designed educational path for students who wish to complete a baccalaureate program in science or engineering fields. The AS-T degree will not substitute for general university requirements (GURs), but will allow WCC students to enter a participating four-year college/university with 90 credits, junior standing, and the majority of major prerequisites completed. Students pursuing this degree must be prepared to complete any remaining GURs along with remaining major program and graduation requirements during their junior and senior years of academic study.

The AS-T majors designed to transfer within this option include:

- Atmospheric Sciences
- Bioengineering & Chemical Engineering
- Biology
- Chemistry
- Computer & Electrical Engineering
- Earth Sciences
- Engineering
- Environmental Science
- Geology
- Mechanical, Civil, Aeronautical, Environmental, Industrial and Material Science Engineering
- Physics

See pages 59-62 for specific requirements in each pre-designed AS program.

ASSOCIATE IN APPLIED SCIENCE - TRANSFER (AAS-T) DEGREE

The Associate in Applied Science-Transfer (AAS-T) degree requires completion of a minimum of 90 college-level credits with emphasis in certain professional-technical fields and including a minimum of 20 general education credits. The AAS-T degree is designed to prepare a student for direct entry into the workforce or to transfer to a participating four-year institution.

WCC currently offers Associate in Applied Science – Transfer degrees in the following fields:

- Cybersecurity
- Early Childhood Education

LIBERAL STUDIES DEGREE

ASSOCIATE IN LIBERAL STUDIES (ALS) DEGREE

The Associate in Liberal Studies degree is designed primarily for students who do not plan to pursue a specific technical or academic emphasis or transfer to a four-year institution but who wish to receive recognition for completion of 90 credits of general Arts and Sciences college-level learning.

Coursework must be completed within specific distribution areas.

See page 62 for specific degree requirements.
PROFESSIONAL-TECHNICAL DEGREES

WCC professional-technical degrees prepare students for immediate employment in the field of study. Some professional-technical degrees also transfer to 4-year colleges and universities. WCC offers three types of professional-technical degrees: (1) Associate in Science (AS); (2) Associate in Arts (AA); and Associate in Applied Science - Transfer (AAS-T). All degrees require the completion of at least 90 credits with specific coursework in the field of study. WCC offers professional-technical associate degrees in the following areas:

- Accounting (AS)
- Business Administration (AS)
- Computer Information Systems (AS)
- Criminal Justice (AS)
- Cybersecurity (AAS-T)
- Early Childhood Education (AA and AAS-T)
- Finance (AS)
- Hospitality & Tourism Business Management (AS)
- Massage Practitioner (AS)
- Medical Assisting (AS)
- Nursing (DTA/MRP)
- Paralegal Studies (AS)
- Physical Therapist Assistant (AS)
- Visual Communications (AA)

CERTIFICATES

A certificate is an organized, narrowly focused program that provides training in a specific occupational field. Certificate programs typically require completion of a minimum of 45 credits containing related instruction components. Certificate programs of 45 credits or greater currently offered by the College are:

- Accounting
- CIS Network Administration
- CIS Technical Support
- Criminal Justice
- Hospitality & Tourism Business Management
- Massage Practitioner
- Medical Assisting
- Office Administration
- Office Administration - Logistics
- Paralegal Studies
- Retail Management
- State Early Childhood Education Certificate

See pages 64-100 for specific program course lists, requirements and regulations. For more information on certificates below 45 credits that offer additional specialization opportunities, visit whatcom.edu under Degrees and Programs, professional-technical degrees.

GED CERTIFICATE

The GED is a series of four tests endorsed by Washington state as an alternative credential for adults without a high school diploma. Students must demonstrate high school level competencies in math reasoning, science, social studies and reasoning through language arts to earn a GED credential. A GED can lead to opportunities for better jobs and to potential access to financial aid resources for more advanced education and training.

Students may enroll in Adult Basic Education (ABE) courses to prepare for the GED tests. Prospective students should contact the transitional learning programs office for more information.

Arrangements for taking the GED tests are made online at GED.com. Students may request accommodations for taking the GED tests online at GED.com. There is a charge for taking and retaking the test.
The Importance of Preparing for a Major

Declaring and preparing for your major can help you be more successful in completing your transfer degree and in transferring to a university because...

- Many four-year universities require that prerequisite coursework be completed before acceptance.
- For many competitive majors (Business, Engineering, Education, and Sciences) it is imperative to plan for prerequisites within your first 30 college level credits.
- Many four-year universities give priority admission to students who have completed major preparation.
- Some four-year universities give declared majors priority registration for upper division major coursework.
- For some majors, postponing prerequisite coursework may result in an additional one or more years of coursework after completion of the associate degree before being admitted to the major department. Many majors only admit students once a year. Careful prerequisite planning aids in timely admission.
- Student financial aid funding could be jeopardized without careful major preparation planning.
- Some professional-technical degrees closely parallel the transfer degree and certain courses can apply to both degrees (i.e., Business Administration, Criminal Justice, Early Childhood Education, etc.). Early course planning can enhance these and similar programs.

The earlier in your college career you begin major preparation work, the more prepared you will be, and the more time and expense you will save. Advisors can help provide information about choosing a major and choosing courses that will help satisfy your selected major prerequisites.

Educational planning courses are available for elective credit each quarter as well as a variety of major planning and transfer workshops.

Major/degree planning worksheets are available in the entry and advising center, Laidlaw Center, 116. Comprehensive degree planning resources are available on the College’s website.

Always check with the college or university you plan to transfer to for specific requirements.

HIGH SCHOOL DIPLOMA

Whatcom Community College awards high school diplomas to eligible students as outlined by RCW 288.50.535. To be eligible, students must meet one of the following criteria:

1. Students 21 year or older who satisfactorily complete an associate’s degree may submit a written request to be awarded a state high school diploma from the College.

2. Students 21 years or older who successfully complete all of the requirements for the adult high school completion program through the office for transitional learning programs.

3. Students enrolled through Running Start who satisfactorily complete an associate’s degree may submit a written request to be awarded a state high school diploma.

4. Students who are younger than 21 years old, who have enrolled in Running Start at any time, may request a high school diploma from the College upon associate’s degree completion.

Eligible students must submit a written request by completing the high school diploma section of the application for degree or certificate and submitting the form to the registration office.
Associate in Arts and Sciences Degree

(DIRECT TRANSFER-DTA)

CORE REQUIREMENTS - 15-18 CREDITS

NOTE: Core courses cannot be used to meet distribution, w, d, g or s requirements.

COMMUNICATION SKILLS
1. English Composition (ENGL& 101)
2. English Composition (course designated CC)
3. Communication Studies (course designated OC)

TOTAL: 10-13 CREDITS

- 3 courses - one from EACH category
- Minimum 6 credits of English Composition

QUANTITATIVE/SYMBOLIC REASONING
Any course designated QSR, specifically:

MATH& 107
or MATH& 141 or higher
or PHIL& 117

TOTAL: 5 CREDITS

DISTRIBUTION - 45 CREDITS

HUMANITIES
Courses designated H/Hp (see below)

TOTAL: 15 CREDITS

- 2 disciplines (e.g. ART, MUSC, PHIL) with no more than 10 credits from one discipline
- HUM and IDS courses of 6 credits count as two disciplines and 10 credit maximum does not apply
- No more than 5 credits performance (p)
- Foreign languages 123 or above (all foreign languages are considered one discipline). No more than 5 credits of 100-level foreign language.
- No more than 5 credits in independent study (courses numbered 189, 199, 289, 299 - designated H/Hp)

SOCIAL/BEHAVIORAL SCIENCE

Courses designated SS (see below)

TOTAL: 15 CREDITS

- 2 disciplines (e.g. ANTH, PSYC, SOC) with no more than 10 credits from one discipline
- No more than 5 credits in independent study (courses numbered 189, 199, 289, 299 - designated SS)

MATH/SCIENCE

Courses designated MS/MSl (see below)

TOTAL: 15 CREDITS

- 2 disciplines (e.g. BIOL, CHEM, GEOL) with no more than 10 credits from one discipline
- At least one laboratory course (designated l)
- 10 credits in physical or biological sciences
- No more than 5 credits in independent study (courses numbered 189, 199, 289, 299 — designated MS/MSl)

ELECTIVES - 27-30 CREDITS

LISTED ELECTIVES
Courses designated H/Hp, SS, MS/MSl, CC, OC, Q/SR, LE

TOTAL: 12-30 CREDITS

UNLISTED ELECTIVES
Any courses numbered 100 and above designated UE

TOTAL: 0-15 CREDITS

LISTED/UNLISTED ELECTIVES

- Select from 1 or more disciplines
- Minimum of 12 credits must be from AAS Distribution (designated H/Hp, SS, MS/MSl) and/or Listed Electives (designated LE)
- Excess credits from courses used in Core (designated
OC, CC, Q/SR) or Distribution (H/Hp, SS, MS/MSI) can count in listed elective category

- No more than 15 credits of independent study (courses numbered 189, 199, 289, 299)
- No more than 15 credits of unlisted electives numbered 100 or above (designated UE)
- Maximum of 3 PE activity credits can be applied as electives

**GRAND TOTAL (90 MINIMUM): 90 CREDITS**

**ADDITIONAL REQUIREMENTS**

The following requirements must come from Distribution, Listed and Unlisted Electives, numbered 100 and above.

CORE COURSES MAY NOT be used to satisfy Writing, Diversity, Global or Sustainability.

### Writing Intensive (courses designated “w”) 3 credits

These courses are designed to provide students the opportunity to extensively explore topics through writing. In order to meet the requirements of a writing intensive course, the course must meet the following criteria:

1. A minimum of 2,000 words (approximately 8 typed, double-spaced pages) of graded writing.
2. The 2,000 words should be distributed among at least three different papers. Writing must be evaluated on both form and content by the instructor.
3. Writing activities (both graded and un-graded) should count for 50% of the course grade. Writing skills should count for a significant portion of the grade on writing activities.
4. Writing could be done in and/or out of class.

### Diversity Studies (courses designated “d”) 3 credits

These courses are designed to give students the ability to describe or analyze issues in socioeconomic status, ethnicity, gender, race, religion and/or other differences in the United States. At least one credit of course content or time must be devoted to these topics.

### Global Studies (courses designated “g”) 3 credits

These courses are designed to give students the ability to describe or analyze

- (1) the global interrelationships among societies, cultures, or peoples
- or
- (2) a single society, culture, or people other than those from within the United States.

At least one credit of the course content or time must be devoted to these topics.

### Sustainability (courses designated “s”) 3 credits

These courses are designed to give students the ability to examine the interrelationships between human activity and the natural environment and how humans deal with these issues. In addition, the viability of social and economic systems may be studied. At least one credit of course content or time must be devoted to these topics.

*Note: a course with multiple designations can satisfy more than one requirement in this area. For example, ENGL& 111 (Hwg) will meet both writing intensive and global requirements.*

### RESTRICTIONS

- A minimum of 15 degree (college-level) credits must be earned at Whatcom Community College.
- A maximum of 25 credits of courses graded S (Satisfactory) may be applied to this degree.
- A maximum of 15 credits of approved CLEP subject exams, military, life/work experience or other non-traditional credits may be applied to this degree but only in the Unlisted Elective area. (Note: Students should contact the transfer institution regarding transferability of these credits.)
- A cumulative grade point average of 2.00 must be earned in all college-level work applied to the degree.
## Course Designators

**COURSE DESIGNATORS KEY:** One of the following codes appears at the end of each course description indicating applicability of the course to the Associate in Arts and Sciences degree program.

Associate in Science Degree

(AS-T TRANSFER DEGREE)

This degree offers a common core with a variety of science and engineering majors. While completion of the degree does not guarantee admission to a major program at a 4-year university, the intent is to provide the appropriate coursework for students planning on taking upper division coursework in a science or engineering major. The degree will be accepted at many 4-year public and private universities in the state of Washington (check with the university you are planning to transfer to). Students will transfer with junior standing, but will typically be required to complete additional GURs (General University Requirements) after transfer. The degree contains pre-major programs in two tracks (Track 1 and Track 2). The AS-T Track 1 degrees include biology, environmental science, chemistry, geology, and earth sciences. The AS-T Track 2 degrees include engineering, physics, and atmospheric sciences.

DEGREE REQUIREMENTS

- Minimum of 90 quarter credit hours in courses numbered 100 and above.
- Minimum of 15 credits applied to the degree must be obtained at Whatcom Community College.
- Minimum cumulative GPA of 2.0 in coursework applied to the AS-T degree.

Most of these degrees offer a limited flexibility in course choice in Section 3 (pre-major program) and Section 4 (remaining credits / electives). Students are strongly advised to consult with advisors and make appropriate choices based on the major and transfer institution.

1. BASIC REQUIREMENTS  15 CREDITS

- Written Communication Skills (5 credits)
  - ENGL& 101 English Composition I
- Quantitative Skills (10 credits)
  - MATH& 151 Calculus I
  - MATH& 152 Calculus II
  - Or above with approval of advisor

2. HUMANITIES AND SOCIAL SCIENCES  15 CREDITS

- 5 credits from the humanities (H)
- 5 credits from social sciences (SS)
- 5 additional credits from either the humanities (H) or social sciences (SS)

Note: See an advisor for help choosing appropriate courses in this area. Depending on the major and the transfer institution, certain courses are preferred.

3. PRE-MAJOR PROGRAM COURSES  30–50 CREDITS

Each of the different majors requires a specialized collection of courses for preparation in the career field and upper division coursework. The courses listed in this category have been chosen based on AS-T degree requirements, major-ready pathways, and admission requirements to major programs at 4-year universities. In cases in which more than one course can be chosen, students should meet with an advisor and make decisions based on the requirements of the transfer institution.

4. REMAINING COURSES / ELECTIVE COURSES  14–35 CREDITS

The remaining college-level courses are used to reach a total of at least 90 credits for the degree. For some majors, strongly recommended courses are identified based on program admittance requirements at Washington transfer colleges and universities. The amount of credit needed in this category depends on the number of credits required in the pre-major program category. In this category, a maximum of 5 unlisted elective (UE) quarter credits are allowed.
ATMOSPHERIC SCIENCES (90 CREDITS)
The following list of courses is appropriate for students studying Atmospheric Sciences and satisfies the requirements for the AS-T track 2 degree.

Pre-major program courses (35 credits)
- CHEM& 161, 162, 163 (15 credits)
- MATH& 163 (5 credits)
- PHYS& 221, 222, 223 (15 credits)

Remaining courses / elective courses (25 credits)
Student must complete 25 additional credits to reach a total of 90 credits. Computer science, Math 204, and Math 238 are strongly recommended.

BIOLOGY (90 CREDITS)
The following list of courses is appropriate for students studying Biology and satisfies the requirements for the AS-T track 1 degree.

Pre-major program courses (45 credits)
- BIOL& 221, 222, 223 (15 credits)
- CHEM& 161, 162, 163 (15 credits)
- Math& 163 or Math& 146 (5 credits)
- 10 additional math/science credits (10 credits)

Remaining courses / elective courses (15 credits)
Students must complete 15 additional credits to reach a total of 90 credits. Chemistry& 261, 262, 263 are recommended.

CHEMISTRY (90 CREDITS)
The following list of courses is appropriate for students studying Chemistry and satisfies the requirements for the AS-T track 1 degree.

Pre-major program courses (50 credits)
- CHEM& 161, 162, 163 (15 credits)
- CHEM& 261, 262, 263 (15 credits)
- MATH& 163 (5 credits)
- BIOL& 221, 222, 223 (15 credits)
  or
- PHYS& 221, 222, 223 (15 credits)

Remaining courses / elective courses (10 credits)
Students must complete 10 additional credits to reach a total of 90 credits. MATH 204 and 238 are strongly recommended.

EARTH SCIENCES (90 CREDITS)
The following list of courses is appropriate for students studying Earth Sciences and satisfies the requirements for the AS-T track 1 degree.

Pre-major program courses (45 credits)
- CHEM& 161, 162, 163 (15 credits)
- GEOL& 101 (5 credits)
- MATH& 163 or MATH& 146 (5 credits)
- BIOL& 221, 222, 223 (15 credits)
  or
- PHYS& 221, 222, 223 (15 credits)
- 5 additional math/science credits (5 credits)

Remaining courses / elective courses (15 credits)
Students must complete 15 credits to reach a total of 90 credits. ASTR& 100 and/or OCEA& 101 are recommended.

ENVIRONMENTAL SCIENCE (90 CREDITS)
The following list of courses is appropriate for students studying Environmental Science and satisfies the requirements for the AS-T track 1 degree.

Pre-major program courses (45 credits)
- CHEM& 161, 162, 163 (15 credits)
- BIOL& 221, 222, 223 (15 credits)
- MATH& 163 or MATH& 146 (5 credits)
- 10 additional math/science credits (10 credits)

Remaining courses / elective courses (15 credits)
Students must complete 15 additional credits to reach a total of 90 credits. Political science, economics, and geology are strongly recommended.

GEOLOGY (90 CREDITS)
The following list of courses is appropriate for students studying Geology and satisfies requirements for the AS-T track 1 degree.

Pre-major program courses (45 credits)
- CHEM& 161, 162, 163 (15 credits)
- GEOL 211, 212 (10 credits)
- MATH& 163 or MATH& 146 (5 credits)
- 10 additional math/science credits (10 credits)

Remaining courses / elective courses (15 credits)
Students must complete 15 additional credits to reach a total of 90 credits. A computer science course is strongly recommended.
PHYSICS (90 CREDITS)
The following list of courses is appropriate for students studying Physics and satisfies requirements for the AS-T track 2 degree.

Pre-major program courses (45 credits)
- CHEM& 161, 162, 163 (15 credits)
- MATH& 163, 204, 238 (15 credits)
- PHYS& 221, 222, 223 (15 credits)

Remaining courses / elective courses (15 credits)
Students must complete an additional 15 credits to reach a total of 90 credits. Math& 264 and a computer science course are strongly recommended.

ENGINEERING
Engineering programs at four-year colleges and universities require extensive preparatory coursework in order to be eligible for direct admission into a selective entry program. WCC offers several pathways to provide students with the preparation required for a variety of engineering majors at transfer institutions. Students are strongly advised to consult with an advisor about specific engineering pathways and transfer institutions in order to select the most appropriate degree pathways.

BIOENGINEERING AND CHEMICAL ENGINEERING (94-95 CREDITS)
The following list of courses is appropriate for students studying Biological and Chemical Engineering and satisfies the requirements for the AS-T track 2 degree.

Pre-major program courses (50 credits)
- CHEM& 161, 162, 163 (15 credits)
- CHEM& 261 (5 credits)
- CHEM& 262 or BIOL& 221 (5 credits)
- MATH& 163, 238 (10 credits)
- PHYS& 221, 222, 223 (15 credits)

Remaining courses / elective courses (14-15 credits)
Students must complete 14-15 credits of additional coursework to be chosen from the following list:
- BIOL& 221, 222, 223
- CHEM& 262, 263
- A course in computer programming
- ENGL& 230
  or
  ENGL& 235
- ENGR& 214, 215, 225
- ENGR 100, 240
- ENGR& 215, 225
- MATH 207
- MATH& 264

COMPUTER AND ELECTRICAL ENGINEERING (95-100 CREDITS)
The following list of courses is appropriate for students studying Computer and Electrical Engineering and satisfies the requirements for the AS-T track 2 degree. Note: As of 2015-16, WCC does not currently offer ENGR& 204 (electrical circuits), although a student may take the equivalent course at another college or university.

Pre-major program courses (45 credits)
- CHEM& 161 (5 credits)
- MATH& 163, 204, 238 (15 credits)
- PHYS& 221, 222, 223 (15 credits)
- Electrical circuits (5 credits)
- A course in computer programming (5 credits)

Remaining courses / elective courses (15 credits)
Students must complete 15 credits of additional coursework to be chosen from the following list:
- ENGR 100, 240, ENGR& 214, 215, 225
- ENGL& 230
  or
  ENGL& 235
- BIOL& 221, 222
- CHEM& 162
- MATH 207, MATH& 264

GENERAL TRANSFER ENGINEERING (90 CREDITS)
The following list of courses is appropriate for students studying Engineering and satisfies the requirements for the AS-T track 2 degree. This degree is more general in scope than the other Engineering degrees offered. Students should decide which degree to use based on the requirements of their major and transfer institution.

Pre-major program courses (40 credits)
- CHEM& 161 (5 credits)
- ENGR& 214 (5 credits)
- MATH& 163, 204, 238 (15 credits)
- PHYS& 221, 222, 223 (15 credits)

Remaining courses / elective courses (20 credits)
Students must complete 20 credits from the following list. The appropriate selection depends on the intended engineering major and transfer institution.
- BIOL& 221, 222, 223
- CHEM& 162, 163, 261, 262, 263
- A course in computer programming
- ENGL& 230
  or
  ENGL& 235
- ENGR 100, 240
- ENGR& 215, 225
- MATH 207
- MATH& 264
**MECHANICAL, CIVIL, AERONAUTICAL, ENVIRONMENTAL, INDUSTRIAL, AND MATERIAL SCIENCES ENGINEERING (100 CREDITS)**

The following list of courses is appropriate for students studying Mechanical, Civil, Aeronautical, Industrial, and Material Science Engineering and satisfies the requirements for the AS-T track 2 degree.

**Pre-major program courses (55 credits)**
- CHEM& 161, 162 (10 credits)
- ENGR& 214, 215, 225 (15 credits)
- MATH& 163, 204, 238 (15 credits)
- PHYS& 221, 222, 223 (15 credits)

**Remaining courses / elective courses (15 credits)**
Students must complete an additional 15 credits from the following list. The appropriate selection depends on the intended major and transfer institution.
- CHEM& 163, 261, 262, 263
- A course in computer programming
- ENGL& 230
  - or
  - ENGL& 235
- ENGR 100, 240
- MATH 207
- MATH& 264

---

**Associate in Liberal Studies Degree**

**CORE REQUIREMENTS - 10 CREDITS**

**ENGL 101**
Any Quantitative/Symbolic Reasoning course designated Q/SR
or Any course designated as Computation on the Related Instruction List.

**TOTAL: 10 CREDITS**

**DISTRIBUTION - 30 CREDITS**

**HUMANITIES (H)**
1. Any course designated H (different discipline)
2. Any course designated H (different discipline)

**TOTAL: 10 CREDITS**

**SOCIAL/BEHAVIORAL SCIENCE (SS)**
1. Any course designated SS (different discipline)
2. Any course designated SS (different discipline)

**TOTAL: 10 CREDITS**

**MATH/SCIENCE (MS/MSL)**
1. Any course designated MS/MSL (different discipline)
2. Any course designated MS/MSL (different discipline)

**TOTAL: 10 CREDITS**

**ELECTIVES - 50 CREDITS**

Any courses numbered 100 or above, at least two different disciplines.

**TOTAL: 50 CREDITS**

**RESTRICTIONS**

A minimum of 15 degree (college-level) credits must be earned at Whatcom Community College.

**TOTAL CREDITS: 90**
Professional-Technical Programs

ESSENTIAL SKILLS AND RELATED INSTRUCTION IN PROFESSIONAL-TECHNICAL DEGREES/CERTIFICATES

At Whatcom Community College the professional-technical programs recognize that developing communication, computation and human relations skills are essential for students preparing to earn either a degree or a certificate en route to finding employment. While some of these essential skills are embedded in program curricula, their importance is such that students also need to take specific courses with clearly identified instructional outcomes addressing these areas. Each professional-technical degree or certificate course template guides students by indicating, with the following designations, which courses in Related Instruction are most appropriate to provide this content:

CM = Communications
HR = Human Relations
CP = Computation

RELATED INSTRUCTION: Skills content will be taught by faculty or professionals monitored by teaching faculty who are appropriately qualified in these areas.

SATISFYING CREDIT REQUIREMENTS FOR PROFESSIONAL-TECHNICAL DEGREES AND CERTIFICATES

In the case where a student completes all course requirements for a professional-technical degree or certificate but does not have the total number of credits required, any college level course(s) numbered 100 or higher, not already used in the degree or certificate, can be applied in order to reach the total number of credits required.

**BUSINESS AND OFFICE ADMINISTRATION**

The business administration and office administration programs are designed to prepare students for a variety of entry-level positions that are critical to the successful functioning of all organizations – large and small businesses, government agencies and non-profit entities. The programs offer: an associate in science (AS) degree in business administration; an associate in business (DTA/MRP) degree for students intending to study business at a university; certificates in office administration, office administration-logistics and retail management; and short-term certificates of proficiency in clerical assistant and sustainable business leadership.

Recommended elective pathways have been developed for students who would like to focus their business administration AS degree on a particular field of study that aligns with current labor demands and opportunities, including communications and marketing, office management, office technology, retail management and sustainable business management. Speak with an advisor or the program coordinator about these and other pathways in development, or for assistance with building a pathway that meets your specific educational goals.

Visit whatcom.edu/busad or whatcom.edu/offad for more information.

---

**CERTIFICATE OF PROFICIENCY**

**CLERICAL ASSISTANT**

This training endorsement provides office skills appropriate to entry-level positions requiring specialized knowledge of payroll and benefits record keeping methods. Coursework may be applied towards a one-year certificate in Office Administration or an AS in Business Administration.

SUSTAINABLE BUSINESS LEADERSHIP
This three class series will provide a practical introduction to sustainability in business and leadership practices. The Sustainable Business Leadership Certificate is designed for individuals who wish to become change agents for sustainability within their respective organizations. The series assumes students are business professionals or students who have a sound business foundation. This certificate will provide graduates with the skills that managers, leaders, entrepreneurs, and employees need to implement a customized sustainability program. The topics covered will include: energy efficiency, transportation, water, zero waste, responsible purchasing, renewable energy, sustainable food, sustainable building and development, alternate sources of revenue and savings, triple bottom line accounting, leadership skills for change agents, corporate social responsibility, employee ownership, and marketing.

ASSOCIATE IN BUSINESS (DTA/MRP)

BUSINESS

The Associate in Business (DTA/MRP) degree is a 90 credit transfer degree for business majors. Students will enter the four-year institution’s business department at the junior level. However, admission is not guaranteed. To earn this degree, students must complete a minimum of 90 credits numbered 100 or above as specified in the degree, and earn a minimum of 2.0 grade point average.

CORE REQUIREMENTS CREDITS
ENGL 101 ENGLISH COMPOSITION I (CM) 5
or Any course designated “CC” (CM) 5
CMST 220 PUBLIC SPEAKING (CM) 5
or Any course designated “OC” (CM) 5
MATH 141 PRECALCULUS I 5
or MATH 145 ALGEBRA APPLICATIONS FOR ECONOMICS AND BUSINESS (CP) 5
MATH 148 BUSINESS CALCULUS 5

Any courses designated “H” or Hp”.
- Selected from at least two disciplines.
- No more than 5 credits in performance/skills courses are allowed, and no more than 5 credits allowed in foreign language at the 100 level.

Note: Students intending the international business major should consult their potential transfer institutions regarding the level of world language required for admission to the major. Five (5) credits in world languages may apply to the Humanities requirement.

BUS 101 INTRODUCTION TO BUSINESS 5
ECON 201 MICRO ECONOMICS 5
ECON 202 MACRO ECONOMICS 5
MATH 146 INTRODUCTION TO STATISTICS 5
10 credits physical, biological, and/or earth science, including at least one lab course 10

SUB-TOTAL UNITS .......... 65

### ASSOCIATE IN SCIENCE

#### BUSINESS ADMINISTRATION

The Business Administration AS degree provides a core of fundamental business courses combined with ample flexibility in elective choices to allow students to concentrate study in their business area of choice. It prepares students in entrepreneurship to start their own business, and/or to gain the technical and professional skills needed for office management, marketing, retail and other business professions, including various supervisory/entry level management positions in these fields.

**SUB-TOTAL UNITS ............... 90**

Students should plan to complete required English and math courses within their first 30 credits of study.

cm = Communication, hr = Human Relations, cp = Computation
Whatcom's nationally acclaimed computer information systems (CIS) program is designed to prepare students for careers in technical support, network administration, or information security, needed within virtually all industries. The program has been developed in alignment with national industry standards and certifications. The program prepares students for the Cisco Certified Network Associate (CCNA) certification and several other certifications including Comp Tia’s A+ and Security+. The CIS program offers an associate in science degree in CIS, as well as an associate in applied science-transfer degree in cybersecurity. Certificate programs in technical support and network administration are available, as well as a short-term certificate of proficiency in information security professional.

NEW! BACHELOR’S DEGREE
Beginning fall 2017, the CIS program will also offer a bachelor of applied science (BAS) degree in IT networking. The BAS degree includes courses infused with security topics and embedded certificates of proficiency in cloud computing, industrial controls systems (SCADA), and mobile technologies. The curriculum aligns with specific focus areas defined by the National Security Agency / Department of Homeland Security as part of their Center of Academic Excellence (CAE) program. Additionally, curriculum builds off of the National Initiative for Cybersecurity Education’s (NICE) Cybersecurity Workforce Framework and the Department of Labor’s (DOL) Cybersecurity Competency Model. As such, the program will help meet the national shortage of cybersecurity professionals.

CyberWatch West
WCC is one of the founding institutions of the CyberWatch West Center and in 2013 became the lead institution. Supported by a National Science Foundation Advanced Technological Education (NSF-ATE) grant, the mission of CyberWatch West is to increase the quantity and quality of the cybersecurity workforce throughout the western United States.

CAE2Y Designation
Confirming its stature as a national leader in cybersecurity education, Whatcom Community College was designated by the National Security Agency (NSA) and the Department of Homeland Security as a National Center of Academic Excellence in Information Assurance/Cyber Defense 2-year education (CAE2Y) in 2014. Whatcom was among the first community colleges in the United States to earn this distinction, which recognizes colleges that are models of education and training in the information assurance field with curriculum mapped to the NSA’s latest requirements. The College was initially named a National Center of Academic Excellence in Information Assurance/ Cybersecurity in 2011. This new designation, which extends through the 2021 academic year, follows an extensive review of Whatcom’s program by the NSA that confirms the curriculum meets stringent, new standards.

Prerequisite Courses
The CIS program strongly recommends placement into Math 94 and English 92 or aboveprior to beginning CIS courses. Additionally, the Cybersecurity AAS-T degree requires completion of CIS 105 with a C (2.0) grade or better.

To be eligible for the BAS degree in IT networking, applicants must have:
- An associate’s degree in an information technology related field from a Washington State community or technical college* granted within the past five years or any prior degree plus relevant industry experience, personal statement and current resumé
- Cumulative minimum 2.0 GPA in associate’s degree and minimum 2.0 GPA in all IT-related coursework

*IT-related associate’s degrees granted from other institutions will be reviewed to verify suitable preparation for success in the BAS program.

Special Application Process
The lower division CIS program can be entered at the start of any quarter. There is no special application.

Admission to the BAS degree in IT networking is by selective entry application. For details about prerequisites, the application process, application materials and deadlines, visit the CIS program page on the College’s website or contact entry & advising or the CIS program coordinator.
Additional Requirements During/After Course of Study
Students must maintain at least a “C” (2.0) grade in all CIS courses and demonstrate professional work behavior exhibited through good class attendance, punctuality and timely completion of class assignments, in order to remain in the program. While not a requirement for the CIS program, students should be aware that there are special employment conditions in this career field that may include criminal background checks.

Transfer Options
As noted above, Whatcom will begin offering in fall 2017 a BAS degree in IT networking. Alternatively, students may plan their CIS course selection to maximize transferability of their credits through articulation agreements with some Washington 4-year colleges/universities. Advising assistance is strongly recommended.

Students who earn the AAS-T degree in cybersecurity may apply to Western Washington University’s bachelor’s degree program in computer and information systems security and transfer up to 91 credits; the AAS-T degree may also transfer into other Washington 4-year colleges/universities with which Whatcom has a direct articulation agreement for this program. Additional minimum academic requirements apply. Advising assistance is strongly recommended.

Visit whatcom.edu/cis for more information.

CERTIFICATE OF PROFICIENCY

INDUSTRIAL CONTROL SYSTEMS - SCADA
Students will learn how to evaluate and configure cyber physical systems including embedded system architectures; design, plan, and implement an Industrial Control Systems network and analyze and mitigate security issues in an ICS network.

BACHELOR OF APPLIED SCIENCE

IT NETWORKING

The Computer Information Systems BAS degree prepares students for common networking administration challenges as well as those that occur in key industry sectors that require specific focused expertise. Graduates will be prepared to enter the workforce as network administrators and related job categories, such as computer and information systems manager or computer network architect.

PREREQUISITES (FOR SPECIAL ADMISSIONS PROGRAMS)

Washington State community or technical college IT-related associates degree. 90

**SUB-TOTAL UNITS ............. 90**
## CRIMINAL JUSTICE

The criminal justice (CJ) program provides students with the knowledge and skills required for entry level employment within each of the three components of the criminal justice field – law enforcement, the courts, and corrections – as well as the private security sector. The program also offers opportunities for current criminal justice employees to enhance their knowledge and skills. The program offers an associate in science (AS) degree with two options for focused study as well as a certificate option.

### Prerequisite Courses

All 200-level CJ courses require successful completion of CJ& 101 and placement into ENGL& 101.

### Additional Requirements During/After Course of Study

While not a requirement for CJ courses, students should be aware that there are special employment conditions in this career field that may include criminal background checks, polygraph tests, physical fitness standards and/or psychological testing.

### Transfer Option

Students may plan their criminal justice course selection to maximize transferability of their credits and earn both the AS in criminal justice and the Associate in Arts & Sciences (direct transfer) degrees. Advising assistance is strongly recommended.

Visit whatcom.edu/criminaljustice for more information.

EARLY CHILDHOOD EDUCATION

The early childhood education (ECE) program prepares students for careers working with children in early learning and care programs, Head Start, preschools, childcare centers and homes. The program offers three stackable state certificates leading to an associate in arts (AA) degree or to an associate in applied science – transfer (AAS-T) degree. Certificate graduates usually work in family home child care or in centers under the supervision of a program supervisor or director. The AA degree prepares students for lead teacher or administrator positions in early learning programs. The AAS-T degree enables students to transfer in as juniors to bachelor of arts (BA) ECE programs for which articulation agreements are in place.

Stackable State Certificates:
- State initial early childhood education certificate
- State short early childhood education certificates of specialization
  - Early childhood education (general)
  - Administration
  - Family child care
  - Infants and toddlers
  - School age care
- Early childhood education state certificate

This program of study promotes career advancement and improves transferability for students. All certificates align with steps in the Washington State Career Lattice for Early Care and Education Professionals and NAEYC Standards for Teacher Preparation. The common courses required in the certificates also meet requirements for the ECE AA and AAS-T degrees.

Additional Requirements During/After Course of Study
While not a requirement for the ECE program, students should be aware that there are special employment conditions in this career field that may include criminal background checks, current CPR and First Aid certification and HIV training.

Transfer Option
Students may plan their ECE course selection to maximize transferability of their credits through articulation agreements with some Washington 4-year colleges/universities. Advising assistance is strongly recommended to identify the education path that best serves your interests.

Visit whatcom.edu/ece for more information.

CERTIFICATE OF PROFICIENCY

STATE INITIAL EARLY CHILDHOOD EDUCATION CERTIFICATE

The first of three stackable certificates, aligned with step 5 of Washington State’s Career Lattice for Early Care and Education Professionals. Level 2 core competencies are taught and assessed, enabling assistant teachers to move to lead teacher positions in licensed child care centers.

MASSAGE PRACTITIONER

The massage practitioner program prepares students to work as licensed massage practitioners (LMPs). As members of the health care community, they work in a variety of settings including hospitals, sports medicine clinics, medical and physical therapy offices/clinics, health clubs, spas, alternative medicine clinics, counseling and rehabilitative centers and private massage clinics. Program graduates are eligible to sit for the national licensure exam.

Whatcom Community College offers two options for aspiring LMPs: the associate in science (AS) degree and the certificate. The program options run concurrently - the daytime cohorts begin each fall quarter and the evening cohorts each spring quarter. A number of program courses are provided in an online/hybrid format, which means that the lecture portions are delivered by the instructor online and the lab portions are provided face-to-face in a dedicated lab.

The massage practitioner AS degree offers the student the ability to complete advanced coursework and specialize in an area of interest, as well as participate in an externship at a local business.

The massage practitioner certificate was designed to accommodate those who have a previous college education and/or are pursuing a career change.

Core curriculum massage classes must be taken in sequence, are only offered to students accepted into the massage program, and run for three consecutive quarters, beginning in fall or spring quarter.

Both the degree and the certificate curriculum qualify graduates to sit for the national licensure exam, of which successful completion is one requirement to become a licensed massage practitioner in Washington state.

This curriculum is approved by the Washington State Massage Board, a subsidiary of the Washington State Department of Health.

SPECIAL APPLICATION PROCESS

Admission to the massage practitioner program is by special application, and is done on a first come first served basis. In order for an application to be

MEDICAL ASSISTING

The medical assisting (MA) degree/certificate program is designed to train students to work as a member of an ambulatory health care team, performing a broad range of clinical and administrative tasks under the supervision of a physician, physician's assistant or nurse practitioner. Program space is limited and a special application process is required (see below). Students accepted in the MA degree and certificate programs take the same clinical training and administrative skill coursework. The degree requires additional general education/related instruction courses. Upon graduating from the MA degree or certificate program, students are eligible to take a national board exam to become certified medical assistants with the CMA (AAMA) credential. Additionally, the MA degree and certificate programs are aligned with Washington State laws for MA credentials and scope of practice.

Whatcom Community College's medical assisting program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Medical Assisting Education Review Board (MAERB). CAAHEP, 1361 Park Street, Clearwater, FL 33756, (727) 210-2350.

Many of the medical assisting program courses are partnered with the I-BEST program. I-BEST stands for Integrated Basic Education and Skills Training. Refer to the I-BEST program information on pages 17 and 35 for details.

Prerequisite Courses
ENGL& 101; MATH 096 (or higher) or placement into MATH 098; MA 113 or BIS 101; MA 101; CMST& 210 or CMST 145.

Note: Other program prerequisites may apply. Refer to the College's website or obtain the application materials referred to below for complete details.

Special Application Process
Admission to the medical assisting program is by special application. For details about course/program prerequisites, the application process, application materials and deadlines, visit the medical assisting program page on the College's website or contact entry & advising or the medical assisting program coordinator.

Additional Requirements During/After Course of Study
- Courses must be taken in sequence as assigned in the program schedule. Any deviation from the program schedule must have the written approval of the program coordinator.
- All program courses must be passed with a “C” (2.0) grade or better. If courses are not passed with a C or better, students will be dismissed from the program and advised to reapply the following academic year.
- Occupational exposures - The medical assistant may be exposed to various chemicals used in disinfecting and sterilization, laboratory testing reagents, biohazard wastes, blood borne pathogens, and communicable diseases. While in the medical assisting program students have similar occupational exposures. Program students should refer to the Informed Consent for Coursework Requiring Human Subjects document in the medical assisting student handbook for specific information (available to students accepted into the MA program). Safety issues and concerns when dealing with occupational exposures are a major focus within the medical assisting program curriculum.
- Students accepted into the medical assisting degree or certificate programs will need to show documentation that indicates they have begun the required immunization series. Immunizations and tuberculosis screening are required in accordance with CDC recommendations, and OSHA requirements for health care workers. Program students should refer to the Immunization Policy document in the medical assisting student handbook for details.
- Prior to practicum, medical assisting students are required to obtain/maintain provider level CPR certification and the 7-hour HIV/AIDS education certificate. These certifications are offered as part of the regular MA program and must be completed by the student as part of their coursework.

Dismissal/Re-entry Regulations
Students will be dismissed from the medical assisting program for the following reasons:
1. Earning an unsatisfactory grade in any medical assisting course.
2. Failing to satisfactorily complete any probationary contract in the allotted time.
3. Placement on suspension by the College for violations of the Students Rights and Responsibilities policy.
4. Dismissal from practicum.

Students who are dismissed from the program will be sent a certified letter indicating the reason for the
CERTIFICATE

MEDICAL ASSISTING
The Medical Assisting certificate prepares students to perform a broad range of administrative and clinical tasks under the supervision of a physician/provider in a doctor’s office or other medical setting.

NURSING

The purpose of the nursing program is to educate students to practice registered nursing within varied health care settings in collaboration with other members of the health care team, and to assist individuals who are experiencing health care problems to progress toward optimal health and wellness. The program prepares students to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Successful program completers will earn an associate in nursing DTA/MRP degree. The degree allows the student to complete a bachelor’s degree in nursing from accepting universities in one year.

Prerequisite Courses
Scored prerequisites: ENGL& 101 or higher; MATH& 146; PSYC& 200; BIOL& 241; BIOL& 242; BIOL& 260; CHEM& 121 or higher.
Non-scored prerequisites: PSYC& 100; BIOL& 160; 5 credits in an OC Communications; 10 credits in Humanities.
All scored prerequisites must be completed with a minimum grade of B (3.0). BIOL& 241 and 242 must have been completed within 5 years of program application.
Applicants must be currently nurse assistant certified in Washington State.

Special Application Process
Admission to the nursing program is by selective entry application. For details about course/program prerequisites, the application process, application materials and deadlines, visit the nursing program page on the College’s website or contact entry & advising or the nursing program assistant.

Short-Term Training Opportunity
In addition to the degree offered, the following short-term certificate of proficiency is also available at WCC:
• Nursing assistant

Additional Requirements During/After Course of Study
Students must take NURS courses in sequence and maintain a final grade of “C” in all courses. (Note: A “C” in nursing courses is 78%)

Dismissal/Re-entry Regulations
Students will be dismissed from the nursing program for the following reasons:
1. Earning an unsatisfactory grade in any clinical course due to unsatisfactory clinical performance.
2. Failing to satisfactorily complete any probationary contract in the allotted time.
3. Being placed on suspension by the college for violations of the Students Rights and Responsibilities policy.

Students who are dismissed from the program will be sent a certified letter indicating the reason for the dismissal. If the student wishes to appeal this action, he/she may do so by following the appropriate student grievance procedure as stated in the college catalog.
A student dismissed from the program may apply to re-enter the program by completing and submitting an “Application for Re-admission” form to the program director at least one quarter prior to the quarter in which he/she intends to re-enroll. The program director will review the application and inform the student of the outcome of the review no more than ten days after receiving the application. Re-admission is dependent on space availability and whether the student has demonstrated that the problems that led to dismissal have been corrected. The program director may request additional documentation from the student to support the application for re-admission. If the student is readmitted to the program, he/she must complete the requirements that led to the dismissal before continuing the program sequence.
Students will not be allowed to enter the nursing program more than twice.

Visit whatcom.edu/nursing for more information.

PARALEGAL STUDIES

This program provides students with the knowledge and skills for entry into paralegal careers in public or private law offices and law-related agencies. The paralegal studies (PLS) program offers an associate in science degree and a certificate for students with prior bachelor’s level achievement.

Prerequisite Courses
ESLA 117 or placement into ENGL& 101.
Completion of PLS 127 and BIS 121 or BIS 122 with a minimum grade of C or concurrent enrollment is required for all other PLS program courses.
Student success in the PLS program and in the profession requires:
• Interest in the legal system
• Critical thinking and ethical decision making skills
• College level reading and writing skills
• Proficiency in word processing and office skills
• Ability to work independently and with diverse populations
• Adaptability and flexibility when working with people

Visit whatcom.edu/paralegal for more information.

**PHYSICAL THERAPIST ASSISTANT**

The physical therapist assistant (PTA) program prepares students to work with adult, geriatric and/or pediatric populations in general hospitals, rehabilitation hospitals, outpatient clinics, long-term care facilities and school districts. Program graduates are eligible for licensure in any state as a physical therapist assistant. The program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association.

**Prerequisite Courses**

ENGL& 101; BUSAD 100 or MATH& 107 or any course designated “CP” on the Related Instruction list; PSYC& 100 or SOC& 101; BIOL, CHEM, or PHYS lab course; MA 101 (2 credits); BIOL& 241. All prerequisites must be completed with a minimum grade of C+ (2.3).

Note: With the exception of MA 101 and BIOL& 241, other program prerequisites may be waived with an associate/bachelor level degree. Refer to the college’s website or obtain the special application materials referred to below for complete details.

**Special Application Process**

Admission to the physical therapist assistant program is by special application. For details about course/program prerequisites, the application process, application materials and deadlines, visit the physical therapist assistant program page on the College’s website or contact entry & advising or the physical therapist assistant program coordinator for program-specific questions.

**Additional Requirements During/After Course of Study**

- In order to progress through the PTA program, students must take all PTA courses in sequence and maintain a final grade of “C” (2.0) or better in all graded courses and an “S” in all clinical courses. (Note: A “C” in PTA courses is 74%.)
- In order to pass lab practical exams, students must earn at least a “B” (3.0). One re-take will be allowed. Safety errors during a lab practical exam will be cause for failure. (Note: A “B” in PTA courses is 80%.)
- Students admitted into the PTA program are required to maintain current CPR and First Aid certifications, complete a 7-hour HIV/AIDS training course and have up-to-date immunizations. They are also required to travel to and from clinical sites, which may be more than one hour away from the College or from the student’s home.

**Dismissal/Re-entry Regulations**

Students will be dismissed from the PTA program for the following reasons:

1. Earning an unsatisfactory “U” grade in any clinical course after being placed on probation due to unsatisfactory clinical performance.
2. Failing to satisfactorily complete any probationary contract in the allotted time.
3. Earning a “C-” (1.7) or below in any PTA course after being placed on probation.
4. Failing to meet a standard that would require probation for a second time in the program.
5. Being placed on suspension by the College for violations of the Students Rights and Responsibilities policy.

Students who are dismissed from the program will be sent a certified letter indicating the reason for the dismissal. If the student wishes to appeal this action, he/she may do so by following the appropriate student grievance procedure as stated in the college catalog. A student dismissed from the program may apply to re-enter the program by completing and submitting an “Application for Re-admission” form to the program coordinator at least two quarters prior to the quarter he/she intends to re-enroll. The program coordinator will review the application and inform the student of the outcome of the review no more than ten days after receiving the application. Re-admission is dependent on space availability and whether the student has demonstrated that the problems that led to dismissal have been corrected. The program coordinator may request additional documentation from the student to support the application for re-admission. If the student is re-admitted to the program, he/she must complete the requirements that led to the dismissal before continuing the program sequence.

Any subsequent failure to meet the standards of academic progress will result in automatic dismissal. A student wishing to re-enroll after a second dismissal must apply as a new student to the program and repeat all PTA courses.

Visit whatcom.edu/pta for more information.

VISUAL COMMUNICATIONS
The visual communications program prepares students for careers in the print, web, and digital media design fields. The curriculum balances study of conceptual and visual problem-solving skills with the development of technical skills and knowledge of current industry practices. The program’s associate in arts degree offers content in graphic design and web/interactive media, including digital publishing for mobile devices and content management systems.

Prerequisite Courses
ART 112, ART 115 or 116; ART 185; ART& 100 or ART 114 or 150 or 205 or 215; ESLA 117 or placement into ENGL& 101.

Special Application Process
Admission to the visual communications program is by special application. For more information about course/program prerequisites, the application process, application materials and deadlines, visit the visual communications program webpage on the college’s website or contact entry & advising or the visual communications program coordinator.

Additional Requirements During/After Course Of Study
To be eligible for placement in a cooperative work experience internship, students must maintain a minimum GPA of 2.50 in program courses and demonstrate professional work behavior exhibited through good class attendance, punctuality and timely completion of class assignments.

Dismissal/Re-Entry Regulations
Students must meet the WCC Academic Standards of Progress policy (page 43). To re-enter the program, a student must re-apply to the visual communications program, following the special application process. A student who is re-admitted may be required to repeat certain program courses to update skills to current industry standards.

Visit whatcom.edu/viscom for more information.

ASSOCIATE IN ARTS

VISUAL COMMUNICATIONS
The Visual Communications program prepares students for careers in the print, web, and digital media design fields.

**ABE ADULT BASIC EDUCATION**

**ABE 010  BASIC SKILLS MATH-LEVEL I (1-10)**  
Designed for adults who wish to improve their math skills in basic whole numbers. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 011  BASIC READING AND WRITING-LEVEL I (1-10)**  
This course is for adults with little to no reading or writing skills. It will assist them in learning basic words and writing simple sentences. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 020  BASIC SKILLS MATH-LEVEL II (1-10)**  
Designed for adults who wish to improve their math skills in whole number operations. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 021  BASIC READING AND WRITING-LEVEL II (1-10)**  
This course is for adults with beginning reading or writing skills. It will assist them in learning basic decoding strategies and simple writing. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 030  BASIC SKILLS MATH-LEVEL III (1-10)**  
Designed for adults who wish to improve their math skills in problem solving involving decimals and fractions. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 031  BASIC READING AND WRITING-LEVEL III (1-10)**  
This course is for adults with low intermediate reading or writing skills. It will assist them using reading strategies and paragraph and letter writing. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 036  EDUCATIONAL AND CAREER PLANNING FOR ABE STUDENTS (1-3)**  
This course will guide ABE students in assessing their skills, interests, and aptitudes in order to set goals for a successful transition into college and further training as well as improve their employability and job seeking skills. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 040  BASIC SKILLS MATH-LEVEL IV (1-10)**  
Designed for adults who wish to improve their math skills and carry out tasks involving percent, ratio and proportion, simple formulas, measurement, and graphs in real life situations. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 041  BASIC READING AND WRITING-LEVEL IV (1-10)**  
This course is for adults with high intermediate reading or writing skills. It will assist students in improving reading strategies and essay writing. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

**ABE 050  BASIC SKILLS MATH LEVEL V - GED (1-10)**  
This course is for students who have assessed into grade equivalents 9-10 and who need a review of basic math, whole number operations through beginning algebra and geometry, in order to pass the GED test. Content emphasizes math problem solving for application to daily life. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)
ABE 051 BASIC READING AND WRITING
LEVEL V - GED (1-10)
This basic GED prep course is for adults with basic adult secondary reading or writing skills. It will assist students in improving reading strategies and essay writing. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

ABE 056 INTRODUCTION TO HEALTH CAREERS
FOR ABE STUDENTS (1-5)
Introduction to Career Pathways for ABE students interested in further study and to enhance job skills. S/P/U grading. Required preparation: CASAS test and enrollment in ABE course. (N)

ABE 058 HEALTH CAREER SPECIAL TOPICS
FOR ABE STUDENTS (1-4)
Introduction to Health Careers for ABE Students interested in further study and to enhance job skills. S/P/U grading. Required preparation: CASAS test and enrollment in ABE course. (N)

ABE 060 BASIC SKILLS MATH-LEVEL VI-GED (1-10)
This course is for students who have assessed into grade equivalents 11-12 and who need a review of fractions, percents, decimals, ration proportions, basic algebra and geometry in order to pass the GED test. Content emphasizes development of advanced algebra and geometry problem solving skills. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

ABE 061 BASIC READING AND WRITING
LEVEL VI - GED (1-10)
This advanced GED prep course is for adults with high adult secondary reading or writing skills. It will assist students in improving reading strategies and essay writing. S/P/U grading. Required preparation: assessment and orientation by ABE staff. (N)

ABE 066 BASIC SKILLS IN BUSINESS
COMPUTING FOR ABE (1-3)
Course designed to enhance student employment skills and technology skills. It will familiarize them with basic skills for word processing and spreadsheets and the vocabulary and reading that are used in college level computing and business courses. S/P/U grading. Required preparation: CASAS placement test. (N)

ABE 076 INTRODUCTION TO HEALTH CAREERS
II-ABE STUDENTS (1-4)
This course will develop literacy skills and enhance employment skills in the Health field through study of the various aspects of health careers. S/P/U grading. Required Preparation: CASAS test and current enrollment in the ABE Program. (N)

ABE 096 WORKPLACE BASICS: EQUIPPED
FOR WORK (1-15)
This course enhances employment opportunities for students and prepares them to enter unsubsidized employment. Topics include career planning, job search skills, computer skills, interpersonal skills for the workplace, math and 10-key, parenting skills, business writing, and customer service. S/P/U grading. Required preparation: must be enrolled in ABE. (N)

ACCT ACCOUNTING

ACCT 100 INTRODUCTION TO ACCOUNTING (3)
This course is designed to help students learn the fundamentals of accounting as applied to bookkeeping systems of small businesses and professional organizations. (UE)

ACCT 110 ACCOUNTING FOR A/P, A/R,
AND INVENTORY (5)
Formerly OFFAD 110. A comprehensive course that includes the skills, procedures, and concepts necessary to accurately perform manual and computerized accounts receivable, accounts payable, and inventory bookkeeping tasks. Prerequisite: ACCT 100 or ACCT& 201 with a minimum grade of C. (UE)

ACCT 130 QUICKBOOKS PRO (3)
This course is designed to present accounting concepts and their relationship to QuickBooks Pro by completing transactions for a business. This will be accomplished by recording transactions, preparing a multitude of financial reports, closing an accounting period, compiling charts and graphs, and preparing payroll. Recommended preparation: ACCT100 or ACCT& 201 with a minimum grade of C. r. (UE)

ACCT& 201 PRINCIPLES OF ACCOUNTING I (5)
Introduction to the theory and principles of the accounting cycle and accounting concepts. Covers typical general journal transactions, posting transactions to the ledgers, principles of adjusting and closing entries, the process of completing the appropriate financial statements, various inventory valuation methods, and cash policies using both manual forms and computerized methods. Prerequisite:
MATH 97 or higher. Recommended preparation: basic proficiency in Excel. (LE)

ACCT& 202 PRINCIPLES OF ACCOUNTING II (5)
This course introduces generally accepted accounting principles used in preparing financial statements for a corporation. These principles are learned through various in-class and online exercises, problems, tests and through various Excel for accounting projects. Prerequisite: ACCT& 201 with a minimum grade of C. (LE)

ACCT& 203 PRINCIPLES OF ACCOUNTING III (5)
This course introduces decision tools that managers use in evaluating business plans, controls, and performances along with basic manufacturing accounting concepts and reports. These tools are learned through various in-class and online exercises, problems, and tests. Prerequisite: ACCT& 202 with a minimum grade of C. (LE)

ACCT 250 GOVERNMENTAL-/NOT-FOR-PROFIT ACCOUNTING (5)
This course provides a fundamental knowledge of the distinguishing characteristics of not-for-profit and governmental accounting. It covers basic accounting terminology and financial statements, an overview of current FASB and GASB requirements, in addition to discussions of grant management, fund accounting, net asset classifications, and donations. Prerequisite: ACCT& 201 with a minimum grade of C. (UE)

ACCT 260 INDIVIDUAL INCOME Tax (3)
Formerly OFFAD 108. A comprehensive course that includes the skills, procedures, and conceptual knowledge necessary to accurately perform manual and computerized payroll processing tasks. Prerequisite: ACCT& 201 with a minimum grade of C. (UE)

ANTH 100 SURVEY OF ANTHROPOLOGY (5)
Introduction to anthropology stressing human origins, cultural diversity, and bio-cultural-ecological adaptations.

Topics include human inheritance, evolution, human fossils, prehistoric cultures, and a comparison of resource consumption and economics, human impact on the natural environment, family, politics, values, communication, expressive arts, religion, culture change and globalization. (SSgs)

ANTH& 104 WORLD PREHISTORY (5)
An archaeological course which is a global overview of human history, from our origins to the development of writing and civilization. This world wide approach compares the dates and the distinctive character of regional progress and how human technology and imagination adapted with various environments. (SSg)

ANTH 140 THE ANCIENT NEAR EAST (5)
An examination of ancient writings and archaeological excavations to reconstruct the historical and cultural development of the Near East (Mesopotamia, Egypt, Palestine, Anatolia). Topics include: the ancient environments, the first farmers and herders, ancient sites and artifacts, the invention of writing and warfare, the origins and expansion of civilizations and empires. (SSg)

ANTH 150 NORTHWEST COAST ETHNOBOTANY (5)
Study of native plants in Northwest Coast Indian cultures. Includes sessions on plant biology, plant identification, and traditional Indian uses of plants for food, medicine, and materials. Field trips included. (SSd)

ANTH& 200 INTRODUCTION TO LANGUAGE (5)
Overview of the study of language. Includes the nature of human language, its social aspects, the psychology of language, and the grammatical aspects of language; phonetics, morphology, syntax, semantics, dialects, language diversity, and the biological basis of language. Prerequisite: placement in ENGL& 101. (SSw)

ANTH& 204 ARCHAEOLOGY (5)
Between the history of archaeology and the problems faced today, this course examines the theories and methods used to interpret what’s left of the world’s lost cultures. Topics include: how artifacts are dated, how people used technology to survive in different environments, how they organized their societies, and developed their ideologies. (SSs)

ANTH& 205 BIOLOGICAL ANTHROPOLOGY (5)
A basic understanding of the evolution of the human species from a biological perspective. Human adaptation through the interaction of biology and culture is a primary
focus for this course. Students will gain an understanding of the principles of genetics, primate behavior, primate and human fossils, early prehistoric cultures, and human variation and adaptation. (MS s)

ANTH& 206 CULTURAL ANTHROPOLOGY (5)
Study of culture and society with a cross-cultural perspective of human adaptation to the bio-cultural environment. Topics include technology, resource consumption and economics, medicine, family, social groups, political systems, religion, expressive arts, language, values, culture change, human impact on the environment, and globalization. Prerequisite: placement in ENGL &101. (SSwdgs)

ANTH& 210 INDIANS OF NORTH AMERICA (5)
A survey of North American Indigenous peoples emphasizing cultural-ecological adaptations from prehistoric times to the present; survival of traditional cultures through analyses of prehistory, languages, traditional land use, sustaining natural resources, social organization, religions, values, arts, and culture change. Special consideration given to Northwest Coast and Northwest Plateau peoples. (SSds)

ANTH& 216 NORTHWEST COAST INDIANS (5)
An anthropological overview of the unique cultural-ecological adaptations of coastal peoples from Oregon to southern Alaska. Topics include cultural-ecological adaptations, languages, traditional land use, sustaining natural resources, social organization, religious beliefs and values, art, historic changes and adaptations, and modern issues. Particular emphasis on Salish people of Northwest Washington. (SSds)

ANTH 225 PSYCHOLOGICAL ANTHROPOLOGY (5)
The study of the relationship between mind and culture. Topics include the evolution of human behavior, a cross-cultural analysis of ritual, gender, emotion, belief systems, and of perception and treatment of mental health issues including depression, schizophrenia, and “culture-bound syndromes”. Examines the impact of mental health’s global importance in Western and non-Western health industries. Prerequisite: placement in ENGL& 101. Recommended preparation: ANTH& 100 or 205 or 206. (SSwdg)

ANTH&235 CROSS CULTURAL MEDICINE (5)
Introduction to medical anthropology. Explores the occurrence of disease, illness concepts and approaches to healing in other cultures, and considers health care options in the United States including ethnic traditions and newer alternatives. (SSg)

ANTH 295M HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Anthropology. Required preparation: acceptance into the Honors Program. (MS)

ANTH 295S HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Anthropology. Required preparation: acceptance into the Honors Program. (SS)

ART ART

ART& 100 ART APPRECIATION (3 OR 5)
Approach to art appreciation designed to develop an understanding of visual art forms, and to develop the vocabulary necessary to discuss them. Content will focus on issues and concepts in contemporary art. Topics include the purpose and function of art, creative process, visual and design elements that go into the making of art. Prerequisite: placement in ENGL& 101. (Hw)

ART 106 ART OF THE PACIFIC NORTHWEST NATIVE AMERICANS (3)
The art of the seven major language groups between Puget Sound and Alaska, considered from the standpoints of original use, meaning, style, and construction method. Slide lectures, discussion, outside readings, films and a field trip are integral parts of the class. (Hd)

ART 107 ART IN WORLD CULTURES (3 OR 5)
Non-historical investigation of art forms and aesthetics in both western and non-western cultures as a means of gaining insight into the motivations for and the meaning of art in various parts of the world. Prerequisite: placement in ENGL& 101. (Hwdg)

ART 112 DRAWING I (3 OR 5)
Theory and practice of drawing in various mediums with a range of subject and of aesthetic approaches. Emphasis on studio work integrated with slides, lecture, discussion and out-of-class work. (Hp)
ART 114  HISTORY OF GRAPHIC DESIGN (5)
History of graphic design and illustration from ancient culture through the present with an emphasis on early twentieth century to current concepts and trends. Prerequisite: placement in ENGL& 101. (Hwg)

ART 115  2D DESIGN (3 OR 5)
Introduction to the elements of two-dimensional design and the application of those elements in visual projects. (Hp)

ART 116  3D DESIGN (3 OR 5)
Introduction to the elements of three-dimensional design and the application of those elements in visual projects. (Hp)

ART 118  MIXED MEDIA/COLLAGE (5)
Introduction to collage methods and materials through the use of traditional and non-traditional media. Emphasis on the elements of design and composition as applied to various studio projects. Explores the history and use of collage by 20th Century artists. Recommended preparation: prior drawing or painting experience. (Hp)

ART 123  WATER BASED MEDIA (3 OR 5)
Introduction to water based media and materials through the use of traditional and non-traditional techniques. Media will include watercolor, gouache and acrylic painting. Emphasis on techniques, color theory and application; and the elements of color, light, and composition, as applied to various studio and possibly on-site (outdoors) projects. Explores the history and use of water-based media by traditional and contemporary artists. (LE)

ART 130  CERAMICS I (3 OR 5)
Theory, history, aesthetics, and practice of ceramics using various hand building methods and the wheel. Emphasis on studio work integrated with slides, films, lecture, critiques, discussion and out-of-class work. (Hp)

ART 131  BEGINNING THROWING (3 OR 5)
Students will learn throwing techniques and use these skills to create both vessels and sculpture. There will be opportunities to do hand building work, but this will not be the emphasis of this class. There will be both group and individual critiques of the work. (Hp)

ART 134  THE ART OF COLOR (3 OR 5)
Principles of color theory and application, with an emphasis placed on objective color principles and individual subjective responses towards color. Includes studio work, lecture, historical research, critiques, and out-of-class work. (Hp)

ART 150  HISTORY OF PHOTOGRAPHY: 1839 TO THE PRESENT (5)
This course surveys the history and evolving properties of photography as a cultural language and as an art-making tool. It will focus on each of the present and past uses of the medium including illustration, documentation, portraiture, landscape, advertising, journalism, reportage, fine art and digital imagery. Prerequisite: placement in ENGL& 101. (Hwg)

ART 155  ART FOR CHILDREN (3)
Explore the development of creativity and stages of artistic growth in children. Plan integrated curriculum, carry out lesson plans, identify resources, and observe guidance techniques. (LE)

ART 160  SCULPTURE (5)
Studio work in principles of sculpture and their application via various materials, art forms and spatial concepts. Emphasis on individual projects. (Hp)

ART 175  PRINTMAKING: RELIEF AND MONOTYPE (3 OR 5)
Introduction to printmaking concepts and methods. Covers relief print processes (woodcut and linocut) and monotype prints. Emphasis on studio work supplemented with slides, lectures, and group discussions. (Hp)

ART 176  PRINTMAKING: ETCHING I (5)
Introductory methods of incising and etching copper plates to create printable images, using an etching press. Techniques covered include drypoint, line etching, and tonal etching. For beginning and experienced artists. Recommended preparation: ART 112. (Hp)

ART 179  2D ANIMATION (5)
Introduction to principles and practice of animation using 2D animation software. Course covers concept and story development, storyboarding, and animation concepts and techniques based on observation, timing, motion, and transformation. Recommended preparation: prior drawing or computer art experience. (Hp)

ART 185  INTRODUCTION TO VISUAL COMMUNICATIONS (5)
This course examines the principles and practice of visual communications. Includes the design process, layout,
basic web design, and preparation of art and copy for reproduction. It introduces the basics of graphics software (page layout, illustration, web design, and image editing) as tools of the design process. (Hp)

**ART 186** **INTRODUCTION TO DIGITAL VIDEO (5)**
Introduction to concepts and techniques of digital video filmmaking. Course covers story development, basic equipment operation, lighting and audio, video composition and aesthetics, visual storytelling, non-linear video editing, and media law and ethics. (Hp)

**ART 187** **COMPUTER ART (3 OR 5)**
Exploration of the use of computer technology for creating fine art and illustrations. The software used simulates traditional drawing and painting media. Emphasis will be on the technical use of software tools as well as the content and aesthetics of image making. Recommended preparation: prior basic drawing course. (Hp)

**ART 200** **FIGURE DRAWING I (3 OR 5)**
Study in drawing the human figure from live models as well as other sources, using various media. Preferable to have had some experience in general drawing. Prerequisite: ART 112. (LE)

**ART 201** **FIGURE DRAWING II (3 OR 5)**
Study in drawing the human figure from live models as well as other sources, using various media. Preferable to have had some experience in general drawing. Prerequisite: ART 200. (LE)

**ART 202** **FIGURE DRAWING III (3 OR 5)**
Study in drawing the human figure from live models as well as other sources, using various media. Preferable to have had some experience in general drawing. Prerequisite: ART 201. (LE)

**ART 203** **HISTORY OF WESTERN ART: ANCIENT AND MEDIEVAL (3 OR 5)**
Historical development of painting, sculpture, and architecture from prehistory through the medieval period. Focus on Europe, the Near East and North Africa. Prerequisite: placement in ENGL& 101. (Hwg)

**ART 204** **HISTORY OF WESTERN ART: 15TH THROUGH 18TH CENTURY (3 OR 5)**
Historical development of painting, sculpture, and architecture from prehistory through the medieval period. Focus on Europe, the Near East and North Africa. Prerequisite: placement in ENGL& 101. (Hwg)

**ART 205** **HISTORY OF WESTERN ART: MODERN (3 OR 5)**
Historical developments in Western art from 18th century to the mid-20th century. Focus on European and American art. Prerequisite: placement in ENGL& 101. (Hwg)

**ART 205** **WESTERN ART FROM 18TH TO MID 20TH CENTURY (3 OR 5)**
Historical developments in Western art from 18th century to the mid-20th century. Focus on European and American art. Prerequisite: placement in ENGL& 101. (Hwg)

**ART 206** **FAR EASTERN ART HISTORY (3 OR 5)**
Historical study of the art and architecture of Asia from prehistory to the 18th century with an emphasis on China and Japan. (Hg)

**ART 212** **DRAWING II (3 OR 5)**
Theory and practice of drawing in various mediums with a range of subject and of aesthetic approaches. Emphasis on studio work integrated with slides, lecture, discussion and out-of-class work. Prerequisite: ART 112. (LE)

**ART 215** **WESTERN ART FROM WORLD WAR II TO THE PRESENT (3 OR 5)**
Historical developments in Western art From World War II to the present. Focus on European and American art. Prerequisite: placement in ENGL& 101. (Hwg)

**ART 221** **PAINTING (3 OR 5)**
Fundamentals of painting in oils or acrylics, stressing color usage, familiarity with the medium, various painting processes and methods. Prerequisite: ART 112. (Hp)

**ART 222** **INTERMEDIATE PAINTING (3 OR 5)**
Studio work in painting using oils or acrylics exploring various subject matter and creative processes. Studio work integrated with slides lecture and discussion of both theory and practice. Out of class time required. Prerequisite: ART 221. (LE)

**ART 223** **ADVANCED PAINTING (3 OR 5)**
Advanced studio work in painting using oils and acrylics. Studio work integrated with slides, lecture and discussion of both theory and practice. Out of class time required. Prerequisite: ART 222. (LE)

**ART 230** **CERAMICS II (3 OR 5)**
Advanced theory, history, aesthetics and practice of ceramics using various hand building methods and the wheel. Emphasis on studio work integrated with slides,
films, lecture, critiques, discussion and out-of-class work. Prerequisite: ART 130 or ART 131. (LE)

ART 231 CERAMICS III (3 OR 5)
Advanced theory, history, aesthetics, and practice of ceramics using various hand building methods and the wheel. Emphasis on studio work integrated with slides, films, lecture, critiques, discussion and out-of-class work. Prerequisite: ART 230. (LE)

ART 276 PRINTMAKING: ETCHING II (5)
Having been introduced to basic methods of etching in Art 176, students can design images with specific techniques in mind, and expand upon their knowledge by learning more complex etching methods. Techniques covered include mezzotint, sugar lift, soft ground, spit bite, and white ground etching. Prerequisite: ART 176. (Hp)

ART 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in art. Required preparation: acceptance into the Honors Program. (H)

ASL AMERICAN SIGN LANGUAGE

ASL& 121 AMERICAN SIGN LANGUAGE I (5)
Introduction to ASL, a visual/gestural language. Emphasis on vocabulary, grammar and Deaf culture/history. (LED)

ASL& 122 AMERICAN SIGN LANGUAGE II (5)
A continuation of the study of ASL, a visual/gestural language. Emphasis on increasing vocabulary and grammar as well as a more in-depth look at Deaf culture and history. Prerequisite: ASL& 121. (LED)

ASL& 123 AMERICAN SIGN LANGUAGE III (5)
Continuation of study of ASL, a visual/gestural language. Emphasis on grammatical structure and syntax as well as a more in-depth look at Deaf culture and Deaf issues. Prerequisite: ASL& 122. (Hd)

ASTR ASTRONOMY

ASTR&100 SURVEY OF ASTRONOMY (5)
Introduction to Astronomy includes background physics essentials; measuring properties of stars; star formation; stellar evolution; stellar explosions and remnants; normal and active galaxies and galactic evolution; big bang and evolution of the universe. (MS)

ASTR 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in astronomy. Required preparation: acceptance into the Honors Program. (MS)

BIOL BIOLOGY

BIOL 103 THE BIOLOGICAL WORLD (5)
Introductory laboratory course on the ecology of ecosystems in the Pacific Northwest and the impacts of humans on these systems. Emphasis on classification, basic ecology and biological characteristics of plankton, algae, fungi, plants and animals using examples from marine, freshwater and terrestrial Pacific Northwest ecosystems. Lab work and field trips included. Prerequisite: placement in ENGL& 101. (MSwsl)

BIOL 104 FINDING THINGS OUT: BIOLOGY (5)
Part of a three quarter set of courses using extensive hands-on and inquiry-based activities to help students understand a few central ideas in biology regarding the flow of energy and matter. Students will develop critical thinking skills required to pursue scientific understanding of important ideas in biological systems. Preferred sequence is PHYSC 104, GEOL 104, and BIOL 104. Lab work included. Recommended preparation: PHYSC 104 and GEOL 104. (MSl)

BIOL 130 INTERTIDAL MARINE ECOLOGY (3)
Study of intertidal algae and animals and their environment. Lab work and local field trips included. Students must be able to accommodate four field trips that occur outside of class time due to the timing of low tides. Prerequisite: placement in ENGL& 101. (LEws)

BIOL 133 NATURAL SCIENCE OF AUSTRALIA AND NEW ZEALAND (5)
Focuses on the ecology of Australia and New Zealand, including ecosystems and human impact on ecosystems. The biodiversity, characteristics, and interactions of Australian flora and fauna will also be investigated within various habitats and ecosystems. A significant portion of the course will involve field observations and experiences. This course is offered only to students participating in the Australia/New Zealand study abroad program and does not meet the lab requirement. (MSg)
BIOL& 160  GENERAL BIOLOGY W/LAB (5)
Introductory laboratory course in biology emphasizing
the structural and functional analysis of biological
organization. Includes cell structure and function, energy
production and utilization, reproduction, growth and
development, genetics and immunology. Lab work
included. Prerequisite: placement in ENGL& 101. (MSwl)

BIOL& 221  MAJORS ECOLOGY/EVOLUTION (5)
This course is designed to prepare the student for further
studies in the field of biology or related fields. Basic
information about evolution, genetics, biodiversity of life
forms, and ecology will be taught and assessed. This is
the first in a three-quarter sequence for biology majors.
Prerequisite: prior or concurrent enrollment in CHEM& 161;
placement in ENGL& 101. (MSwl)

BIOL& 222  MAJORS CELL BIOLOGY/MOLECULAR (5)
This course is designed to prepare the student for further
studies in the field of biology or related fields. It covers
basic information about cell metabolism, biological
molecules, structure and function of cells, gene regulation,
and development in plants and animals. Prerequisite:
CHEM& 161 and BIOL& 221 with a minimum grade of C-
and placement in ENGL& 101. (MSwl)

BIOL& 223  MAJORS ORGANISMAL PHYSIOLOGY (5)
This course is designed to prepare the student for further
studies in the field of biology or related fields. Basic
information about the structure and functions of living
organisms will be taught and assessed. This is the third in
a three-quarter sequence for biology majors. Prerequisite:
BIOL& 222 with a C- or better; placement in ENGL& 101.
(MSwl)

BIOL& 241  HUMAN ANATOMY AND PHYSIOLOGY 1 (5)
In-depth study focusing on the structure and function of
the various components of the human body systems from
the cellular level up to the organ system level. Abnormal
or pathological conditions of these systems also covered.
Laboratory exercises focus on the structures as well as the
physiology of the systems covered in the lecture portion
of the course. Prerequisite: minimum grade of B- in either
BIOL& 160 or 222; and a minimum grade of C in either
CHEM& 121 or CHEM& 161. (MSI)

BIOL& 242  HUMAN ANATOMY AND PHYSIOLOGY 2 (5)
Continuation of the structure and function of the human
body systems with laboratory exercises designed to
enhance the knowledge acquired in the lecture.
Prerequisite: BIOL& 241 with a minimum grade of C. (MSI)

BIOL& 260  MICROBIOLOGY (5)
This course is designed for health science and biological
science majors. Topics include: cellular structure and
function, nutrition, growth, metabolism, genetics,
systematics, defenses against microbes, and pathogenicity,
as well as laboratory exercises involving culture techniques,
identification, environmental influences, and mechanisms
of microbial control. Prerequisite: BIOL& 160 or BIOL& 222
with a minimum grade of B-; and CHEM& 121 or CHEM&
161 with a minimum grade of C; and placement in ENGL&
101. (MSwl)

BIOL 295  HONORS PROGRAM SPECIAL TOPICS
SEMINAR (2)
Reading, writing, discussion and oral presentations
designed to develop in-depth, advanced level knowledge
of a topic in biology. Required preparation: acceptance
into the Honors Program. (MS)

BIS 101  INTRODUCTION TO BUSINESS
COMPUTING (3)
Introduction to word processing, electronic spreadsheets,
databases, and e-communications using MS Office.
Prerequisite: MATH 097 or concurrent enrollment or
permission of program coordinator. (UE)

BIS 121  WORD PROCESSING I (3)
Introductory course in word processing. Covers basics of
document creation, formatting, and editing; introduces
"styles", graphics, various types of standard formats.
Prerequisite: BIS 101 and keyboarding speed of 25 words
a minute on a 5 minute timing at 96% accuracy. (UE)

BIS 122  BUSINESS DOCUMENT DESIGN (5)
Advanced word processing and business document
design techniques. Prerequisite: BIS 121. (UE)

BIS 141  SPREADSHEETS I (3)
Introductory course in spreadsheets. Covers basics of
spreadsheet creation, formatting, and editing; introduces
numeric data analysis tools(functions), graphs, tables and
arrays. Prerequisite: BIS 101. (UE)

BIS 142  SPREADSHEETS II (5)
In-depth examination of the spreadsheet tools. Introduces
advanced techniques and provides hands-on practice to
solve spreadsheet problems. Prerequisite: BIS 141; MATH
99 or BUSAD 100. (UE)
BIS 161 DATABASE MANAGEMENT I (3)
Introductory course in databases. Covers basics of database creation including tables, forms, queries, and reports; introduces database management tools such as sorting, querying, and calculating. Prerequisite: BIS 101. (UE)

BIS 181 INTRODUCTION TO PRESENTATION SOFTWARE (3)
Introductory course in presentation software. Covers basics of presentation creation, revision, enhancement and delivery. Includes tips and tricks for ease in public speaking. Prerequisite: BIS 101. (UE)

BUS BUSINESS

BUS& 101 INTRODUCTION TO BUSINESS (5)
Covers the role of business in modern economy and topics related to internal operations of a business and opportunities in business. Recommended preparation: BUSAD 100 and placement into ENGL& 101. (SS)

BUS& 201 BUSINESS LAW (5)
Principles of law as they apply to business, including history, contracts, law of agencies, rights and duties of employer and employee, negotiable instruments, insurance, personal property, bailments, conditional sales, partnerships, corporations, real property and security relations. Recommended preparation: BUS& 101. (SS)

BUS 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in business administration. Required preparation: acceptance into the Honors Program. (SS)

BUS 302 PROJECT MANAGEMENT (5)
This course examines the role of project management in a business or corporate environment. Students learn how to achieve project goals and objectives within set constraints, such as time and budget. Topics include: project management frameworks and processes and their application to a project. Students learn to apply knowledge and skills to effectively initiate, plan, execute, and complete projects. Prerequisite: Program admittance or permission of BAS program coordinator. (LE)

BUS 303 COMPLIANCE AND AUDITING (5)
This course covers the standard rules, regulations, and issues related to business management compliance with applicable laws and regulations. Topics include the role of the auditor, the legal environment for the auditor, compliance requirements and standards, and strategies for achieving and maintaining compliance with applicable laws and regulations. Prerequisite: Program admittance or permission of BAS program coordinator. (LE)

BUSAD BUSINESS ADMINISTRATION

BUSAD 100 BUSINESS MATH (5)
Mathematical applications in business involving word problems. Recommended preparation: MATH 097. (UE)

BUSAD 102 BUSINESS ETHICS (3)
Introductory course exploring factors which influence ethical or unethical behavior. Required elements include written articles/case studies, oral presentations and quizzes. Prerequisite: BUS& 101 and placement in ENGL& 101, or permission of program coordinator. (UE)

BUSAD 108 PRINCIPLES OF MARKETING (5)
Introductory course covering marketing strategy, current ethical issues, market research, segmentation, buyer behavior, product development, pricing decisions, distribution, and integrated marketing communications. Prerequisite: BUS& 101 or concurrent enrollment or permission of program coordinator. (UE)

BUSAD 111 RETAIL MANAGEMENT (5)
Introductory course examining the role of retailing in today’s economy. Topics include consumer targeting and behavior, effective operations, integrated marketing communications. Merchandising, store layout, design, and image. Recommended preparation: BUS& 101 or permission of instructor. (UE)

BUSAD 113 SALES AND PROMOTION (3)
Introductory course covering personal and telephone selling, sales management and training, and product promotion/advertising. Recommended preparation: BUSAD 108. (UE)

BUSAD 120 CONSUMER RELATIONS AND SERVICE EXCELLENCE (5)
Course enables students to develop skills in order to prepare them for successful employment in the consumer relations and service field. Students will identify and explore consumer relations, company cultures, service recovery, and communication skills. (UE)
BUSAD 140  BUSINESS RESEARCH AND COMMUNICATION (3)
Application of research and writing activities to enhance knowledge of the business profession and environment using APA writing style and completing both oral and written communication projects using PowerPoint, Word, Excel, and other formats that would be useful in a professional arena. Recommended preparation: BUS& 101 or general business knowledge. Prerequisite: placement in ENGL& 101. (UEw)

BUSAD 170  CUSTOMER SERVICE FOR PROFESSIONALS (3)
Designed to help students understand the needs and requirements for superior customer service. Customer service forms the basis for how we do our jobs with the objective of exceeding the expectations of our customers. Topics covered include defining customer service, basic communication techniques, customer relations, problem solving, conflict resolution, and anger and stress management. Prerequisite: placement in ENGL& 101 or permission of program coordinator. (UE)

BUSAD 175  TRAVEL AND TOURISM OPERATIONS (4)
Overview of the major components of travel and tourism industry. Students will learn about top travel destinations, reservation and ticketing systems, tour planning and operators, sales and marketing, trends, economic impact, the cruise market, and transportation modes. Simulation exercises and internship assignments provide practical application. Recommended preparation: MATH 92, ENGL 92, ESLA 115 and BIS 101. (UE)

BUSAD 176  CATERING, BANQUET, AND FOOD SERVICE MANAGEMENT (4)
This course is designed as an overview of the basic principles and theories of catering and food service operations. Students will identify types of catered events both on and off premises. Special emphasis is placed on types of food and beverage functions, marketing, production and event planning, financial controls and contracts, room arrangements and personnel. Recommended preparation: ESLA 115 or concurrent enrollment; MATH 92, ENGL 92, ENGL 95 and BIS 101. (UE)

BUSAD 177  MEETING AND EVENT PLANNING (4)
This course is designed to survey the basic concepts and details in planning and coordinating meetings and events. This course will help students with the logistics of the planning process, evaluating meeting sites and set-up, budget preparation, promotion, developing contracts, coordination of staff, audio-visual requirements, and event design. Recommended preparation: ESLA 115, MATH 92, ENGL 92, ENGL 95 and BIS 101. (UE)

BUSAD 179  INTRODUCTION TO HOSPITALITY MANAGEMENT (5)
The course will introduce students to the exciting world of hospitality concepts and practices. The course covers the scope and forms of the hospitality industry, lodging, food and beverage, transportation, retail outlets, and special events. The management practices of hotels, resorts, convention centers, restaurants, and casinos are introduced. History, leadership, organizational structure, franchising are presented. Recommended preparation: ENGL 95/ESLA 115 or placement into ENGL& 101. (UE)

BUSAD 205  HOTEL MANAGEMENT AND LODGING SYSTEMS (5)
An in-depth view of management operations within the lodging industry. Areas emphasized include: front office operations, revenue management, check in and settlement procedures, reservations, handling guest relations, management concerns of various departments. Students will survey lodging systems, operations, hospitality terminology, and interdepartmental communication. Recommended preparation: BUSAD 179, MATH 92 or placement into MATH 94; placement into ENGL& 101; BIS 101 recommended. (UE)

BUSAD 222  HUMAN RELATIONS IN BUSINESS (3)
An introduction to Human Relations in the workplace. Communication skills, conflict resolution, power, politics, ethics, and team dynamics are presented and analyzed. Current research and theories of behavioral sciences and communications are applied to workplace situations. (UE)

BUSAD 223  PRINCIPLES OF MANAGEMENT (5)
Fundamental principles of management as applied to business enterprise. Actual business cases are studied and discussed amongst students by applying business management principles. Recommended preparation: BUS& 101. (UE)

BUSAD 228  PRINCIPLES OF FINANCE (5)
Course is designed to introduce students to basic financial concepts and theories. The course will explore many areas of finance, including, but not limited to: the time value of money, financial institutions, breakeven analysis, working capital management, mergers, acquisitions, and divestitures, investments, and debt and equity. Recommended preparation: ACCT& 201. (UE)
BUSAD 230  HUMAN RESOURCE MANAGEMENT (5)
Introductory human resource management course covering activities and issues confronted by management when planning and forecasting personnel needs of organizations. Examines equal employment opportunity, affirmative action, diversity issues, staffing, training and development, compensation and benefits, labor/management relations, and health/safety. Recommended preparation: placement into ENGL& 101. (UEd)

BUSAD 238  INVESTMENTS (5)
Course is designed to provide students with an introduction to the theory of investments. Topics include, but are not limited to, the following: interest rates, mutual funds, bond prices and yields, diversification, futures contracts, stock options, and risk and the rate of return. Recommended preparation: ACCT& 201. (UE)

BUSAD 280  SUSTAINABLE BUSINESS PRACTICES I (3)
This class is the first of a three part series. The focus of this course is measuring, tracking, & implementing sustainability in a business/institutional setting. The class will provide a practical introduction to sustainability, business and leadership practices. Topics covered will include: energy efficiency, transportation, water, and zero waste. Recommended preparation: students have professional work experience OR have completed a basic series of business, economics, political science, and/or related coursework. (UEs)

BUSAD 281  SUSTAINABLE BUSINESS PRACTICES II (3)
This is the second course in a three part series. The focus of this course is the sustainable supply chain. Topics covered will include: responsible purchasing, renewable energy, sustainable food, sustainable building and development, and alternate sources of revenue and/or savings. Prerequisite: BUSAD 280 or permission of instructor. (UEs)

BUSAD 282  SUSTAINABLE BUSINESS PRACTICES III (3)
This is the third course in a three part series. The focus of this course is the sustainable business model. Topics covered will include: triple bottom line accounting, leadership skills for change agents, corporate social responsibility, employee ownership, and marketing. Prerequisite: BUSAD 281 or permission of instructor. (UEs)

CHEM 104  FINDING THINGS OUT: CHEMISTRY (5)
Part of a 3-quarter set of courses using extensive hands-on and inquiry-based activities to help students understand a few central ideas in chemistry regarding the flow of energy and matter. Students will develop critical thinking skills required to pursue scientific understanding of important ideas in chemical systems. (MSI)

CHEM& 110  CHEMICAL CONCEPTS WITH LAB (5)
Intended for non-science majors. General survey of chemistry covering a broad outline of certain pertinent concepts and the impact of chemistry in our daily lives and the world around us. Lab work included. Prerequisite: MATH 97. (MSI)

CHEM& 121  INTRODUCTION TO CHEMISTRY (5)
Introductory course open to students without previous background in chemistry. Introduction to the nature of atoms and molecules, chemical notation, scientific reasoning and problem solving in the study of the theory and applications of inorganic chemistry. Lab work included. Prerequisite: MATH 99 with a minimum grade of C-. (MSI)

CHEM& 131  INTRODUCTION TO ORGANIC/ BIOCHEMISTRY (5)
Survey of organic and introduction to biochemistry satisfying allied health program requirements. Study of structure, nomenclature and reactions of organic and biological compounds with applications to living systems. Lab work included. Prerequisite: CHEM& 121 or CHEM& 161; prior biology course. (MSI)

CHEM& 161  GENERAL CHEMISTRY WITH LAB I (5)
First of a three-course sequence designed for science, engineering, and other majors needing a full year general chemistry sequence. Covers basic principles of modern chemistry, structure of atoms, chemical reactions, stoichiometry, bonding, and molecular geometry. Lab work included. Prerequisite: MATH& 141 with a minimum grade of C-. Recommended preparation CHEM& 121 or one year of High School Chemistry. (MSI)

CHEM& 162  GENERAL CHEMISTRY WITH LAB II (5)
Second of a three-course sequence designed for science, engineering, and other majors needing a full year general chemistry sequence. Covers gases, thermochemistry, states of matter, solution chemistry, kinetics, and chemical equilibrium. Lab work included. Prerequisite: CHEM& 161 with a minimum grade of C-. (MSI)
**CHEM& 163  GENERAL CHEMISTRY WITH LAB III (5)**
Third of a three-course sequence designed for science, engineering, and other majors needing a full-year general chemistry sequence. Covers acids, bases, acid-base equilibria, solubility and complex-ion equilibria, thermodynamics and equilibrium, electrochemistry, and special topics. Lab work included. Prerequisite: CHEM& 162 with a minimum grade of C-. (MS)

**CHEM& 261  ORGANIC CHEMISTRY WITH LAB I (5)**
First course for students planning to take three quarters of organic chemistry. Material covered includes: structures and shapes, nomenclature, reactions, physical properties of organic compounds, and synthesis. Lab work included. Prerequisite: CHEM& 163. (MS)

**CHEM& 262  ORGANIC CHEMISTRY WITH LAB II (5)**
Second course for students planning to take three quarters of organic chemistry. Further discussion of physical properties, identification by spectroscopic techniques, transformations of organic molecules including aromatic and carbonyl compounds. Lab work included. Prerequisite: CHEM& 261. (MS)

**CHEM& 263  ORGANIC CHEMISTRY WITH LAB III (5)**
Third course for students planning to take three quarters of organic chemistry. Further discussion on carbonyl compounds and their reactions, polyfunctional compounds, natural products including carbohydrates, lipids, amino acids, proteins, and nucleic acids. Lab work included. Prerequisite: CHEM& 262. (MS)

**CHEM 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in chemistry. Prerequisite: acceptance into the Honors Program. (MS)

**CHIN  CHINESE**

**CHIN& 121  CHINESE I: MANDARIN (5)**
Introduction to pronunciation, basic structure, and writing system of Mandarin Chinese; emphasis on developing elementary skills in speaking, listening, reading and writing; introduces elements of Chinese culture, and prepares students for Chinese 122. (Lg)

**CHIN& 122  CHINESE II: MANDARIN (5)**
Continuation from CHIN& 121. Continues to develop basic skills in speaking, listening, reading and writing in Mandarin Chinese through communication-oriented activities; provides a broader introduction to Chinese culture, and prepares students for Chinese 123. Prerequisite: CHIN& 121 with a minimum grade of C-. (Lg)

**CHIN& 123  CHINESE III: MANDARIN (5)**
Continuation from CHIN& 122. Completes the basic foundation skills in speaking, listening, reading and writing in Mandarin Chinese through everyday social topics and vocabulary; continues to build a deeper understanding of Chinese culture, and prepares students for second-year Chinese. Prerequisite: CHIN& 122 with a minimum grade of C+. (Hg)

**CIS  COMPUTER INFORMATION SYSTEMS**

**CIS 100  COMPUTER LITERACY (3 OR 5)**
Introduction to the practical application of computers and communication technology. Includes the major components of computer systems, user interfaces, applications, networking, and societal issues surrounding computing, including ethics, privacy, security, and sustainability. (UE)

**CIS 105  COMPUTER OPERATING SYSTEMS I (5)**
Introduces the fundamentals of computer operating systems including history, evolution and design, as well as support, maintenance and troubleshooting. Lab work included. Recommended preparation: CIS 100 or equivalent. (UE)

**CIS 106  OPEN SOURCE OPERATING SYSTEMS (5)**
Fundamental management of open source systems from the command line, user administration, file permissions, software configuration and management of clients. Prerequisite: CIS 105 with a minimum grade of C or permission of program coordinator. (UE)

**CIS 110  INTRODUCTION TO COMPUTER SECURITY (3)**
Basics of Computer Security, including identifying threats, planning for business continuity, and preparing for various security attacks. Prerequisite: CIS 105 with a minimum grade of C or permission of program coordinator. (UE)

**CIS 116  VIRTUALIZATION (3)**
Implementing virtualization techniques and technologies. Prerequisite: CIS 105 with a minimum grade of C or permission of program coordinator. (UE)
CIS 205  COMPUTER OPERATING SYSTEMS II (5)
Advanced study of computer operating systems and platforms. Prerequisite: CIS 105 with a minimum grade of C or permission of program coordinator. (UE)

CIS 206  COMPUTER SUPPORT I (5)
In-depth study of computer components and their interrelationships. Lab period with hands-on experience in installation, upgrading, removal, configuration, and troubleshooting of software and hardware. Prerequisite: CIS 105 with a minimum grade of C or permission of program coordinator. (UE)

CIS 206  SOFTWARE AND SOFTWARE SUPPORT (5)
In-depth study of computer components and their interrelationships. Lab period with hands-on experience in installation, upgrading, removal, configuration, and troubleshooting of software and hardware. Prerequisite: CIS 105 with a minimum grade of C or permission of program coordinator. (UE)

CIS 207  COMPUTER SUPPORT II (5)
In-depth study of computer components and their interrelationships. Lab period with hands-on experience in installation, upgrading, removal, configuration, and troubleshooting of software and hardware on various platforms. Prerequisite: CIS 206 with a minimum grade of C or permission of program coordinator. (UE)

CIS 207  HARDWARE AND HARDWARE SUPPORT (5)
In-depth study of computer components and their interrelationships. Lab period with hands-on experience in installation, upgrading, removal, configuration, and troubleshooting of hardware and software on various platforms. Prerequisite: CIS 206 with a minimum grade of C or permission of program coordinator. (UE)

CIS 214  NETWORK SECURITY I (5)
Network security fundamentals including defining a security policy, attack methods, intrusion detection, firewalls, identifying risks, and securing networks. Prerequisite: CIS 106, CIS 110, CIS 116 and CIS 226 with a minimum grade of C or permission of program coordinator. (UE)

CIS 215  NETWORK SECURITY II (5)
This course is a continuation of Network Security I, with added emphasis on defense in depth. Prerequisite: CIS 214 with a minimum grade of C or permission of program coordinator. (UE)

CIS 216  INDUSTRIAL CONTROL SYSTEMS SECURITY (5)
Securing Industrial Control Systems including identifying risks, configuring devices and protocols, attack methods, and security ICS networks. Prerequisite: CIS 215 with a minimum grade of C or permission of program coordinator. (UE)

CIS 225  COMPUTER FORENSICS (5)
This is an introductory course to computer forensics and investigations. Topics include: forensic tools, computer forensic analysis, investigations, and preparing written reports. Prerequisite: CIS 105 and 206 with a minimum grade of C or permission of program coordinator. (UE)

CIS 226  CISCO NETWORKING I (5)
First in the four quarter networking sequence. This course introduces the fundamentals of networking, including introduction to the OSI and TCP/IP network models, and IP addressing and sub-netting. Other topics include: network design, topologies, protocols, wiring, and network devices. Prerequisite: CIS 105 with minimum grade of C or permission of program coordinator. (UE)

CIS 227  CISCO NETWORKING II (5)
Continuation of four quarter networking sequence. Topics include routing protocols and concepts including static and dynamic routing. Students will gain hands on experience in the lab configuring and troubleshooting multiple routing protocols, including OSPF. Prerequisite: CIS 226 with a minimum grade of C or permission of program coordinator. (UE)

CIS 228  CISCO NETWORKING III (5)
Topics include LAN Switching and wireless communication, configuring, verifying, and troubleshooting VLANs, inter-VLAN routing, VTP, and trunking on Cisco switches. Students will learn to configure wireless networks and common implementation issues. Students will gain hands on experience in the lab. Prerequisite: CIS 227 with a minimum grade of C or permission of program coordinator. (UE)

CIS 229  CISCO NETWORKING IV (5)
Topics include voice and video over IP and WAN technologies including PPP, Frame Relay, and broadband links. WAN security concepts are discussed in detail, including types of threats, how to analyze network vulnerabilities, and general methods for mitigating common security threats. Prerequisite: CIS 228 with a minimum grade of C or permission of program coordinator. (UE)
CIS 301 DATABASE MANAGEMENT SYSTEMS (5)
Students will learn about database management systems (DBMS) and how to utilize them to solve specific problems. Prerequisite: program admittance or permission of BAS program coordinator; CIS 205 with a minimum grade of C or Server+ certification or equivalent. (UE)

CIS 305 CLOUD COMPUTING I (5)
Analyze and apply the various technologies and services that enable cloud computing, interpret different types of cloud computing models, and analyze the security and legal issues associated with cloud computing. Compare each type of service/model of cloud computing, local resource requirements, local controls, networking requirements, and security. Prerequisite: program admittance or permission of BAS program coordinator. (UE)

CIS 306 ENTERPRISE LINUX (5)
Students will be able to install, administer, configure, and upgrade a Linux system in enterprise environments. Students will be able to analyze the tools and explain the concepts needed to build and manage a production Linux infrastructure, including integrating the infrastructure into a Windows environment. Prerequisite: program admittance; CIS 106 with a minimum grade of C. (UE)

CIS 308 MOBILE AND WIRELESS TECHNOLOGIES (5)
Students will learn about the hardware, communications, management, and programming environments associated with mobile technologies. Students will be able to interpret and explain coordination, energy efficiency, self-organization, and security within a wireless sensor network and be able to identify methods for isolating and/or obfuscating RF transmissions. Prerequisite: program admittance or permission of BAS program coordinator; and CIS 229 with a minimum grade of C or; Network+ certification or equivalent. (UE)

CIS 316 EMBEDDED SYSTEMS (5)
Students will learn to evaluate and configure cyber physical systems including embedded system architectures, analyze real time OS issues including concurrency and synchronization, and apply real time resource management. Prerequisite: program admittance of permission of BAS program coordinator and CIS 216 with a minimum grade of C. (UE)

CIS 320 WEB DEVELOPMENT (5)
Develop and maintain a web site, incorporate e-commerce and database components into a web site, and employ appropriate security measures. Create scripts/programs to automate and perform operations. Implement basic security practices in developing scripts/programs (e.g., bounds checking, input validation). Prerequisite: program admittance or permission of BAS program coordinator; CIS 301 and CS 140 with a minimum grade of C. (UE)

CIS 405 CLOUD COMPUTING II (5)
Topics covered include: cloud based storage, virtualization, service oriented architecture (SOA), high availability, scaling, mobile devices, the role of open source cloud software such as Hadoop, OpenStack, and others. Prerequisite: program admittance or permission of BAS program coordinator and; CIS 305 with a minimum grade of C. (UE)

CIS 406 SUPPLY CHAIN (5)
Designing a supply chain including all of the components and the associated security issues. Students will learn about issues related to outsourcing supply chain components, apply mitigation methods, analyze transport and logistics of components, and evaluate third party development practices. Prerequisite: program admittance and; CIS 308 with a minimum grade of C. (UE)

CIS 416 ICS ARCHITECTURE (5)
Students will learn about local area networks in the master station and in the field; reliability, redundancy and safety issues; features of the RTU; PLCs and industrial computers; instrument and equipment interfaces; features of the MTU/HMI; security; data historian/back end systems; and planning and managing SCADA projects. Prerequisite: program admittance or permission of BAS program coordinator and; CIS 216 with a minimum grade of C. (UE)

CIS 499 CAPSTONE (5)
Students will be able to apply a concept taught in the IT networking BAS program, and develop additional expertise and knowledge through an approved industry focused project. Prerequisite: program admittance and; 50 upper division credits in BAS program. (UE)

CJ CRIMINAL JUSTICE

CJ & 101 INTRODUCTION TO CRIMINAL JUSTICE (5)
Overview of the role of the police, problems they deal with, and the criminal justice system as a whole. Covers career opportunities and qualifications needed to be considered for hiring. Also covers roles of personnel
working in corrections, probation, parole, community relations and the court system. Prerequisite: placement in ENGL& 101. (SSw)

CJ 109 COMMUNITY RELATIONS (3)
Formerly ADMJ 109. Examination of the elements essential to building and maintaining a positive and constructive climate for police citizen contact. Topics include crime prevention, media relations and public evaluation of police agencies. (UE)

CJ& 110 CRIMINAL LAW (3)
This course will cover the basic concepts of Title 9 and 9A of the Revised Code of Washington (RCW). The emphasis will be the elements of most all common and major crimes listed within selected RCW titles. Other areas covered will include differences between civil and criminal law, criminal law defenses, warrants and arrests, and the misdemeanor presence rule. (LE)

CJ 115 LAW ENFORCEMENT DEFENSIVE TACTICS (2)
Formerly ADMJ 115. This course will provide students with the ability to successfully understand and demonstrate proper law enforcement use of force options consistent with federal and state law as well as regulations administered by the Washington State Criminal Justice Training Commission. Instruction will include classroom lecture as well as hands-on applications. (UE)

CJ& 240 INTRODUCTION TO FORENSIC SCIENCE (5)
Formerly CJ 206. A multidisciplinary approach covering the basic practices involved in forensic science, including crime scene concerns, physical evidence, proper evidence collection techniques, maintaining chain of custody, current scientific analysis of evidence and the presentation of conclusions in court. Prerequisite: CJ& 101 and placement in ENGL& 101. (LE)

CJ 245 LAWS OF ARREST, SEARCH & SEIZURE (3)
Formerly ADMJ 245. Concepts of how to conduct a lawful arrest, search and seizure of suspects and evidence; practicalities of conducting a search of persons, cars and houses. Class discussions on recent case law affecting search and seizure. Prerequisite: CJ& 101. (UE)

CJ 250 CRIMINAL INVESTIGATION/INTERVIEWING TECHNIQUES (3)
Formerly CJ 240. Handling of interviews and interrogations with complainants, witnesses, and suspects. Also covers qualifications of interviewers, classifications of witnesses, psychological implications, admissions, confessions, statements and the use of scientific aids. Prerequisite: CJ& 101 and placement into ENGL& 101. (UE)

CJ 275 PATROL PROCEDURES (3)
Formerly ADMJ 275. Covers principles and skills of risk management as related to daily patrol situations. Topics include police communications, observation and perception, field interviews, crimes in progress, vehicle stops and control of occupants, handling emergencies. Prerequisite: CJ& 101. (UE)

CMST COMMUNICATION STUDIES

CMST& 101 INTRODUCTION TO COMMUNICATION (5)
Fundamental course in communication theory. Students will apply knowledge in a variety of settings including interpersonal, public speaking, and small group communication. Recommended preparation: placement in ENGL& 101. (OC)

CMST& 102 INTRODUCTION TO MASS MEDIA (5)
This course explores the history, institutions, and social impact of mass communication media. The course is taught from a perspective of theories of persuasion, the symbolic power of images, and the relationship between information and knowledge. Special attention is given to the impact these media on how we live and believe as individuals and as a society. Oral and written communication skills are acquired through class presentations, discussion, observation, and written assignments. Prerequisite: placement in ENGL& 101. (OC)

CMST 145 INTRODUCTION TO ORGANIZATIONAL COMMUNICATION (5)
This course is designed to introduce students to the field of organizational communication. Students will examine a range of perspectives, theories, and issues exploring the ways communication affects and is affected by the organizational context. Topics will include technology, diversity, and ethics in organizations; sexual harassment, negotiating/conflict management. The course involves theory application with a primary focus on the development of effective communication skills (e.g., interviewing, professional presentations, teamwork, responding non-defensively to criticism, leadership). Recommended preparation: placement in ENGL& 101. (OC)
CMST 205  GENDER COMMUNICATION (5)
This course examines the various influences from physiology to culture to media that affect communication between men and women. Students are challenged to learn about their own attitudes, gender-role identity, and communication ability in their relationships. Prerequisite: placement in ENGL& 101 and an oral basic skills or speech humanities course. (SSwd)

CMST& 210  INTERPERSONAL COMMUNICATION (3 OR 5)
Designed to introduce students to basic interpersonal communication theory. Emphasis on topics such as functions of communication, self-concept, perception, conversation skills, relationship development and maintenance, self-disclosure, assertiveness, and conflict management strategies. Prerequisite: placement in ENGL& 101. (OC)

CMST& 220  PUBLIC SPEAKING (3 OR 5)
Introduction to communication theory and public speaking emphasizing organization, audience analysis, oral styles, and use of visual aids. Includes presentation of various types of public speeches and analyses of contemporary speeches. Recommended preparation: placement in ENGL& 101. (OC)

CMST 225  INTERCULTURAL COMMUNICATION (3 OR 5)
The course introduces the student to practices and principles in the field of communication as they apply to face to face interaction with peoples of diverse cultures both within the U.S. and out. The course is designed to provide students with the knowledge and opportunity to apply skills learned in class to their everyday encounters. Topics covered include intercultural barriers, cultural values, worldview, and the interrelation between the environment and social systems that underpin culture. Prerequisite: placement in ENGL& 101 and one of the following CMST& 101, 210, 220, or 230. (SS,Hwgs)

CMST& 230  SMALL GROUP COMMUNICATION (5)
Introduces students to the theory and practice of small group communication. Course covers interpersonal relationships in groups, leadership, decision-making, problem solving, and presentations speaking in a variety of settings. Recommended preparation: placement in ENGL& 101. (OC)

CMST 250  SURVEY OF COMMUNICATION THEORY (5)
This course is a survey of human communication principles and concepts, including interpersonal, intrapersonal, organizational, rhetorical, ethical, intercultural, and mass communication theory. Prerequisite: ENGL& 101 and any CMST course. (H,SSwd)

CMST 295C  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in communication studies. Required preparation: acceptance into the Honors Program. (OC)

CMST 295H  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in communication studies. Required preparation: acceptance into the Honors Program. (H)

CO-OP 180  PREPARING FOR CAREER WORK EXPERIENCE (1-2)
Prepare students to develop and perform in a career-relevant internship or job placement while heightening their job retention skills. Students will assess their goals and values while networking to research and assess their employing community. They will learn to complete a professional application process, including resumes, cover letters, and conducting a quality interview for an internship/job. Finally they will analyze, discuss job retention skills from employer and employee perspectives including teamwork and common communication issues in diverse workplaces. (UE)

CO-OP 190  COOPERATIVE EDUCATION/INTERNSHIP (1-10)
Experience-based learning courses for variable credit across disciplines. Students deepen learning, enrich resumes by applying knowledge and skills in a structured, career-related setting within the employing community. Also developed are appropriate work ethics, attitudes, responsibility, personal qualities, critical thinking, problem solving skills necessary for the workplace. Measurable learning outcomes are written collaboratively by the student, faculty mentor and employer through a
learning contract process. Co-ops above 5 credits may be arranged with permission from a Co-op Coordinator. Recommended preparation: CO-OP 180. (UE)

CO-OP 290  COOPERATIVE EDUCATION/ INTERNSHIP (1-10)
Experience-based learning courses for variable credit across disciplines. Students deepen learning, enrich resumes by applying knowledge and skills in a structured, career-related setting within the employing community. Also developed are appropriate work ethics, attitudes, responsibility, personal qualities, critical thinking, problem solving skills necessary for the workplace. Measurable learning outcomes are written collaboratively by the student, faculty mentor and employer through a learning contract process. Co-ops above 5 credits may be arranged with permission from a Co-op Coordinator. Recommended preparation: CO-OP 180. (UE)

CS 101  COMPUTERS AND SOFTWARE (5)
Covers the organization and operations of a computer and computer networks, information representation, the primary tasks of operating systems, application and system software, and the fundamentals of computer programming. Includes logical reasoning, and managing complexity. Recommended for students who haven’t had previous programming. (LE)

CS 120  HTML FUNDAMENTALS (5)
Teaches the fundamentals of web page design and implementation. Emphasizes text formatting, web page layout, links, lists, tables, frames and forms using HTML, scripting, and database connectivity. Recommended preparation: windows file management and keyboarding skills. (UE)

CS 140  COMPUTER PROGRAMMING FUNDAMENTALS I (5)
Teaches the fundamentals of computer programming. Covers computer architecture, machine instruction processing, basic data types, program control structures, functional decomposition, classes, and fundamental data structures. Recommended for math, science, engineering, and computer science majors. Prerequisite: MATH 99. (MS)

CS 145  COMPUTER PROGRAMMING FUNDAMENTALS II (5)
A continuation of CS 140. Teaches the fundamentals of computer programming. Covers searching and sorting, object oriented design, error handling, file input and output, event based programming, bitwise operators, multithreaded and network programming. Recommended for math, science, engineering, and computer science majors. Prerequisite: CS 140. (MS)

CS 215  C AND C++ PROGRAMMING TOPICS (5)
Covers the standard data types, control structures, classes, exception handling, inheritance, file I/O, event based programming, multithreaded programming, network programming, and client-server programming. Prerequisite: CS 140. (MS)

CS 225  JAVA PROGRAMMING (5)
Covers the standard data types, control structures, classes, exception handling, inheritance, file I/O, event based programming, multithreaded programming, network programming, and client server programming. Prerequisite: CS 140. (MS)

CS 235  OBJECTIVE-C PROGRAMMING (5)
This course provides a fundamental overview of the Objective-C programming language for students who would like to develop mobile applications targeting the Apple iOS platform. Students should have a background in computer programming and software development using an object oriented programming language. Prerequisite: CS 140, 145, or instructor permission. (MS)

CS 240  DATA STRUCTURE AND ALGORITHM FUNDAMENTALS (5)
Teaches software development skills that emphasize the study of abstract data types using object oriented programming techniques, Big O algorithm analysis, fundamental data structures such as lists, stacks, queues, and trees; and searching and sorting. Prerequisite: CS 145. (MS)

CS 264  ANDROID PROGRAMMING (5)
This course provides an introduction to Android mobile application software development. Students should have a background in computer programming and software development using an object oriented programming language. This course is focused on developing applications targeting the Android mobile platform using the Java programming language. Prerequisite: CS 140, 145, or instructor permission. (MS)

CS 265  IPHONE PROGRAMMING (5)
This course provides an introduction to iPhone mobile
application software development. Students should have a background in computer programming and software development using an object-oriented programming language. This course is focused on developing applications targeting the iPhone using the Objective-C programming language. Prerequisite: CS 140, 145 and 235, or instructor permission. (MS)

CS 266 WINDOWS MOBILE PROGRAMMING (5)
This course provides an introduction to Windows mobile application software development. Students should have a background in computer programming and software development using an object-oriented programming language. This course is focused on developing applications targeting the Windows mobile platform using the C# programming language. Prerequisite: CS 140, 145, or instructor permission. (MS)

CS 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Computer Science. Required preparation: acceptance into the Honors Program. (MS)

DANCE
DANCE
DANCE 101 MODERN DANCE I (3)
The study of basic principles of movement: space, time and effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. No experience required. (LE)

DANCE 102 MODERN DANCE II (3)
The continued study of the principles of movement: space,
to use games to teach the basic elements of theatre to children. Designed for students with an interest in personal creativity and children's theatre. (LE)

DRMA 201 ACTING II (5)
Intensive study of theatrical realism utilizing a workshop approach. Students will become familiar with the terminology and processes used in the rehearsal and performance of psychological realism, and perform numerous scenes and monologues drawn from the diversity of realistic dramatic texts. Prerequisite: DRMA 110, 120 or 125 and permission of instructor. (LE)

DRMA 202 ACTING III (5)
Advanced study of classical, realistic, and avant-garde scenes and monologues in a workshop environment. Playwrights studied include classical dramatists such as Shakespeare, Anton Chekhov and Samuel Beckett, and contemporary playwrights such as August Wilson and Suzan-Lori Parks. Prerequisite: DRMA 110, 120, 125 or 150 or instructor permission. (LEd)

DRMA 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in drama. Required preparation: acceptance into the Honors Program. (H)

ECED EARLY CHILDHOOD EDUCATION

ECED& 100 CHILD CARE BASICS (3)
Formerly ECE 104. Designed to meet licensing requirements for early learning lead teachers and family home child care providers, STARS 30 hour basics course recognized in the MERIT system. Topics: child growth/development, cultural competency, community resources, guidance, health/safety/nutrition and professional practice. (UE)

ECED& 105 INTRODUCTION TO EARLY CHILDHOOD EDUCATION (5)
Formerly ECE 105. Explore the foundations of early childhood education. Examine theories defining the field, issues and trends, best practices, and program models. Observe children, professionals, and programs in action. (SS)

ECED& 107 HEALTH/SAFETY/NUTRITION (5)
Formerly ECE 218. Develop knowledge and skills to ensure good health, nutrition, and safety of children in group care and education programs. Recognize the signs of abuse and neglect, and responsibilities for mandated reporting. Recommended preparation: prior or concurrent enrollment in ECED& 105. (UE)

ECED& 120 PRACTICUM-NURTURING RELATIONSHIPS (2)
Apply best practice for engaging in nurturing relationships with children in an early learning setting. Focus on keeping children healthy and safe while promoting growth and development. (UE)

ECED& 132 INFANTS/TODDLERS CARE (3)
Formerly ECE 120. Examine the unique developmental needs of infants and toddlers. Study the role of the caregiver, relationships with families, developmentally appropriate practices, nurturing environments for infants and toddlers, and culturally relevant care. Recommended preparation: EDUC& 115. (UE)

ECED& 134 FAMILY CHILD CARE (3)
Learn the basics of home/family child care program management. Topics include: licensing requirements; business management; relationship building; health, safety, & nutrition; guiding behavior and; promoting growth & development. Recommended preparation: ECED& 105. (UE)

ECED& 139 ADMINISTRATION OF EARLY LEARNING PROGRAMS (3)
Formerly ECE 255. Develop administrative skills required to develop, open, operate, manage, and assess early childhood education and care programs. Explore techniques and resources available for Washington State licensing and NAEYC standard compliance. Recommended preparation: ECED& 105. (UE)

ECED& 160 CURRICULUM DEVELOPMENT (5)
Formerly ECE 210. Investigate learning theory, program planning, and tools for curriculum development promoting language, fine/gross motor, social-emotional, cognitive and creative skills and growth in young children (birth-age 8). Prerequisite: ECED& 105 and EDUC& 115 or concurrent enrollment. (UE)

ECED& 170 ENVIRONMENTS-YOUNG CHILDREN (3)
Formerly ECE 222. Design, evaluate, and improve indoor and outdoor environments that ensure high quality and comprehensive learning experiences, and optimize the development of young children. (UE)
ECED& 180  LANGUAGE/LITERACY DEVELOPMENT (3)
Formerly EDUC 220. Develop teaching strategies for language acquisition and literacy skill development at each developmental stage (birth-age 8) through the four interrelated areas of speaking, listening, writing, and reading. (UE)

ECED& 190  OBSERVATION/ASSESSMENT (3)
Formerly ECE 141. Collect and record observation of and assessment data in order to plan for and support the child in early childhood settings. Practice reflection techniques, summarizing conclusions, and communicating findings. (UE)

ECED 220  MUSIC AND MOVEMENT (3)
Integrating music and movement into early childhood environments. A repertoire of music and movement activities will be developed that focus on social development, physical health, enhancing creativity, and supporting all areas of a child’s development. (UE)

ECED 236  MATH AND SCIENCE (3)
Teaches techniques for teaching the foundations of mathematical and scientific thought and encouraging the development of math and science concepts and skills in young children. Environmental awareness and sustainability practices introduced. (UE)

ECON 100  SURVEY OF ECONOMIC PRINCIPLES (5)
Introductory course for those not planning a major in Business, Accounting or Economics. Fundamental concepts of economic analysis with application to contemporary problems, including consumer demand and supply decisions in market economies, national income, unemployment, inflation, money and banking. (SS)

ECON 110  PRINCIPLES OF ENVIRONMENTAL ECONOMICS (5)
Designed for non-business majors who would like to know the cost of environmental issues in an economic context. Provides the student with a strong background on the theory of environmental economics and recent policy issues. Covers current methods of making implied costs including global warming, ozone depletion, and pollution of air and water. Covers concepts rather than mathematical proofs and justification. Includes research strategies. (SSg)

ECON& 201  MICRO ECONOMICS (5)
Introduction to microeconomics. Presents supply and demand models, consumers and producers choice in the competitive and non-competitive market. Examines the various economic decisions made by firms relating to price, demand, factors of production, and costs. Prerequisite: MATH 99. (SS)

ECON& 202  MACRO ECONOMICS (5)
Introduction to macroeconomics; elementary analysis of the determination of income through national income accounting. Covers macroeconomic issues including inflation, unemployment, economic growth, recessions, monetary/fiscal policy, and international trade and finance. Prerequisite: ECON& 201. (SSg)

ECON 203  ECONOMIC PROBLEMS IN HISTORICAL PERSPECTIVE (5)
Examination of major contemporary economic problems from the standpoint of the interacting technological, institutional, and economic processes which produced them. Course focuses on the historically relevant origins of a number of contemporary issues such as growth, stagnation, depression, inflation, breakdown of international monetary systems, and deregulation of industries. (SS)

ECON 205  ALTERNATIVE ECONOMIC SYSTEMS (5)
Introduction to the operation of three fundamentally different economic systems: the free enterprise system as practiced in the U.S.; the free enterprise system as practiced in Western European democracies; and command economic systems as practiced in China. Mercantilism and laissez faire also discussed. Prerequisite: placement in ENGL& 101. (SSwg)

ECON 210  ECONOMIC ETHICS (5)
This course is an integrated study of the role of law, ethics, morality, and social responsibility in an entrepreneurial environment. Using case analysis to study and solve: ethical dilemmas in the Market Place, the ethics of the Economic Actor, and ethics/social responsibility of organizations. Prerequisite: placement in ENGL& 101. (SSw)

ECON 225  MONEY AND BANKING (5)
Course is designed to provide students with an introduction to the core principles of money and banking. Topics include, but are not limited to, the following: supply and demand, interest rates, financial instruments, financial markets, financial institutions, central banks, risk,
derivatives, futures, options, and swaps, banks and bank management, monetary policy, fiscal policy, financial stability, and financial system regulation. (UE)

**ECON 260  INTRODUCTION TO INTERNATIONAL TRADE (5)**
This course deals with impacts of globalization, an overview of key issues facing international trade. It covers conceptual foundations for international trade. It addresses environmental, cultural, political, and legal concerns on a global scale. It integrates with managerial concerns of strategy, tactics, and operations in doing business in international markets. (SSgs)

**ECON 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Economics. Required preparation: acceptance into the Honors Program. (SS)

**EDPL  EDUCATION PLANNING**

**EDPL 100  COLLEGE SUCCESS: AN ORIENTATION FOR NEW STUDENTS (2)**
Designed for students new to the college environment. Introduction to college services; study skills and time management; educational planning and career exploration; and skills necessary to become a successful student. Lectures, small group discussion, and experiential exercises. (UE)

**EDUC  EDUCATION**

**EDUC&115  CHILD DEVELOPMENT (5)**
Basic concepts and theory of development from birth through early adolescence. Techniques for observing, assessing, and recording growth and development. (LEd)

**EDUC&130  GUIDING BEHAVIOR (3)**
Formerly EDUC 131. Examine principles and theories promoting social competence in young people through adolescence. Includes the creation of safe learning environments. Develop skills promoting effective interactions, providing positive individual guidance, and enhancing group experiences. (UE)

**EDUC&136  SCHOOL AGE CARE (3)**
Develop skills to provide developmentally appropriate and culturally relevant activities and care, specifically: preparing the environment, implementing curriculum, building relationships, guiding academic/social skill development, and community outreach. Recommended preparation: prior or concurrent enrollment in ECED& 105. (UE)

**EDUC&150  CHILD/FAMILY/COMMUNITY (3)**
Formerly EDUC 225. Integrate the family and community contexts in which a child develops. Explore cultures and demographics of families in society, community resources, strategies for involving families in the education of their child, and tools for effective communication. (UE)

**EDUC 190  COOPERATIVE EDUCATION/INTERNSHIP (1-5)**
Students deepen learning, enrich resumes by applying knowledge and skills in a structured, career-related setting within the employing community. Also developed are appropriate work ethics, attitudes, responsibility, personal qualities, critical thinking, problem solving skills necessary for the workplace. Measurable learning outcomes are written collaboratively with student, faculty mentor and employer. Recommended preparation: CO-OP 180. (LE)

**EDUC&202  INTRODUCTION TO EDUCATION (5)**
Survey course in history, philosophy and principles, issues, and trends in American Education. Includes opportunities for observations of educational models and exploration of career paths. (SS)

**EDUC&204  EXCEPTIONAL CHILD (5)**
Introductory course in recognition and identification of exceptionality in children from birth through high school. Includes state and federal regulations and provisions for special education and related services, as well as adaptations for serving special needs students in general education classrooms. (LE)

**EDUC 250  PROFESSIONALISM IN THE WORKPLACE (2)**
Students will develop problem-solving skills and learn to resolve dilemmas using the NAEYC Code of Ethical Conduct. Professional portfolios will be developed. (UE)

**EDUC 280  INSTRUCTIONAL TECHNOLOGY (3)**
Formerly CIS 280. An introduction to educational technology use by teachers and youth in educational environments. Topics include: productivity applications, graphics, web-based media and educational software. This course emphasizes the appropriate use of technology based on ISTE and NAEYC guidelines. (UE)

ELL 045   ELL WRITING LEVEL 4A (1-10)
This course is designed for low intermediate English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Four ELL students. Program permission required. (N)

ELL 046   ELL WRITING LEVEL 4B (1-10)
This course is designed for low intermediate English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Four ELL students. Program permission required. (N)

ELL 047   ELL WRITING LEVEL 4C (1-10)
This course is designed for low intermediate English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Four ELL students. Program permission required. (N)

ELL 051   INTEGRATED ELL LEVEL 5A (1-10)
This course is designed for high intermediate English Language Learners. Integrates the instruction of listening, speaking, reading, writing and technology skills. Part of a non-sequential series for Level Five ELL students. Program permission required. (N)

ELL 052   INTEGRATED ELL LEVEL 5B (1-10)
This course is designed for high intermediate English Language Learners. Integrates the instruction of listening, speaking, reading, writing with embedded technology skills. Part of a non-sequential series for Level Five ELL students. Program permission required. (N)

ELL 053   INTEGRATED ELL LEVEL 5C (1-10)
This course is designed for high intermediate English Language Learners. Integrates the instruction of listening, speaking, reading, writing with embedded technology skills. Part of a non-sequential series for Level Five ELL students. Program permission required. (N)

ELL 055   ELL WRITING LEVEL 5A (1-10)
This course is designed for high intermediate English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Five ELL students. Program permission required. (N)

ELL 056   ELL WRITING LEVEL 5B (1-10)
This course is designed for high intermediate English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Five ELL students. Program permission required. (N)

ELL 057   ELL WRITING LEVEL 5C (1-10)
This course is designed for high intermediate English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Five ELL students. Program permission required. (N)

ELL 061   INTEGRATED ELL LEVEL 6A (1-10)
This course is designed for advanced English Language Learners. Integrates the instruction of listening, speaking, reading, writing and technology skills. Part of a non-sequential series for Level Six ELL students. Program permission required. (N)

ELL 062   INTEGRATED ELL LEVEL 6B (1-10)
This course is designed for advanced English Language Learners. Integrates the instruction of listening, speaking, reading, writing with embedded technology skills. Part of a non-sequential series for Level Six ELL students. Program permission required. (N)

ELL 063   INTEGRATED ELL LEVEL 6C (1-10)
This course is designed for advanced English Language Learners. Integrates the instruction of listening, speaking, reading, writing with embedded technology skills. Part of a non-sequential series for Level Six ELL students. Program permission required. (N)

ELL 065   ELL WRITING LEVEL 6A (1-10)
This course is designed for advanced English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Six ELL students. Program permission required. (N)

ELL 066   ELL WRITING LEVEL 6B (1-10)
This course is designed for advanced English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Six ELL students. Program permission required. (N)

ELL 067   ELL WRITING LEVEL 6C (1-10)
This course is designed for advanced English Language Learners. Focus is on grammar and writing. Part of a non-sequential series for Writing Level Six ELL students. Program permission required. (N)
ENGL 081  COLLEGE SKILLS DEVELOPMENT FOR THE PROFESSIONS I (3)
This course is designed to link with I-BEST courses. Students will develop their college level reading, writing, and study skills to support learning in linked I-BEST courses. (N)

ENGL 082  COLLEGE SKILLS DEVELOPMENT FOR PROFESSIONS II (3)
This course is designed to link with I-BEST courses. Students will further develop their college level reading, writing, and study skills to support learning in linked I-BEST courses. (N)

ENGL 083  COLLEGE SKILLS DEVELOPMENT FOR PROFESSIONS III (3)
This course is designed to link with I-BEST courses. Students will develop their college level reading, writing, and study skills to support learning in linked I-BEST courses and to facilitate transition into ENGL& 101. (N)

ENGL 084  COLLEGE SKILLS DEVELOPMENT FOR PROFESSIONS IV (2)
This course is designed to be taught with ENGL& 101. Students will develop their college-level reading, writing, and study skills to support successful completion of ENGL& 101. (N)

ENGL 086  SPELLING (1-5)
Development of spelling skills, strategies, and ability through examining word elements (prefixes, roots, and suffixes), rules, spelling patterns and processes, and dictionary work. Repeatable to a maximum of 5 credits. S/U grading. (N)

ENGL 087  VOCABULARY BUILDING (2-3)
Designed to develop and strengthen vocabulary through examining word elements (prefixes, roots, and suffixes) and context clues. S/U grading. (N)

ENGL 090  SPELLING AND VOCABULARY (3-5)
Designed to develop and strengthen spelling ability and vocabulary by examining word elements (prefixes, roots, and suffixes), spelling patterns and processes, using the dictionary, and context clues. S/U grading. (N)

ENGL 092  CRITICAL ANALYSIS (5)
Designed to encourage and strengthen reading comprehension and analysis strategies for college textbooks, news articles, essays and literature, to focus on expanding vocabulary, to practice writing skills, and to increase reading rate. S/U grading. Prerequisite: reading placement test. (N)

ENGL 094  FUNDAMENTALS OF WRITTEN COMMUNICATION (5)
Focuses on the interconnected aspects of reading, composition, and how to organize information in writing. Examines summary writing, response writing, focusing on developing a main point, and various sentence structures as a way of clarifying information. S/U grading. Prerequisite: placement test and writing sample. (N)

ENGL 095  BASIC COMPOSITION AND FORM (5)
A basic writing course with readings. Reviews summary, paragraph, and essay writing, various rhetorical structures, as well as basic grammar, punctuation, and sentence structures. S/U grading. Prerequisite: ENGL 094 or placement test and/or writing sample. (N)

ENGL 098  CONSTRUCTING PARAGRAPHS AND ESSAYS (3-5)
Refinement of essay and paragraph writing skills. Focuses on the structure, development, and strengthening of paragraphs and essays and examines various rhetorical structures. S/U grading. Prerequisite: instructor permission. (N)

ENGL& 101  ENGLISH COMPOSITION I (5)
This course helps students become more effective writers in academic and professional settings. Students learn to enter ongoing academic conversations, analyze and use secondary sources to formulate, develop, revise, and communicate ideas in writing, and shape their message to different purposes, audiences, and media. Prerequisite: ENGL 095 or placement into ENGL& 101. (CC)

ENGL& 111  INTRODUCTION TO LITERATURE (5)
This course introduces students to fiction, nonfiction, poetry, and plays, with an emphasis on critical understanding of the form, content and cultural contexts of literature. (Hwg)

ENGL& 113  INTRODUCTION TO POETRY (3 OR 5)
This course introduces students to the elements of poetry through close reading and analysis. (Hwdg)

ENGL 124  ENVIRONMENTAL LITERATURE (5)
This course introduces students to literature as a vehicle for international environmental awareness emphasizing
the relationship between a writer, the environment, and sense of place. (Hwdgs)

ENGL 136  SCIENCE FICTION AND FANTASY (3 OR 5)
This course introduces students to the genres of science-fiction and fantasy, focusing upon major themes and how speculative fiction addresses contemporary human concerns. (Hw)

ENGL 141  INTRODUCTION TO FICTION:
THE SHORT STORY (3 OR 5)
This course introduces students to an international selection of short fiction through close reading and analysis of the elements of the genre. (Hwg)

ENGL 142  INTRODUCTION TO FICTION:
THE NOVEL (3 OR 5)
This course introduces students to an international selection of short fiction through close reading and analysis of the elements of the genre. (Hwg)

ENGL 150  INTRODUCTION TO BRITISH LITERATURE (5)
This course introduces students to English, Scottish, Irish and/or Welsh fiction, nonfiction, poetry, and plays, with an emphasis on critical understanding of the form, content and cultural contexts. (Hwg)

ENGL 161  INTRODUCTION TO AMERICAN LITERATURE (5)
This course introduces students to diverse works of American fiction, nonfiction, poetry, and plays, with an emphasis on critical understanding of the form, the content, and the cultural and historical contexts. (Hwd)

ENGL 169  MODERN AMERICAN POETRY (5)
This course is an introduction to American poetry from the Modernists (early 20th century) to the present day with an emphasis on major movements and themes. (Hwd)

ENGL 170A  COLLEGE STUDY SKILLS FOR IBEST 1 (2)
A course designed to enhance effectiveness in time management, organization, textbook reading and academic research. Required preparation: participation in Developmental Education IBEST. (UE)

ENGL 170B  COLLEGE STUDY SKILLS FOR IBEST 2 (3)
A course designed to enhance knowledge and effectiveness in learning theories, test taking, memory, note making, vocabulary and reading rates. Prerequisite: completion of ENGL 170A with a minimum grade of C. (UE)

ENGL 174  ACADEMIC SKILLS:
GAINING KNOWLEDGE AND POWER (5)
This is a study skills class. Students will practice skills necessary for academic success, including writing, note-taking, test-taking, active learning, and time and stress management. We will develop learning strategies while we examine identity and the ways in which society intersects with race, class and gender. We will critically examine larger cultural ideologies reinforced by the media. We will also look at personal identity as participants in higher education. (UEwd)

ENGL 194  SPECIAL TOPICS IN LITERATURE (3 OR 5)
This course introduces students to a variety of literary works with an emphasis on a special topic. (Hw)

ENGL 201  ADVANCED COMPOSITION (5)
This course helps students become more effective communicators through the production of various forms and mediums of writing. Students develop effective rhetorical strategies through analysis of texts and contexts, as well as engaging in independent research as part of meaningful and ethical scholarship. Prerequisite: ENGL& 101 with a minimum grade of C-. (CC)

ENGL 202  WRITING ABOUT LITERATURE (5)
This course helps students develop skills in reading and writing about literature. Students analyze literature based on elements of genres, including fiction, poetry, and/or drama, and develop essays using strategies of literary analysis. Prerequisite: ENGL& 101 with a minimum grade of C-. (CC)

ENGL 225  CHILDREN’S LITERATURE (5)
This course introduces students to the field of children’s literature, spanning classic to contemporary works. The emphasis is on exploring various genres, styles, trends, and cultural traditions—through works for the very young to young adults. Prerequisite: ENGL& 101. (Hwd)

ENGL 226  CHILDREN’S LITERATURE II (5)
This course introduces students to further reading and analysis in the field of children’s literature, spanning classic to contemporary works. The emphasis is on exploring various genres, styles, trends, and cultural traditions—through works for the very young to young adults. Prerequisite: ENGL 225. (Hwd)

ENGL& 230  TECHNICAL WRITING (3)
This course helps students develop effective methods of research, organization and presentation of findings
typical of professional, technical, and scientific writing. Students develop problem-solving and researching skills, including data collection, the critical analysis of sources, documentation, and document design. Prerequisite: ENGL& 101 with a minimum grade of C-. (CC)

**ENGL& 235 TECHNICAL WRITING (5)**
This course helps students develop effective methods of research, organization and presentation of findings typical of professional, technical, and scientific writing. Students develop problem-solving and researching skills, including data collection, the critical analysis of sources, documentation, and document design. Prerequisite: ENGL& 101 with a minimum grade of C-. (CC)

**ENGL& 236 CREATIVE WRITING I (5)**
This course introduces students to the craft of writing fiction and poetry. Students study the characteristics of fiction and poetry and analyze works by published authors. Students read and think critically about their own and others' imaginative writing and improve their own writing through careful revision. Prerequisite: placement in ENGL& 101. (Hw)

**ENGL& 237 CREATIVE WRITING II (5)**
This course helps students develop their craft of writing fiction and poetry. Students study advanced techniques of fiction and poetry by analyzing the works of published authors. Students read and think critically about their own and others' imaginative writing and improve their own writing through careful revision and self-assessment. Prerequisite: ENGL& 236. (Hw)

**ENGL 238 GENDER AND LITERATURE (5)**
This course introduces students to the field of gender studies as it applies to literature. The emphasis is on critical analysis of literary elements, and the understanding and appreciation the role gender plays in the history, theory, and art of literary production. Prerequisite: ENGL& 101. (Hwd)

**ENGL 258 STUDIES IN MAJOR BRITISH AUTHORS (3 OR 5)**
This course introduces students to the works of a selected author from England, Scotland, Ireland, or Wales. The emphasis is on critical analysis of the literary contributions as well as the historical and cultural contexts of the author. Prerequisite: ENGL& 101. (Hwg)

**ENGL 267 NATIVE AMERICAN LITERATURE (5)**
This course focuses on selected works of Native American literature from a range of cultures and historical periods. The readings may include poetry, fiction, essays, and drama as well as indigenous literary forms. The emphasis is on historical contexts, cultural traditions, and analysis of literary elements. Prerequisite: ENGL& 101. (Hwd)

**ENGL 268 STUDIES IN MAJOR AMERICAN AUTHORS (3 OR 5)**
This course introduces students to the works of a selected American author. The emphasis is on critical analysis of the literary contributions as well as the historical and cultural contexts of the author. Prerequisite: ENGL& 101. (Hw)

**ENGL 282 INTRODUCTION TO WORLD LITERATURE (5)**
This course introduces students to works of ancient to contemporary literature from non-English speaking cultures, including oral and written genres, from Europe, Russia, the Middle East, Africa, Asia, Latin America and the Pacific. The emphasis is on critical analysis of literary elements, diverse histories, worldviews and traditions. Prerequisite: ENGL& 101. (Hwg)

**ENGL 286 MYTHOLOGY (5)**
This course will explore mythology from two or more cultures, including, but not limited to those from Europe, Asia, the Americas, Africa, Australia, and the South Pacific. The emphasis is on the historical context, cultural functions, worldviews, and literary elements of the mythology. Prerequisite: ENGL& 101. (Hwg)

**ENGL 295C HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Cross-curricular readings and small group discussions/presentations provide the basis for writing which builds on the student's rhetorical knowledge developed in ENGL& 101 and any 200-level composition courses. Prerequisite: acceptance into the Honors Program and eligibility for course it is paired with. (CC)

**ENGL 295H HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Cross-curricular readings and small group discussions/presentations provide the basis for writing assignments which further develop the student's command of the rhetorical modes taught in English literature. Prerequisite: acceptance into the Honors Program and eligibility for course it is paired with. (H)
ENGR ENGINEERING

ENGR 100 DISCOVERING ENGINEERING (2)
This course explores engineering through class discussion, hands-on activities, and presentations by speakers from industry and universities. Topics include engineering disciplines, career options, academic success strategies, planning your program of study, and a discussion of transfer institutions offering engineering. Prerequisite: placement in ENGL& 101. (LE)

ENGR 120 INTRODUCTION TO SCIENTIFIC COMPUTING (2)
The course introduces MATLAB as a programming tool for mathematical analysis, visualization, simulation, and modeling, specifically pertaining to solving engineering design and analysis problems. Prerequisite: MATH& 142 with a minimum grade of C. (UE)

ENGR&214 STATICS (5)
The course will serve as a study of structures in equilibrium and equilibrium analysis using both vector and scalar analysis, analysis of internal and external forces, moments, friction, centroids, and inertia. Graphing calculator required. Prerequisite: MATH& 152 and PHYS& 221 with a minimum grade of C. (MS)

ENGR&215 DYNAMICS (5)
A study of the dynamics of particles and rigid bodies using scalar and vector methods, rectangular coordinates, normal and tangent coordinates, polar coordinates, curvilinear motion, work, energy, impulse, momentum, steady mass flow, rotation, absolute and relative motion. Graphing calculator required. Prerequisite: PHYS& 221, ENGR& 214, MATH& 163 with a minimum grade of C. (MS)

ENGR&225 MECHANICS OF MATERIALS (5)
Mechanics of Materials explores the elasticity and deformation of structures. Topics include the extension, compression, and rotation of bodies subject to axial, shear, and torsion loadings. Extensive analysis of the elastic deflection of beams is performed using differential equations and boundary conditions. Principles of virtual work are also introduced. Prerequisite: ENGR& 214 with a minimum grade of C. (MS)

ENGR 240 APPLIED NUMERIC METHODS (5)
Numerical solutions to problems in engineering and science using modern scientific computing tools. Application of mathematical judgment in selecting computational algorithms and communicating results. Introduction to MATLAB programming for numerical computation. Prerequisite: MATH& 163 with a minimum grade of C. Recommended preparation: MATH 204 and MATH 207 or concurrent enrollment. (MS)

ENVS ENVIRONMENTAL SCIENCE

ENVS&100 SURVEY OF ENVIRONMENTAL SCIENCE (5)
Introductory non-laboratory course in biology emphasizing the environment and its living organisms. Includes discussion of early evolution, energy, ecosystems, and populations, and the balance between man and his environment. Prerequisite: placement in ENGL& 101. (MSws)

ENVS 190 COOPERATIVE EDUCATION/INTERNSHIP (3 OR 5)
Designed for working students or those students who wish to enrich their education with a short-term career related work experience. Credit is awarded for completion of a co-op learning contract in which educational goals are set within the work environment. Recommended preparation: CO-OP 180. (UEs)

ENVS 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in environmental science. Required preparation: acceptance into the Honors Program. (MS)

ESLA ENGLISH AS A SECOND LANGUAGE-ACADEMIC

ESLA 010A ENGLISH ORAL COMMUNICATION I A (2)
Development of listening comprehension and oral production of functional tasks in the classroom and in the community. Emphasis on listening skills. Designed for beginning level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 010B ENGLISH ORAL COMMUNICATION I B (2)
Development of listening comprehension and oral production of functional tasks in the classroom and in the community. Emphasis on listening skills. Designed for high-beginning level ESL students. S/U grading. Required preparation: admission to the ESLA program. (N)

ESLA 011A ENGLISH GRAMMAR IA (2)
Oral and written review of basic English grammar for
beginning level ESL students. Focus on simple verb tenses (present and past, and yes/no question forms). S/U grading. Required preparation: admission into ESL Program. (N)

ESLA 011B  ENGLISH GRAMMAR IB (2)
Oral and written review of basic English grammar for high-beginning level ESL students. Focus on singular and plural noun forms, demonstratives, and count/mass nouns. S/U grading. Required preparation: admission into ESL Program. (N)

ESLA 012A  ENGLISH READING & VOCABULARY IA (2)
Development of vocabulary and reading skills, including identification of sight words and application of sound-symbol relationships, comprehension of simple sentences, and acquisition of basic English vocabulary. Designed for beginning level ESL students. S/U grading. Required preparation: admission to ESLA Program. (N)

ESLA 012B  ENGLISH READING & VOCABULARY IB (2)
Development of vocabulary and reading skills, including comprehension of phrases and sentences, identification of main idea in a paragraph, and acquisition of 600-word English vocabulary. Designed for high-beginning level ESL students. S/U grading. Required preparation: admission to ESLA Program. (N)

ESLA 013A  ENGLISH COMPOSITION IA (2)

ESLA 013B  ENGLISH COMPOSITION IB (2)

ESLA 020A  ENGLISH ORAL COMMUNICATION IIA (2)
Development of listening comprehension and oral production of functional tasks in the classroom and in the community. Emphasis on listening skills and appropriate response to questions. Designed for low-intermediate ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 021A  ENGLISH GRAMMAR IIA (2)
Oral and written review of basic English grammar for low-intermediate level ESL students. Focus on present and past simple and progressive verb tenses, future tense, and wh-question forms. S/U grading. Required preparation: admission into the ESLA Program. (N)

ESLA 021B  ENGLISH GRAMMAR IIB (2)

ESLA 022A  ENGLISH READING & VOCABULARY IIA (2)
Development of vocabulary and reading skills, including identification of main ideas, pre-reading techniques, and the use of discourse markers for meaning. Designed for low-intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 022B  ENGLISH READING & VOCABULARY IIB (2)
Development of vocabulary and reading skills, including identification of main ideas, discourse markers, and discrete morphological differences. Designed for low-intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 023A  ENGLISH COMPOSITION IIA (2)

ESLA 023B  ENGLISH COMPOSITION IIB (2)
An introduction to English paragraph structure, including the topic sentence and support. Analysis of sentence structure, focusing on compound sentences, and fused sentence problems. Designed for low-intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)
ESLA 030A ENGLISH ORAL COMMUNICATION IIIA (2)
Development of listening comprehension and oral production of functional tasks in the classroom and in the community. Emphasis on understanding main ideas and important details of messages and basic strategies for initiating conversations and discussions. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 030B ENGLISH ORAL COMMUNICATION IIIB (2)
Development of listening comprehension and oral production of functional tasks in the classroom and in the community. Emphasis on comprehension of main ideas and important details, the use of questions for clarification and extension, and strategies for concluding conversations. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 031A ENGLISH GRAMMAR IIIA (2)
Oral and written review of basic English grammar for intermediate level ESL students. Focus on present perfect, present perfect progressive, adjectives, adverbs, and comparatives. S/U grading. Required preparation: admission into the ESLA Program. (N)

ESLA 031B ENGLISH GRAMMAR IIIB (2)
Oral and written review of basic English grammar for intermediate level ESL students. Focus on gerunds, infinitives, and modals. S/U grading. Required preparation: admission into the ESLA Program. (N)

ESLA 032A ENGLISH READING & VOCABULARY III A (2)
Development of vocabulary and reading skills, including usage of context clues for meaning, and recognition of generalizations. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 032B ENGLISH READING & VOCABULARY III B (2)
Development of vocabulary and reading skills, including differentiation of main ideas from details, sequencing, prediction, and scanning. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 033A ENGLISH COMPOSITION IIIA (2)
English paragraph structure: the topic sentence, support, and the conclusion. Focus on unity and development of details for support in the production of expository paragraph. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 033B ENGLISH COMPOSITION IIIB (2)
English paragraph structure: the process paragraph. Focus on coherence and sentence varies including the use of complex sentences. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 040A ENGLISH ORAL COMMUNICATION IVA (2)
Development of listening comprehension and oral production related to everyday conversation and participation in group discussions on academic topics. Designed for intermediate-level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 040B ENGLISH ORAL COMMUNICATION IVB (2)
Development of listening comprehension and oral production related to everyday conversation and participation in group discussions on academic topics. Designed for intermediate-level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 041A ENGLISH GRAMMAR IVA (2)
Oral and written review of basic English grammar for intermediate level ESL students. Focus on tag questions, past perfect tenses, future progressive and future perfect. S/U grading. Required preparation: admission into the ESLA Program. (N)

ESLA 041B ENGLISH GRAMMAR IVB (2)
Oral and written review of basic English grammar for intermediate level ESL students. Focus on causatives, gerunds and infinitives, and adjective clauses. S/U grading. Required preparation: admission into the ESLA Program. (N)

ESLA 042A ENGLISH READING & VOCABULARY IV A (2)
Development of vocabulary and reading skills, including distinguishing fact from fiction, identifying implicit information, and paraphrasing text. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)
ESLA 042B  ENGLISH READING & VOCABULARY IV B (2)
Development of vocabulary and reading skills, including the development of inferencing skills, the identification of referents, and paraphrasing text. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 043A  ENGLISH COMPOSITION IV A (2)
English paragraph organization: focus on the development of comparison and contrast paragraphs. Development of sentence variety, including compound/complex sentences. Designed for intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 043B  ENGLISH COMPOSITION IV B (2)

ESLA 050A  ENGLISH ORAL COMMUNICATION V A (2)
Development of listening comprehension and oral production related to everyday conversation. Emphasis on comprehension of academic topics at natural speed and both leading and participating in group discussions on academic topics. Designed for high-intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 050B  ENGLISH ORAL COMMUNICATION V B (2)
Development of listening comprehension and oral production related to everyday conversation. Emphasis on comprehension of main ideas and important details in academic lectures, lecture note-taking, and delivering oral presentations. Designed for high-intermediate level ESL students. S/P/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 051A  ENGLISH GRAMMAR V A (2)
Oral and written review of basic English grammar for high intermediate level ESL students. Focus on past modal forms, passive voice and conditionals. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 051B  ENGLISH GRAMMAR V B (2)
Oral and written review of basic English grammar for high intermediate level ESL students. Focus on direct and indirect speech and imbedded clauses. S/U grading. Required preparation: admission into the ESLA Program. (N)

ESLA 052A  ENGLISH READING & VOCABULARY V A (2)
Development of vocabulary and reading skills, including usage of rhetorical modes to predict organization, development of inferencing skills, and summarizing text. Designed for high-intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 052B  ENGLISH READING & VOCABULARY V B (2)
Development of vocabulary and reading skills, including identification of tone and point of view, note-taking skills, and the SQ4R method. Designed for high-intermediate level ESL students. S/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 053A  ENGLISH COMPOSITION V A (2)
Focus on the development of cause and effect paragraphs and sentence variety. Editing skills for various grammar errors developed. Designed for high intermediate level ESL students. S/P/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 053B  ENGLISH COMPOSITION V B (2)
Focus on the development of argumentation paragraphs, paraphrasing and summarizing. Editing skills for various grammar errors developed. Designed for high intermediate level ESL students. S/P/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 054A  BEGINNING ENGLISH GRAMMAR A (4)
This course helps students increase understanding of passive voice and past modals and incorporate them into their paragraph writing. S/P/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 054A  ENGLISH COMPOSITION AND GRAMMAR 5A (4)
This course helps students increase understanding of passive voice and past modals and incorporate them into their paragraph writing. S/P/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 054B  BEGINNING ENGLISH GRAMMAR B (4)
This course helps students develop summarizing and paragraph-writing skills and increase grammatical accuracy, complexity, and fluency. S/P/U grading. Required preparation: admission to the ESLA Program. (N)
ESLA 054B  ENGLISH COMPOSITION AND GRAMMAR 5B (4)
This course helps students develop summarizing and paragraph-writing skills and increase grammatical accuracy, complexity, and fluency. S/P/U grading. Required preparation: admission to the ESLA Program. (N)

ESLA 084A  AMERICAN CULTURE THROUGH FILM I (1)
This course will improve listening comprehension and discussion skills and enhance understanding of American culture through the study of a film. Designed for intermediate-level ESL students. Prerequisite: permission of instructor. (N)

ESLA 084B  AMERICAN CULTURE THROUGH FILM II (1)
This course will improve listening comprehension and discussion skills and enhance understanding of American culture through the study of a film. Designed for intermediate to high-intermediate level ESL students. Prerequisite: permission of instructor. (N)

ESLA 085  ENGLISH IN THE COMMUNITY (2)
This course will give ESL students the opportunity to communicate orally with native English speakers in a community service situation. Students will broaden their understanding of Americans and American society while using English in a real communicative setting. S/U grading. Prerequisite: placement in ESLA 050 or permission of instructor. (N)

ESLA 085A  ENGLISH IN THE COMMUNITY I (1)
This course will give ESL students the opportunity to communicate orally with native English speakers in a community service situation. Students will broaden their understanding of social justice, social issues, and the impact of volunteerism while using English in a real communicative setting. (N)

ESLA 085B  ENGLISH IN THE COMMUNITY II (1)
This course will give ESL students the opportunity to examine their beliefs about civic responsibility. Students will communicate orally in real communicative settings with native English speakers in a community service situation. (N)

ESLA 086A  DIGITAL STORYTELLING I (1)
This course helps students develop written and oral competency as well as computer skills by producing a multimedia work using a written script, oral narration, visual images, and musical background. Recommended preparation: experience using a computer. (N)

ESLA 086B  DIGITAL STORYTELLING II (1)
This course helps students develop written and oral competency as well as computer skills by producing a multimedia work using a written script, oral narration, visual images, and musical background. Recommended preparation: experience using a computer. (N)

ESLA 087  ENGLISH PRONUNCIATION (2)
In this course, non-native speakers of English identify and produce English pronunciation in areas that are especially problematic for them given their language backgrounds. S/U grading. (N)

ESLA 087A  ENGLISH PRONUNCIATION I (1)
In this course, non-native speakers of English identify and produce English pronunciation in areas that are especially problematic for them given their language backgrounds. S/U grading. (N)

ESLA 087B  ENGLISH PRONUNCIATION II (1)
In this course, non-native speakers of English identify and produce English pronunciation in areas that are especially problematic for them given their language backgrounds. S/U grading. (N)

ESLA 088A  INTERNATIONAL STUDENT LIFE A (1)
This course is designed to support international students in the development of academic and social skills expected of college students in the US. (N)

ESLA 088B  INTERNATIONAL STUDENT LIFE B (1)
This course is designed to extend support of international students in the development of academic and social skills expected of college students in the US. (N)

ESLA 090  ENGLISH LANGUAGE TOPICS (2-3)
Under instructor’s guidance, ESL students will identify specific problems with English grammar, reading, vocabulary, and/or spelling and use computer software to improve weak areas. Number of credits will be determined by number of instructional hours necessary to address weaknesses. S/U grading. Required preparation: permission of instructor. (N)

ESLA 091  ENGLISH AS A SECOND LANGUAGE GRAMMAR TOPICS (1-3)
This course is designed for students who need help with basic grammar in their writing. The instructor will focus
on specific aspects of grammar according to the needs of individual students. Number of credits will reflect number of instructional hours necessary to address the student’s grammar issues. S/P/U grading. Required preparation: permission of instructor. (N)

ESLA 092 ACADEMIC READING AND WRITING ABOUT READING (2)
Designed for ESL students who would benefit from instructional support in reading college-level texts. Focus is on developing strategies for improving comprehension, speed and tolerance for ambiguity, and for increasing academic vocabulary comprehension. Writing about reading passages and paraphrasing skills are also included. Prerequisite: ESLA052A and 052B or permission of instructor. (N)

ESLA 092 ADVANCED ACADEMIC READING FOR ESL STUDENTS (2)
Designed for ESL students who would benefit from instructional support in reading college-level texts. Focus is on developing strategies for improving comprehension, speed and tolerance for ambiguity, and for increasing academic vocabulary comprehension. Writing about reading passages and paraphrasing skills are also included. Prerequisite: ESLA052A and 052B or permission of instructor. (N)

ESLA 093 ADVANCED LISTENING AND SPEAKING FOR ESL STUDENTS (2)
This course is designed to teach ESL students the interpersonal communication skills necessary for active participation in college-level course group discussions, including techniques for leading group discussions. In addition, listening skills required to succeed in college lecture courses will be taught. Prerequisite: ESLA 050A and 050B or permission of instructor. (N)

ESLA 113 ACADEMIC ESL COMPOSITION AND READING SKILLS I (6)
Low-Advanced ESLA. Designed to develop student’s ability to write basic essays. Emphasis is on controlling grammar at sentence level and organizing ideas into well-constructed essays with adequate support. Course includes reading academic text and summary writing. S/P/U grading. Prerequisite: ESLA placement test or S grade in ESLA 53B; or P grade in ESLA 53B with concurrent enrollment in ESLA 91, 92 or 93. (UE)

ESLA 115 ACADEMIC ESL COMPOSITION AND READING SKILLS II (6)
Advanced ESLA. Designed to introduce students to expository-essay writing, including the role of thesis, introductions, conclusions and various means of organization. Emphasizes controlling grammar and developing the ability to use complex sentences. Includes critical analysis of college-level texts and summary/reflection writing. Students with a P grade in ESLA 113 may take ESLA 115 but must be concurrently enrolled in ESLA 91, 92, or 93. S/P/U grading. Prerequisite: ESLA placement test or S grade in ESLA 113. (UE)

ESLA 116 ENGLISH COMMUNICATION FOR THE PROFESSIONS (5)
Communication practice for the professions, designed for non-native speakers of English. Assignments include business letters, memos, summaries, reports, oral presentations, and small group discussions. S/U grading. Prerequisite: ESLA 113 or permission of instructor. Recommended preparation: ESLA 115. (UE)

ESLA 117 ACADEMIC ESL COMPOSITION AND READING SKILLS III (6)
High-advanced ESLA. Learning a variety of modes including Argumentation. Focuses on developing details and logical organization. Emphasizes controlling grammar and developing an academic writing style. Includes critical analysis of college-level texts, summary/reflection writing and citation. S/P/U grading. Students receiving a P grade will be eligible to take an ENGL&101/ENGL95 linked class offering. Prerequisite: ESLA placement test; or ESLA 115 with a minimum grade of S; or ESLA115 with a minimum grade of P and concurrent enrollment in ESLA 091 or ESLA 092 or ESLA 093. (UE)

ESLA 140 ESL SPECIAL TOPICS SEMINAR (2)
This course will provide academic support to ESL students who are concurrently enrolled in a college lecture course. Students will review videotaped lectures, analyze and take notes on required reading assignments, and study vocabulary presented in the linked course. The course is designed for high-intermediate to advanced ESL students. Required preparation: permission of instructor. (UE)

ESLA 160 TEFL/TESL IN THE PACIFIC NORTHWEST (7)
This course informs instructors of EFL about current TEFL/TESL methodology and teaching techniques in the US and about American culture and history within the Pacific Northwest context. Required preparation: permission of instructor. S/U grading. (UE)
### Film

**FILM 101**  **INTRODUCTION TO FILM (3 OR 5)**  
Introduction to the art of cinema through exposition and examination of basic components of film. Prerequisite: placement in ENGL& 101. (Hw)

**FILM 110**  **FILM GENRES (5)**  
Introduction to the study of selected major film genres. Includes analyzing and discussing representative genre films to determine their formulae, conventions and iconography. Also covers the historical, sociological and mythological dimensions of genre. Prerequisite: placement in ENGL& 101. (Hw)

**FILM 120**  **FILM ADAPTATIONS (5)**  
An introduction and investigation into the art of adaptation, examining the relationships between films and their source material and the times which produced them, looking especially close at remakes and the generational shifts they mirror. Prerequisite: placement in ENGL& 101. (Hw)

**FILM 130**  **HISTORY OF FILM (5)**  
This course examines the history of film as an international artistic medium from its inception to the contemporary era. Topics to be discussed may include invention and early expansion, the silent era, the classical Hollywood studio cinema, postwar cinema, international movements, and contemporary. Recommended preparation: placement in ENGL& 101. (Hg)

**FILM 140**  **DOCUMENTARY FILM (5)**  
This course will examine the wide range of motives and styles, from Nazi propaganda to ethnographic films to the evening news. We will discuss the relationship of documentary film to conscience, knowledge, art, and ideology. Course will explore such aspects of documentary filmmaking as director personality, funding, and ethical considerations in producing documentary films. Prerequisite: placement in ENGL& 101. (Hw)

**FILM 160**  **AMERICAN WOMEN FILMMAKERS (5)**  
This course introduces students to the work of selected American women filmmakers. Students will learn about significant films and filmmakers, study the historical and cultural conditions under which American women filmmakers worked, and develop methods of understanding and appreciating film art. Prerequisite: placement in ENGL& 101. (Hwd)

**FILM 165**  **INTRODUCTION TO FILM NOIR (5)**  
Intro to Film Noir examines the Post War development of a visual style in American filmmaking, from its origins in social changes to its underlying cultural values. The course will examine the visual style in different genres, as well as examine several of the major auteurs (directors) of the style. Prerequisite: placement in ENGL& 101. Recommended preparation: FILM 101. (Hw)

**FILM 180**  **INTERNATIONAL FILM (3 OR 5)**  
This course will introduce students to the cinematic traditions, development, aesthetics and selected works of countries and cultures outside of the United States and Canada. Particular works, artists and traditions may be emphasized at the instructor’s discretion, but students will be offered an opportunity to study and more deeply appreciate films from the “Other Hollywood”. Recommended preparation: placement in ENGL& 101. (Hg)

**FILM 194**  **SPECIAL TOPICS IN FILM STUDIES (3 OR 5)**  
An in-depth examination of a particular area of Film Studies. Possible topics include, but are not limited to, a particular film genre, a particular film technique, a particular medium of filmmaking, the work of a particular director, a particular period in film history, a particular stylistic school, or a particular theoretical construct. Prerequisite: placement in ENGL& 101. (Hw)

**FILM 295**  **HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**  
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Film. Required preparation: acceptance into the Honors Program. (H)

### French

**FRCH 105**  **INTRODUCTION TO FRENCH PHONETICS (3)**  
In this course, students will be introduced to general principles of French phonetics and improve their pronunciation and understanding of spoken French through audio exercises, poems, short readings and dialogues. Prerequisite: FRCH& 121. Recommended preparation: FRCH& 122. (LE)

**FRCH& 121**  **FRENCH I (5)**  
Introduction to the essentials of pronunciation, basic grammar and vocabulary, and aspects of francophone culture. Emphasis on developing proficiency in oral and
written communication. Intended for students who have no prior experience in French. (LEg)

**FRCH& 122  FRENCH II (5)**  
Introduces new verb tenses and further develops skills in speaking, reading, writing and understanding the language. Continued emphasis on use of language for communication and exposure to aspects of francophone culture. Prerequisite: FRCH& 121. (LEg)

**FRCH& 123  FRENCH III (5)**  
Continuation of FRCH& 122. Introduces additional verb tenses and more advanced grammar constructions and vocabulary to further develop skills in speaking, reading, writing and understanding the language. Continued emphasis on use of language for communication and exposure to aspects of francophone culture. Prerequisite: FRCH& 122. (Hg)

**FRCH& 221  FRENCH IV (5)**  
A second-year course building upon the foundation of the first year sequence, while introducing and practicing more advanced grammatical structures and vocabulary in culturally relevant situational and functional contexts. Taught in French. Prerequisite: FRCH& 122. (Hg)

**FRCH& 222  FRENCH V (5)**  
Continuation of French 221 with continued emphasis on language for communication while increasingly stressing reading comprehension strategies and effective writing. Further exposure to aspects of francophone culture. Taught in French. Prerequisite: FRCH& 221. (Hg)

**FRCH& 223  FRENCH VI (5)**  
Continuation of French 222 with continued emphasis on language for communication and formal writing techniques while studying more advanced structures and registers. Further exposure to aspects of francophone culture through literature and film. Taught in French. Prerequisite: FRCH& 222. (Hg)

**FRCH 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**  
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in French. Required preparation: acceptance into the Honors Program. (H)

**GEOG 100  INTRODUCTION TO GEOGRAPHY (5)**  
Introduction to basic principles of physical and human geography. Covers patterns of settlement, population, resource and economic development, climates, and landforms. (SSgs)

**GEOG 105  WORLD GEOGRAPHY IN TRANSITION (5)**  
A study of the world in terms of its physical, historical, cultural, economic, and environmental factors. Course focuses on each region of the world and how its residents create their own cultural landscape. (SSgs)

**GEOG 110  INTRODUCTION TO PHYSICAL GEOGRAPHY (5)**  
This course is presented from a social science perspective toward the physical processes on the surface of the earth, including landforms, weather, river systems, earthquakes and volcanoes; and how these processes affect humans and their societies and environments. This class will include investigative activities, field trips and outdoor experiments. (SSgs)

**GEOG 115  PACIFIC NORTHWEST GEOGRAPHY (5)**  
This course explores the cultural and physical geography of Washington, Oregon, Idaho, Alaska and Lower British Columbia. During this course students will examine physical geography concepts and their relationship to settlement, population, and economic patterns. Prerequisite: placement in ENGL& 101. (SSwds)

**GEOG 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**  
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Geography. Required preparation: acceptance into the Honors Program. (SS)

**GEOL 100  INTRODUCTION TO EARTH SCIENCE (5)**  
Introduction to geology, oceanography, and meteorology. Interaction of physical processes on earth with human affairs. Lab work included. (MSI)

**GEOL 101  INTRODUCTION TO PHYSICAL GEOLOGY (5)**  
Intended for non-science majors. Survey of geologic structures, processes and materials that are important
on earth; emphasis on interactions between human affairs and geologic environment. Not open for credit to students who have taken GEOL 211. Lab work and field trips included. (MSI)

GEOL 104 FINDING THINGS OUT: GEOLOGY (5)
Part of a three quarter set of courses using extensive hands-on and inquiry-based activities to help students understand a few central ideas in earth science regarding the flow of energy and matter. Students will develop critical thinking skills required to pursue scientific understanding of important ideas in geological systems. Preferred sequence is PHYSC 104, GEOL 104, and BIOL 104. Lab work included. Recommended preparation: PHYSC 104. (MSI)

GEOL 110 ENVIRONMENTAL GEOLOGY (5)
Study of geological processes and materials and the effects of human interaction with the geological environment: emphasis on global aspects of many geological conditions. Includes geological hazards, energy and mineral sources. May include field trips. (MSgs)

GEOL 140 NATURAL DISASTERS (5)
Formerly GEOL 120. A study of the nature, causes, impacts, and methods of coping with natural disasters, including earthquakes, volcanic eruptions, landslides, floods, tsunami, tornadoes, hurricanes, drought, blizzards, fires, and other topics. Lab work and field trips included. (MSgs)

GEOL 150 INTRODUCTION TO WEATHER (5)
Study of the earth’s weather; composition and structure of the atmosphere; physical processes involved in weather phenomena such pressure systems, fronts, clouds, precipitation, wind, storms, violent weather, weather observations, forecasting and Koeppen climate classification. Lab work included. Recommended preparation: MATH 98. (MSI)

GEOL 211 PHYSICAL GEOLOGY (5)
Intended for science majors. Composition and structure of earth, identification of common rocks and minerals, formation of surface features of continents and ocean floor, and interpretation of land forms from maps. Lab work and field trips included. (MSI)

GEOL 212 HISTORICAL GEOLOGY (5)
History of the earth and of the plants and animals that have left their records in the rocks. Application of physical geologic principles to unravel the sequence of dynamic events that have shaped the earth as we know it today.

Lab work and field trips included. Prerequisite: GEOL& 101 or GEOL 211; and placement in ENGL& 101. (MSwl)

GEOL 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Geology. Required preparation: acceptance into the Honors Program. (MS)

GERM GERMAN

GERM 104 ACCELERATED ELEMENTARY GERMAN (5)
A comprehensive, intensive review of elementary German through both traditional grammar/vocabulary study and active communication. For those who at some time have completed the equivalent or near equivalent of college-level German but need a thorough review before undertaking further study. Prerequisite: college level first year German or the equivalent. (Hg)

GERM& 121 GERMAN I (5)
Introduction to the essentials of pronunciation, basic grammar and vocabulary, and of aspects of German-speaking cultures. Emphasis on developing proficiency in oral and written communication, as well as in aural comprehension and reading. Intended for students who have no prior experience in German. (LEg)

GERM& 122 GERMAN II (5)
Continuation of GERM& 121. Introduces new verb tenses and further develops skills in speaking, reading, writing and understanding the language. Continued emphasis on use of language for communication and exposure to aspects of German-speaking cultures. Prerequisite: GERM& 121. (LEg)

GERM& 123 GERMAN III (5)
Continuation of GERM& 122. Introduces additional verb tenses and more advanced grammar constructions and vocabulary to further develop skills in speaking, reading, writing and understanding the language. Emphasis on active communication skills. Exposure to aspects of German speaking culture. Prerequisite: GERM& 122. (Hg)

GERM 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge
of a topic in German. Required preparation: acceptance into the Honors Program. (H)

<th>Cours Code</th>
<th>Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST &amp; 116</td>
<td>WESTERN CIVILIZATION I (5)</td>
<td>Early civilized man to the early Middle Ages of Europe, with emphasis on Greece, Rome, Egypt, and other Mediterranean peoples. (SSg)</td>
</tr>
<tr>
<td>HIST &amp; 117</td>
<td>WESTERN CIVILIZATION II (5)</td>
<td>Europe during the High Middle Ages, later Middle Ages, Renaissance and Reformation, Early Modern Europe and ending at the French Revolution. (SSg)</td>
</tr>
<tr>
<td>HIST 118</td>
<td>WESTERN CIVILIZATION III (5)</td>
<td>Western Europe from the French Revolution to the present, examining modern nations, their ideologies, growth, and conflicts. (SSg)</td>
</tr>
<tr>
<td>HIST 120</td>
<td>US FOREIGN POLICY FROM 1945 TO THE PRESENT (3)</td>
<td>This course investigates the dominant themes of American diplomatic tradition and traces the evolution of U. S. foreign policy from World War II to the present. Primary focus will be on the Cold War and how it influenced diplomatic and military policy around the globe, along with an analysis of post-Cold War and “single superpower” diplomacy including the war on terror, the war on drugs, and US intervention in various countries. Prerequisite: placement in ENGL&amp; 101. (SSwg)</td>
</tr>
<tr>
<td>HIST 124</td>
<td>ENVIRONMENTAL HISTORY OF THE UNITED STATES (5)</td>
<td>History of the relationship between humans and the natural world within the present boundaries of the United States, with an emphasis on the period since 1600. Explorations of the role of social and cultural factors like class, race, and gender on humans’ interactions with and impact on the environment. Prerequisite: placement in ENGL&amp; 101. (SSws)</td>
</tr>
<tr>
<td>HIST &amp; 146</td>
<td>US HISTORY I (5)</td>
<td>Survey of Native American societies, European explorers, and the lifestyles on the new continent, the independence movement, and the problems of a new nation before 1815. (SSd)</td>
</tr>
<tr>
<td>HIST &amp; 147</td>
<td>US HISTORY II (5)</td>
<td>Survey course covering the rise of nationalism, evolution of American lifestyles, Civil War, westward movement, and the American industrial revolution from 1815 to 1900. (SSd)</td>
</tr>
<tr>
<td>HIST &amp; 148</td>
<td>US HISTORY III (5)</td>
<td>Survey course exploring the social, political, and economic history of the United States from 1900 to the present. (SSd)</td>
</tr>
<tr>
<td>HIST 158</td>
<td>RELIGIONS OF THE FAR EAST (5)</td>
<td>Survey of the religious traditions of India, South Asia, China, and Japan. Emphasis on Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Discussion of the impact of these religions on contemporary society. (SSg)</td>
</tr>
<tr>
<td>HIST 204</td>
<td>HISTORY OF MEXICO (5)</td>
<td>This course introduces students to the rich history of Mexico. Students will be expected to develop and demonstrate an understanding of the events, characteristics, and basic institutions, which have shaped Mexican society. Course will focus particularly on the impact of historic events as they affect Mexico’s three major social groups: indigena, mestizo, and privilegiado. (SSg)</td>
</tr>
<tr>
<td>HIST 205</td>
<td>LATIN AMERICA 1900 TO PRESENT (3)</td>
<td>This course explores historical development of Latin American nations since 1900. Coverage includes modern issues such as consolidation of democracy, revolutionary movements, imperialism, and globalization. On completion, students will be expected to demonstrate knowledge of the historical events and institutions of several Latin American nations. (SSg)</td>
</tr>
<tr>
<td>HIST 208</td>
<td>HISTORY OF AFRICA FROM 1800 TO PRESENT (5)</td>
<td>This course focuses on the pre- and post-colonial cultures and institutions in Africa from 1800 to the present time. The history of change in African societies will be viewed from anthropological, political, and economic perspectives. Societies studied include a range from foraging types to industrialized nations. The changing relationship between traditional African cultures and global development will also be considered. (SSg)</td>
</tr>
<tr>
<td>HIST 210</td>
<td>THE AMERICAN FRONTIER WEST (3)</td>
<td>History of the American Western frontier, westward movement, native and immigrant settlement, social and economic development. (SS)</td>
</tr>
</tbody>
</table>
HIST 212  HISTORY OF CHINA (5)
This course will introduce Chinese society in its cultural and historical form from its earliest form to the emerging China nation of the 21st century. Emphasis will be placed upon the continuing influence of traditional cultural values upon the current nation state, their effect upon neighboring societies, and the impact of earlier conflicts with other societies and cultures upon today's China. (SSg)

HIST 213  HISTORY OF JAPAN (5)
Introduction to the history and culture of Japan with an emphasis on how the cultural value system of Japan impacts both its people and foreign interests. Includes discussion of Japan’s practice of borrowing selectively from other cultures as a means to reach its goals. (SSg)

HIST& 214  PACIFIC NW HISTORY (5)
Evolution of Pacific Northwest lifestyles, growth, and development from pre-white times to the modern age. The class will focus on regional Indian cultures, white exploration, settlement, economic and social history, and local topics. (SSd)

HIST& 215  WOMEN IN US HISTORY (5)
This course explores women’s place in American history, including historical attitudes about women’s place in society; the struggles of women’s rights movements; and the realities of life and work for women of a variety of backgrounds in American History from pre-colonial times to the present. Prerequisite: placement in ENGL& 101. (SSwd)

HIST 219  NATIVE AMERICAN HISTORY (5)
This course covers Native American history in North America (especially United States’ regions) 1400’s to present. Topics include: Native cultures before European contact, impacts of Europeans (trade, diseases, Christianity, settlements and warfare), treaty making, wars, reservation life, boarding schools, changing federal policies and the resurgence of Indian culture and rights. (SSd)

HIST 220  MODERN ASIA (5)
Survey of selected periods of the nineteenth and twentieth century history of South Asia, Southeast Asia, and East Asia. Social and cultural roots of countries examined in the context of increased contact with the West and related changes of the economy and government. (SSg)

HIST 225  HISTORY/POLITICS OF THE MIDDLE EAST 1900-PRESENT (5)
Survey of cultural, religious, and political dimensions of the Middle East from the rise of Zionism around 1900 to the early 21st century. This includes the decline of colonialism and the formation of independent nation states in the area, the Arab-Israeli conflict, the effects of oil, the Iranian revolution, conflicts in the Persian Gulf, and terrorism. (SSg)

HIST 230  SURVEY OF RUSSIAN HISTORY (5)
Overview of Russian history and culture with special emphasis on the last three centuries. (SSg)

HIST 233  HISTORY OF AUSTRALIA AND NEW ZEALAND (5)
This course surveys the development of Australia and New Zealand from the beginning of human habitation, through the exploration and colonization by Europeans, to the establishment of national governments, and the emergence of truly multicultural societies at the end of the 20thCentury. This course is offered only to students participating in the Australia/New Zealand study abroad program. (SSg)

HIST 250  AMERICAN MILITARY HISTORY (5)
This course surveys the history of the American military and the relationship between the military and American society from the early-1600s to the present. (SSd)

HIST 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in History. Required preparation: acceptance into the Honors Program. (SS)

HLTH HEALTH SERVICES

HLTH 118  FUND PATIENT NAVIGATION AND CARE COORDINATION (7)
Introduction of the health and community services systems. Factors affecting patients such as chronic disease, behavioral health, wellness, patient activation, communication are explored. The diverse patient experience, decision support, and advocacy will be covered. (UEd)

HLTH 119  ADVANCED PATIENT NAVIGATION & CARE COORDINATION (8)
This course builds on content and practices examined in Fundamentals of Patient Navigation and Care Coordination. The course will enable students to develop advanced level knowledge, skills, strategies and practice to navigate the complex health and community services
systems and influence patient outcomes. Prerequisite: HLTH 118. (UE)

HLTH 124 BEHAVIORAL HEALTH NAVIGATION (2)
This course explores care coordination and navigation for populations with behavioral health needs. An overview of behavioral health systems, eligibility, and access issues are presented. Topics include: individual and family centered service coordination, response to acute behavioral health situations, work with interdisciplinary team, access to behavioral health resources, interventions and referral. (UE)

HLTH 126 CARE NAVIGATION AND COORDINATION: OLDER ADULTS (2)
This course will explore care coordination and navigation with older adults. An overview of the aging process will be discussed. Topics will focus on individual and family centered care issues, communication and health literacy, working with interdisciplinary teams, chronic conditions, prevention, transitions, and resource referral. (UE)

HLTH 136 NAC SKILLS EXAM PREP (1)
A lab course in which the NACTP completer can practice the 22 practical skills required to obtain certification in WA State. Prerequisite: NURS 100 with a minimum grade of D or completion of other WA State Nursing Assistant Certified Training Program. (UE)

HLTH 138 NAC ACUTE CARE I (2)
First of a two part series to enhance Nurse Assistant Certified training. The focus is on the Acute Care practice setting. This course includes topics on Prioritizing Safety, Fall Prevention / Reduction, Wound Prevention, and Infection Control. Prerequisite: current unencumbered Nurse Assistant Certification from WA State. (UE)

HLTH 139 NAC ACUTE CARE II (2)
Second of a two part series to enhance Nurse Assistant Certified training. The focus is on the Acute Care practice setting. This course includes topics on Professionalism, Communication and Teamwork, Conflict Management, and Terminology in Acute Care. Prerequisite: current unencumbered Nurse Assistant Certification from WA State. (UE)

HLTH 144 ESSENTIALS OF CARE NAVIGATION (5)
An introduction to the knowledge, skills, and attitudes necessary to apply care navigation for the client, first of three courses for a certificate in care navigation. Focus is on the human and healthcare services systems, client profiles, communication basics, chronic illness, and health coaching. Serves as foundational to advanced courses. (UE)

HLTH 145 ADVANCED CARE NAVIGATION 1 (5)
The second in a three part series for a Certificate in Care Navigation. In this course, select topics from the Essentials course are revisited in greater depth. Topics include: care coordination and navigation, client characteristics, an overview of Behavioral Health, strategies to influence outcomes, and advanced communications. Prerequisite: HLTH 144 or equivalent experience. (UE)

HLTH 146 ADVANCED CARE NAVIGATION 2 (5)
This course is the third in a three part series for a Certificate in Care Navigation. Selected topics from the Essentials course are revisited in greater depth. Topics include: care transitions, preventive healthcare, continued discussion of chronic illness, end of life care, and challenges particular to care navigation. Prerequisite: HLTH 145 or equivalent experience. (UE)

HLTH 224 INTEGRATION OF BEHAV. HEALTH INTO PRIMARY CARE (5)
Describes the integration of Behavioral Health and Primary Care Practices. Topics include: systems oriented practice; interventions; whole person care; and care coordination, collaboration, and teamwork. Prerequisite: HLTH 124 with a minimum grade of C-. (UE)

HLTH 201 CLINICAL NEUROLOGY (3)
Introduction to clinical neurology and the effects of neurological dysfunction on the rehabilitation process. Includes basic anatomy and physiology of the nervous system, evaluation of normal neurological function, and fundamentals of disease processes and neurological impairment. Required preparation: program admittance; BIOL& 241. (UE)

HLTH 202 APPLIED ANATOMY AND CLINICAL KINESIOLOGY (5)
Introduction to kinesiology with emphasis on the functional application and analysis of the musculoskeletal system, including clinical assessment tools of goniometry. Required preparation: program admittance; BIOL& 241. (UE)

HONOR HONORS PROGRAM

HONOR 299 HONORS PROGRAM SPECIAL PROJECT (1-3)
An opportunity to explore beyond usual course
boundaries and produce an original product. Individual work will be mentored by a faculty member in a specific discipline. Prerequisite: prior completion of one Honors Program seminar and permission of Honors Program Coordinator.

HSC 010  ENGLISH ESSENTIALS (1-5)
Survey of Language Arts skills needed for college and careers including reading strategies. Provides a practical focus on the applied use of grammar, punctuation, and usage skills in sentence and paragraph development. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 011  BASIC COMPOSITION (1-5)
Focuses on organization in writing. Includes an introduction to the analysis of the writing of others, synthesis of personal knowledge and opinion with evidence, and use of citation. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 022  US HISTORY I (1-5)
Surveys United States history from pre-colonial times to the Civil War. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 024  WASHINGTON STATE HISTORY (3)
History of the exploration and settlement of the Northwest including Native American history. Survey of the growth of political, economic, and social institutions in the state. Includes study of state and local government structures. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 027  UNITED STATES GOVERNMENT (1-5)
Surveys the United States system of government including the constitution and the three branches of the federal government and the shared powers of federal, state, and local governments. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 028  ORIENTATION & STUDY SKILLS (1-5)
Survey of a variety of contemporary issues affecting our world. May include discussions on current events, government, and economy of the world. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 037  PHYSICAL SCIENCE (1-5)
Survey of two or more topics from the following list: structure of the Earth, plate tectonics, geological cycles and processes, renewable and nonrenewable natural resources, weather and climate, the solar system, the universe, atoms and molecules, properties and states of matter, chemical reactions, energy and work, motion and forces, waves, electricity, and magnetism. Repeatable for credit with different topics. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 038  LIFE SCIENCE (1-5)
Introductory survey of Anatomy and Physiology. The course will focus on basic cell structure and three body systems per quarter. Repeatable for credit with different body systems. Lab work included. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 060  OCCUPATIONAL EDUCATION/EXPERIENCE (1-5)
This course is designed to assist students in determining their personal, education, and occupational goals by identifying marketable skills and exploring the current labor market. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 062  PHYSICAL EDUCATION AND WELLNESS (1-5)
Development of physical health and fitness skills. Areas of focus will vary by quarter but may include: walking, dancing, cardio work, weight lifting, individual and/or team sports. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 063  PERSONAL HEALTH TOPICS (1-5)
Survey of personal health related topics including: wellness, food and nutrition choices, exercise, and disease prevention. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)
HSC 065  ART (1-5)
Introduces and explores various forms of art, including visual works, and performance art such as dance, music, and theater. Topics will vary each quarter. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HSC 071  MATHEMATICAL CONCEPTS (1-5)
Provides a review of arithmetic operations on whole numbers, fractions, and decimals. Covers applications of percent, proportions, and ratios in order to solve multi-step problems using the fundamentals of algebra. Prepares the student for future math courses while introducing critical thinking, problem-solving, and collaborative work in math-related real world situations. Repeatable with program permission. Prerequisite: completion of CASAS assessment and permission from Transitional Learning Programs. (N)

HUM HUMANITIES

HUM& 101  INTRODUCTION TO THE HUMANITIES (6)
Interdisciplinary introduction to global humanities (literature, philosophy, architecture/design, visual and performing arts, etc.), emphasizing experience and participation. Individual instructors determine a central theme or issue to establish focus and comparative structure. Seventh credit may be earned by enrolling in HUM& 106 concurrently. Fulfills two Humanities distribution subject areas. Prerequisite: placement in ENGL& 101. (Hwdg)

HUM 106  HUMANITIES HERE AND NOW (1)
Enrollment can only be concurrent and in conjunction with HUM& 101. This additional credit option requires students to attend or experience events in the arts and generate written critical responses, extending and applying HUM& 101 curriculum. Prerequisite: placement in ENGL& 101 and concurrent enrollment in HUM& 101. (Hwdg)

HUM 130  BRITISH LIFE AND CULTURE (5)
The British Life and Culture course is designed to give students a broad background to the meaning of British culture and civilization. Taking a social, historical, and cultural approach to contemporary British society examines this course the traditions and institutions to help understand the British way of life in the 21st century. Prerequisite: admittance to Study Abroad program. (Hg)

HUM 131  ITALIAN LIFE AND CULTURE (5)
The Italian Life and Culture course is designed to give students a broad background to the meaning of Italian culture and civilization. A social, historical, and cultural approach to contemporary Italian society is taken. Prerequisite: admittance to Study Abroad program. (Hg)

HUM 132  SOUTH AFRICAN LIFE AND CULTURE (5)
South African Life and Culture (SALC) is a required core course and is designed to help students gain optimum benefit from their study abroad experience by providing an introduction to life in South Africa, its people, and culture. This course is made up of weekly lectures by local faculty covering aspects of South African history, culture, and modern day life. The weekly lectures and visits aim to give an overview of life and culture in this host country. Prerequisite: admittance to Study Abroad program. (Hg)

HUM 133  AUSTRALIAN/NEW ZEALAND LIFE AND CULTURE (5)
Humanities course designed to give students a broad background to the meaning of Australian and New Zealand culture and civilization. A social and cultural approach to contemporary society in Australia and New Zealand is taken. This course is offered only to students participating in the Australia/New Zealand study abroad program. (Hg)

HUM 134  CZECH LIFE AND CULTURE (5)
This course is designed to give students a broad background to the meaning of Czech culture which includes influences from many European cultures. By examining literature, music, art, architecture, film, religion, and politics, students are introduced to the ideas, myths, symbols, and attitudes of this culture. Prerequisite: admittance to Study Abroad program. (Hg)

HUM 135  GERMAN LIFE AND CULTURE (5)
This course is designed to give students a broad background to the meaning of German culture which includes influences from many European cultures. By examining literature, music, art, architecture, film, religion, and politics, students are introduced to the ideas, myths, symbols, and attitudes of this culture. Prerequisite: admittance to Study Abroad program. (Hg)

HUM 170  CULTURAL HISTORY AND PRACTICES (5-8)
Readings on and discussion of the cultural history and practices of a particular country or region via its arts, literature, philosophy, and history. Maximum credit

whatcom.edu
earned through a study abroad experience. 5-credit core is open to all students. Prerequisite: placement in ENGL& 101. (Hwg)

HUM 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Humanities. Required preparation: acceptance into the Honors Program. (H)

HUMDV HUMAN DEVELOPMENT

HUMDV 105 LEADERSHIP DEVELOPMENT I (2)
Designed for students who are involved in leadership positions or who want to develop their individual leadership skills. This course focuses on understanding the concepts of leadership, personal qualities of effective leaders, communication skills for leaders, and developing vision and mission for a group. Various methods of instruction are used including film case study, readings, class discussion, guest speakers, and small group projects. (UE)

HUMDV 106 LEADERSHIP DEVELOPMENT II (2)
Designed for students who are involved in leadership positions or who want to develop their leadership skills. This course focuses on better understanding of people in group interactions, team building, qualities of effective leadership, and project planning and execution for small groups. The course will help students establish a foundation for a personal philosophy of leadership, and set of skills for practical application in leadership. Various methods of instruction are used including film case study, readings, class discussion, guest speakers, and small group projects. Prerequisite: HUMDV 105. (UE)

HUMDV 107 LEADERSHIP APPLICATIONS (2)
This is a project-based class, designed to allow students to gain practical experience in leadership by planning and executing a project. Students refine their leadership skills and abilities and contribute to the college through completion of their selected project. Methods of instruction may include film case study, readings, small group discussion, and guest speakers as appropriate for their project. Prerequisite: HUMDV 105 and 106. (UE)

HUMDV 115 TOPICS IN STRESS AND ANXIETY MANAGEMENT (2)
Selected topics in understanding stress and anxiety in our lives: its causes, the symptoms, and reduction techniques.

Emphasis on skills enhancement in management of anxiety and stress through relaxation, rational thinking, visualization and other strategies. (UE)

HUMDV 117 CAREER/LIFE PLANNING FOR THOSE IN TRANSITION (5)
Designed for people in transition to help create a plan of action to acquire training and/or to enter the work force. Includes identifying transferable skills, personal strengths and values, implementing goals, exploring current labor market information, bolstering self-esteem, writing resumes, building interviewing skills, and developing communication skills. S/U grading. Required preparation: instructor permission. (UE)

HUMDV 122 FOCUS ON ASSERTIVE BEHAVIOR (2)
Development of assertive behavior as it relates to effective communication and expression, personality, conflict resolution, anger management, problem solving, risk taking, and personal values and rights. S/U grading. (UE)

HUMDV 125 PSYCHOLOGY OF SELF ESTEEM (2)
Discusses psychological and sociological theories for the basis of an individual's self-esteem. Explores the concepts and processes that affect self-esteem and discusses constructive ways to increase one's own self-esteem and foster positive self-esteem in others. S/U grading. (UE)

HUMDV 135 MENTORSHIP IN HIGHER EDUCATION (2)
We will think broadly about how students learn - and specifically, how one learns to learn. Students will serve as mentors for peers who are interested in improving their academic performance and the transition to life at a college. Prerequisite: Instructor permission. (UEd)

IDS INTERDISCIPLINARY STUDIES

IDS 112 ETHNOMATHEMATICS (5)
An interdisciplinary quantitative skills course; investigates the interactions between logico-mathematical thinking and cultural perspective. Prerequisite: placement in ENGL& 101. (SSwdg)

IDS 113 QUANTITATIVE METHODS IN THE SOCIAL SCIENCES (5)
An interdisciplinary quantitative methods course from a social science perspective; includes problem-solving, research design, sampling and ethical parameters for working with human subjects. Recommended preparation: one course in Anthropology, Sociology or Psychology. (SS)
IDS 123   ART BUSINESS AND COMMUNITY (3)  
Interdisciplinary approach to respective roles of the arts and business culture in the community, and how they interact. Students will create projects which demonstrate an understanding of the role of the arts in business and community. Prerequisite: placement in ENGL& 101. (H)

IDS 150   JAPANESE CULTURE AND SOCIETY (5)  
This course will provide students with a broad understanding of modern Japanese culture and society. Emphasis is placed on Japanese cultural values and human relations. Students are expected to be able to increase their understanding of Japanese culture and their knowledge of social norms. (LEg)

IDS 152   RELIGION, SOCIETY AND SELF-CONCEPT (5)  
Interdisciplinary course that examines various relationships between religion in American culture as well as from a cross cultural perspective and how this affects social constructs and influences the psyche. Students gain elucidation of both their own beliefs and those around them, both locally and globally. Prerequisite: placement in ENGL& 101. (H,SSwdg)

IDS 161   LITERATURE, SCIENCE AND GENDER (5)  
Interdisciplinary course that draws from literary theory, the social history of ideas and women's studies in considering science learning as it has been associated with daily life. Non-traditional consideration of the first-person voice in science. Emphasis is on a wide range of narrative forms and rhetorical strategies used to translate scientific theories into the vernacular. Prerequisite: placement in ENGL& 101, and any 100 level CMST or CMST& course. (H,SS,MSwd)

IDS 170   INTRODUCTION TO SUSTAINABILITY (5)  
An interdisciplinary, introductory course designed to expose students to the history, concepts, and practices of sustainability in three general areas: environmental (ecology), economic (business), and social (community). Includes a practical application of the concepts learned in the class as well as an exploratory section on environmental careers. Prerequisite: placement in ENGL& 101. (SSwg)

IDS 180   VISUAL MEDIA AND CULTURE (5)  
Interdisciplinary exploration of cultural identity and values in relation to visual media. Draws on humanities anthropology, communications studies, symbolic reasoning. Examines forms of visual expression in global and historical comparison as well as the use of visual media as source material for cultural study. Prerequisite: placement in ENGL& 101. (H,SSwg)

IDS 210   SCIENCE/ECONOMICS/POLITICS-SUSTAINABLE RESOURCES (5)  
Use interdisciplinary methods to evaluate and compare the uses of different key resources, using methodologies from science, economics and politics. Students will learn about resources, such as energy or water, in the context of scarcity, depletion, climate change and impact on the environment. Students will learn why these three disciplines must be considered by voters and decision makers as they try to formulate policies and make choices regarding sustainable resource use that are scientifically feasible as well as economically and politically acceptable. Recommended preparation: Math 98.  Prerequisite: placement in ENGL& 101. (SS,MSwgs)

IDS 220   THE WESTERN CULTURAL TRADITION (6)  
Interdisciplinary study of a significant period, theme, or region relevant to the Western cultural tradition via the humanities: literature, philosophy, architecture/design, visual and performing arts. Repeatable for credit with different eras, regions, or themes. Fulfills two Humanities distribution subject areas. Prerequisite: ENGL& 101. (Hw)

IDS 260   AMERICAN CULTURAL STUDIES (6)  
Interdisciplinary study of significant themes/periods in American culture history through the humanities: literature, philosophy, architecture/design, visual and performing arts. Examines culture as a living, breathing, vital thing, not just a collection of artifacts. Repeatable with different periods or themes. Fulfills two Humanities discipline areas. Prerequisite: ENGL& 101. (Hw)

IDS 270   STUDIES IN GLOBAL CULTURE (6)  
Interdisciplinary study of regional and ethnic cultural heritage via the humanities: literature, philosophy, architecture/design, visual and performing arts. Course focus may be discrete or comparative; emphasis on cultural arena outside of Western tradition. Repeatable for credit with different eras or themes. Fulfills two Humanities distribution subject areas. Prerequisite: ENGL& 101. (Hw)

IDS 295   HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)  
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in IDS. Required preparation: acceptance into the Honors Program. (H,SS)
JAPN JAPANESE

JAPN 104 READING AND WRITING ELEMENTARY JAPANESE (5)
This course is designed primarily for students with one year of elementary Japanese to prepare them for the intermediate level through a thorough review of elementary Japanese grammar, vocabulary, and kanji. Emphasis is on reading and writing. Prerequisite: JAPN& 123. (Hg)

JAPN& 121 JAPANESE I (5)
Introduction to Japanese grammar, pronunciation, vocabulary, and basic writing (hiragana, katakana, and kanji) through the functional use of Japanese in realistic situations. Attention given to social appropriateness of speech and cultural values. Intended for students who have no prior experience in Japanese. (LEg)

JAPN& 122 JAPANESE II (5)
Continued development of oral fluency and aural comprehension through the practice of Japanese in functional situations. Systematic introduction to the plain and polite forms of speech and their use in various expressions. Continued basic acquisition of reading and writing. Prerequisite: JAPN& 121. (LEg)

JAPN& 123 JAPANESE III (5)
Development of fluency and accuracy in oral and written communication. Attention given to appropriateness within the Japanese culture context. Introduction to informal forms of speech and further development of plain and polite forms and their use in various expressions. Prerequisite: JAPN& 122. (Hg)

JAPN 151 READING AND WRITING KANJI (2)
This course provides students with basic reading and writing skills by helping develop the knowledge and usage of kanji in a systematic way. Prerequisite: JAPN& 121. (LEg)

JOURNALISM

JOURN 120 HORIZON STAFF (1-5)
Participation in production of the student newspaper including writing news articles, editorials and reviews, assisting in layout, editing or photography. Course repeatable for up to 15 credits. Recommended preparation: placement in ENGL& 101; prior or concurrent enrollment in JOURN 210. (UE)

JOURN 210 WRITING FOR THE MASS MEDIA (5)
Fundamentals of news gathering and writing; structure of a news story; the news business as it has evolved in the United States; and the role of the free press in the American political system. Prerequisite: placement in ENGL& 101. (LEw)

JOURN 211 ADVANCED REPORTING AND EDITING (3-5)
Development of news gathering and reporting techniques. Advanced techniques of feature writing, with an emphasis on balanced original reporting, effective structure, awareness of audience, precise language usage and journalistic style. Application of media ethical principles. Course repeatable for up to 15 credits. Prerequisite: JOURN 210, JOURN 120 or Instructor Permission. (LEw)

JOURN 212 ADVANCED EDITING AND PRODUCTION (1-2)
Advanced work on the editorial staff of the student newspaper, including story assignments, editing, mentoring, writing and reporting, layout, photography, copyediting and production. For editors or by instructor permission. May be repeated for credit 3 times. Recommended preparation: JOURN 211. (UE)

LEARNING CONTRACTS

LC 089 LEARNING CONTRACTS (1-12)
Opportunity to earn credit for independent, individualized learning experiences outside the classroom. Individual contracts developed in specific disciplines with a faculty or community resource person. Learning contract program coordinator signature required for registration.

LC 189 LEARNING CONTRACTS (1-12)
Opportunity to earn credit for independent, individualized learning experiences outside the classroom. Individual contracts developed in specific disciplines with a faculty or community resource person. Learning contract program coordinator signature required for registration.
LC 289  LEARNING CONTRACTS (1-12)
Opportunity to earn credit for independent, individualized
learning experiences outside the classroom. Individual
contracts developed in specific disciplines with a faculty or
community resource person. Learning contract program
coordinator signature required for registration.

LIBR  LIBRARY AND INFORMATION
SCIENCE
LIBR 100  LEARNING FOR THE 21ST CENTURY (5)
Introduces students to the research process, using print
and online formats, emphasizing building transferable skills
for lifelong learning. Students will examine strategies for
locating, evaluating, and applying information in various
settings to enrich their lives and careers. Recommended
preparation: placement in ENGL& 101. (UE)

LIBR 194  SPECIAL TOPICS IN RESEARCH (1)
This one-credit course is designed to support any academic
course which requires research or a research paper. Students
learn research methods in a discipline by using print
materials, databases, websites and sources from WCC and
other academic institutions which can be incorporated into
an academic paper or oral presentation. (UE)

MA  MEDICAL ASSISTING
MA 101  MEDICAL TERMINOLOGY I (2)
This course provides an introduction to medical word
building using root words, suffixes, prefixes, and
combining forms. (UE)

MA 102  MEDICAL TERMINOLOGY II (1-2)
This is a two-credit course designed as a continuation of
Medical Terminology I. It might also be appropriate
for those who already have a knowledge base from
utilizing oral, aural, and written medical terminology in
the workplace. Prerequisite: MA 101. (UE)

MA 108  MEDICAL LAW AND ETHICS (2)
This course covers legal issues effecting medical office
personnel with an emphasis on the prevention of
problems through good practices and risk management.
This course includes legalities of documentation and
medical records, federal and state health care legislation
and regulations, legal age requirements and parental
information, access to patient information, doctor-patient
contracts, patient consents, confidential and ethical
boundaries. Recommended preparation: placement into
ENGL& 101; Computer Literacy (self-assessed). (UE)

MA 112  BASIC ANATOMY, PHYSIOLOGY AND
PATHOLOGY (3)
This course is an introduction into the structure and
function of the body with associated medical terminology.
This basic course includes common diseases, diagnostic
tests, possible treatments, and probable prognoses.
Recommended preparation: placement into ENGL& 101;
computer literacy. (UE)

MA 113  INTRODUCTION TO MEDICAL
COMPUTING (3)
This course is designed to increase competency and
confidence using computer software including word
processing and spreadsheet programs. The course will also
explore internet use for communication, collaboration and
research. Projects will utilize Medical Assisting materials.
Recommended preparation: MATH 094, Keyboard 20
wpm. (UE)

MA 119  MEDICAL INSURANCES AND
FINANCES (4)
This course is an introduction to daily financial practices,
manual and automated systems, and operation of the
10-key calculator. This course includes medical billing
and collections, and medical insurances. The emphasis is
on computational accuracy, working with various medical
insurances and the details of good accounting practices.
Recommended preparation: completion of MATH 97 or
test into MATH 98; placement into ENGL& 101; computer
literacy (self-assessed). (UE)

MA 120  CLINICAL PROCEDURES I (6)
Introduction to basic patient exam techniques including
vital signs, health history questionnaires, patient
assessments, patient and room preparations, sterile
procedures and techniques, assisting with patient exams,
treatments, and minor office surgeries and procedures.
Includes infection control, disinfecting and sterilization,
dressing changes, bandaging, suture removal, casting
and removal of casts, identification and care of surgical
instruments, and equipment use and maintenance.
Required preparation: admission into the MA Program.
(UE)

MA 121  CLINICAL PROCEDURES II (6)
Covers diagnostic electrocardiograms and holter
monitors, diagnostic procedures and treatments of the eye
and ear such as use of the otoscope and ophthalmoscope,
visual acuity screening and auditory screening, irrigation of the eye and ear and instillation of medication to the eye and ear. This course introduces the student to diagnostic imaging as well as general laboratory practices, urinalysis, venipuncture, hematology, basic microbiology, and specialty laboratory tests. Required preparation: admission into the MA Program. Prerequisite: MA 120. (UE)

**MA 122 COMMUNICATIONS IN HEALTH CARE (4)**
This course is an overview of Healthcare from the systems level to the medical office level. Included is a review of the effect of national and state healthcare policies on the operation of medical offices and an introduction to communication strategies and competencies. Recommended preparation: CMST 210; placement in ENGL& 101; computer literacy. (UE)

**MA 123 THE MEDICAL OFFICE AND ELECTRONIC RECORDS (5)**
This course is an introduction to the Electronic Medical Record (EMR) and includes training in the typical software used in medical offices. Also covered are methods of charting and managing patient information. Students are introduced to medical insurance and coding and are trained in the use of office equipment. Prerequisite: B IS 101 or equivalent. Recommended preparation: placement in ENGL& 101. (UE)

**MA 124 COMPUTERIZED MEDICAL BILLING (3)**
Introduction to data entry procedures for medical financial records, billing and rebilling insurance claims, posting private and insurance payments, managing accounts receivable, and end of month reports. Includes in-depth practice using simulations. Recommended preparation: placement in ENGL& 101; computer literacy. (UE)

**MA 127 CLINICAL ANATOMY AND PATHOPHYSIOLOGY I (6)**
This medically focused course is an integrated study of the structures, functions and disease processes of the human body. This course covers integumentary, skeletal, muscular, special senses and digestive systems. Topics in nutrition are also covered. There will be a focus on health, wellness and patient education. Required preparation: admission into the MA Program. (UE)

**MA 128 CLINICAL ANATOMY AND PATHOPHYSIOLOGY II (6)**
This medically focused course is an integrated study of the structures, functions and disease processes of the human body. This course covers cardiovascular, respiratory, lymphatic, endocrine, urinary and reproductive systems. Human growth and development and aging processes are also covered. There will be a focus on health, wellness and patient education. Required preparation: admission into the MA Program. (UE)

**MA 131 CLINICAL PROCEDURES III (3)**
This course covers the integration of already learned clinical skills with new clinical and communication skills in a context of case studies and clinical scenarios. The course also covers CPR/First Aid and HIV-AIDS training. Prerequisite: MA 121. (UE)

**MA 135 MEDICAL PROCEDURAL CODING (3)**
This course offers detailed practice into medical procedural coding: covering codes for evaluation and management; anesthesia and surgery; laboratory, pathology and radiology; medicine; and modifiers. Special emphasis on using CPT references and future credentialing as a Certified Professional Coder through the American Association of Professional Coders “AAPC”. Prerequisite: MA 101. (UE)

**MA 136 PHARMACOLOGY (4)**
Introduction to basic pharmacology, the most commonly prescribed medications; utilization of pharmaceutical references; metric system; interaction between the Medical Assistant and the pharmacy; methods of administration; and state certification requirements. Credit not granted for students who previously took MA 138. Required preparation: acceptance into the MA program. (UE)

**MA 137 PHARMACOLOGY LAB (2)**
This course covers administration of medications including injection procedures in intramuscular, intradermal, and subcutaneous routes and IV theory. There is emphasis on metric/household/apothecary conversions, dosage calculations, and measuring correct doses. Credit not granted for students who previously took MA 138. Required preparation: acceptance into the MA program. (UE)

**MA 140 PRACTICUM (6)**
Provides medical assistant with practical experience in a physician’s office or clinic by performing various clinical and administrative procedures under the direct supervision of a physician and/or medical office staff. Required preparation: acceptance into the Medical Assisting Program; successful completion of all program courses, current CPR/First Aid certificate, current 7-hour AIDS education certificate. (UE)
MA 142  PRACTICUM SEMINAR (2)
Weekly discussion, sharing and problem solving of clinical experiences while in clinical Practicum. There is an emphasis on communication, professionalism, the importance of continuing education, employment opportunities, job search skills and preparing for the CMA exam. This class will cover practice exams as well as including the CMA exam. Required preparation: acceptance into the MA program. (UE)

MA 144  OFFICE EMERGENCIES (1)
This course covers the recognition and management of medical office emergencies and patient assessment by telephone and/or in the office. Safety, preparedness and the appropriate response is the emphasis. This course includes CPR/First Aid and HIV-AIDS training. (UE)

MA 155  MEDICAL DIAGNOSTIC CODING (3)
This course offers detailed practice into medical diagnostic coding (ICD-9/ICD-10); covering in depth such areas as all the body systems in normal healthy states, as well as diseases and conditions, injuries and neoplasms. This course prepares the student for a career and credentialing as a Certified Professional Coder through the American Association of Professional Coders (AAPC). Recommended preparation: MA 101. (UE)

MA 222  ADVANCED TOPICS IN HEALTHCARE COMMUNICATION (5)
This course is a focused examination of advanced communication strategies in the outpatient setting. Topics include quality control, advanced scheduling, complex patient case studies and working with the healthcare team. Prerequisite: MA 122. Recommended preparation: CMST & 210 or CMST 145, placement in ENGL & 101 and computer literacy. (UE)

MATH 060  MEDICAL MATH SUPPORT (2)
This is a course for students who are enrolled in Math 96, (Medical Math) who need supplemental instruction or review in fractions, percents, decimals, ratio and proportion, solving basic algebraic equations and word problems. Recommended preparation: MATH 094. (N)

MATH 087  MATHEMATICAL LITERACY I (5)
First course in a two-course sequence preparing non-STEM students for college-level math coursework (either Math& 107 or Math& 146). Topics include creating and interpreting charts and graphs, order of operations, linear versus exponential growth, basic probability and statistics, dimensional analysis, rates of change, and critical reasoning. Graphing calculators are required. Prerequisite: MATH 94 with an S grade. Students can also place into this course via the math placement test. (N)

MATH 088  MATHEMATICAL LITERACY II (5)
Second course in a two-course sequence preparing non-STEM students for college-level math coursework (either Math& 107 or Math& 146). Topics include linear relationships and problem-solving, standard deviation, the Normal distribution, nonlinear equations, variation, scientific notation, function notation, the quadratic formula, and curve-fitting. Graphing calculator required. Prerequisite MATH 087 with a minimum grade of C. Students can only enter this course with Math 87 with a minimum grade of C from WCC. Students cannot place into this course using an equivalent course from another institution, or via the math placement test. (N)

MATH 092  ARITHMETIC OF FRACTIONS AND DECIMALS (2)
Examines the operations with whole numbers. The skills of estimating and solving word problems will be emphasized. The topics of addition, subtraction, multiplication and division, rounding, factoring, and identifying least common multiples are covered. Operations with fractions, mixed numbers, decimals, the order of operations, and building numerical literacy through graphical and statistical representation are covered in this course. S/U grading. Prerequisite: reading assessment of ENGL 92 or higher and S grade in ABE 30 or math assessment test. (N)

MATH 094  BASIC MATHEMATICS (5)
Review of addition, subtraction, multiplication and division of fractions. Course also includes order of operations, percentages, rates and proportions, perimeter, area and volume of geometric figures, application problems, introduction to positive and negative numbers, and solving basic algebraic equations. S/U grading. Prerequisite: grade of S in MATH 92 or higher and S grade in ABE 30 or math assessment test. (N)

MATH 096  MEDICAL MATH (5)
This course is intended to be an introductory algebra course for students entering healthcare professions with the course content contextualized for the medical field. Topics will include an overview of algebra skills used in the medical field, measurement systems, conversion procedures, dosages, intravenous calculations, charts,
tables and graphs, variation, and linear equations and their graphs. Students are expected to have mastered basic arithmetic concepts. Recommended preparation: ABE 050 or basic arithmetic concepts equivalent to ABE 050. (N)

MATH 097 ELEMENTARY ALGEBRA I (5)
The first in a two course elementary algebra sequence. The course will include solving one variable equations and inequalities, formulas and applications, an introduction to polynomials, factoring, and methods of solving quadratic equations. Graphing calculators are required. Prerequisite: MATH 94 including a unit of Basic Algebra with a minimum grade of S. (N)

MATH 098 ELEMENTARY ALGEBRA II (5)
Second in a two course elementary algebra sequence. Students are expected to be proficient in the first half of an Elementary Algebra course (Math 97 or equivalent). Topics include dimensional analysis, graphing, exponent rules, systems of equations, radical equations, quadratic equations, and applications of elementary algebra. Graphing Calculators are required. Prerequisite: MATH 97 with a minimum grade of C. (N)

MATH 099 INTERMEDIATE ALGEBRA (5)
A course in functions and fundamentals of algebra intended to prepare students planning to take additional courses in science, technology, engineering, and mathematics. Topics include rational expressions and equations, functions and graphs, systems of equations (3-variable and non-linear), exponential and logarithmic functions, and right triangle trigonometry. Graphing calculator required. Prerequisite: MATH 98 with a minimum grade of C. (N)

MATH 107 MATH IN SOCIETY (5)
Formerly MATH 125. Exploration of mathematical concepts with emphasis on observing closely, developing critical thinking, analyzing and synthesizing techniques, improving problem solving skills, and applying concepts to new situations. Core topics are probability and statistics. Additional topics may be chosen from a variety of math areas useful in our society. Graphing calculator required. Prerequisite: MATH 88 or MATH 99 with a minimum grade of C. (QSR,MS)

MATH 121 MATHEMATICAL MODELING AND THE ENVIRONMENT (5)
Exploration of linear, power, exponential, logistic, logarithmic, and difference equations using data analysis and regression. Students will create mathematical models from environmentally themed data sets to better understand different types of relationships between variables. Quantitative reasoning will be heavily emphasized. Graphing calculator required. Prerequisite: MATH 99 with a minimum grade of C. (MS)

MATH& 141 PRECALCULUS I (5)
The basic properties and graphs of functions and inverses of functions, operations on functions, compositions; various specific functions and their properties including polynomial, absolute value, rational, exponential and logarithmic functions; applications of various functions; conics. A graphing calculator is required. Prerequisite: MATH 99 with a minimum grade of C. (QSR,MS)

MATH& 142 PRECALCULUS II (5)
Second in a two-course sequence designed to prepare students for the study of Calculus. Intended for students planning to major in math and/or science. Course to include right triangle trigonometry; trigonometric functions and their graphs; trigonometric identities and formulae; applications of trigonometry; parametric equations; and polar coordinates. A graphing calculator is required. A graphing calculator is required. Prerequisite: MATH& 141 with a minimum grade of C. (MS)

MATH 145 ALGEBRA APPLICATIONS FOR ECONOMICS AND BUSINESS (5)
Applications of linear, quadratic, exponential, and logarithmic equations; functions and graphs; mathematics of finance; solution of linear systems using matrices; linear programming using the simplex method. Graphing calculator required. Prerequisite: MATH 99 with a minimum grade of C. (QSR,MS)

MATH & 146 INTRODUCTION TO STATS (5)
Rigorous introduction to statistical methods and hypothesis testing. Includes descriptive and inferential statistics. Tabular and pictorial methods for describing data; central tendencies; mean; modes; medians; variance; standard deviation; quartiles; regression; normal distribution; confidence intervals; hypothesis testing, one and two-tailed tests. Applications to business, social sciences, and sciences. Prerequisite: MATH 088 or MATH 099 with a minimum grade of C. (QSR,MS)

MATH &148 BUSINESS CALCULUS (5)
Limits, derivatives, marginal analysis, optimization, antiderivatives, and definite integrals. Examples taken from management, life and social sciences. Prerequisite: MATH& 141 or MATH 145 with a minimum grade of C. (QSR,MS)
MATH &151  CALCULUS I (5)
This course looks at the study of functions, limits, continuity, limits at infinity, differentiation of algebraic, exponential, logarithmic, and trigonometric functions and their inverses, and applications. Graphing calculator required. Prerequisites: MATH& 142 with a minimum grade of C. (QSR,MS)

MATH &152  CALCULUS II (5)
The study of Riemann Sums, methods of integration, numerical methods, polar and rectangular forms, fundamental theorem of Calculus, areas of regions, volumes of solids, centroids, length of curves, surface area, and an introduction to differential equations. Graphing calculator required. Prerequisite: MATH& 151 with a minimum grade of C. (QSR,MS)

MATH& 163  CALCULUS III (5)
Multivariate integral and differential calculus. Geometry in R3 and in the plane. The study of vectors, acceleration, curvature; functions of several variables, partial derivatives; directional derivatives and gradients; extreme values; double and triple integrals; applications. Graphing calculator required. Prerequisite: MATH& 152 with a minimum grade of C. (QSR,MS)

MATH 204  INTRODUCTION TO LINEAR ALGEBRA (5)
Elementary study of the fundamentals of linear algebra. Course is intended for stronger math or science students. Course to include the study of systems of linear equations; matrices; n-dimensional vector space; linear independence, bases, subspaces and dimension. Introduction to determinants and the eigenvalue problem; applications. Graphing calculator required. Prerequisite: MATH& 151 with a minimum grade of C. (QSR,MS)

MATH 207  TAYLOR SERIES (1)
Introduction to the derivation and uses of Taylor Series, intended for math and science majors. The course includes a discussion of error bounds in approximating curves with polynomials, Taylor polynomials, Taylor series expansion, and intervals of convergence. Graphing calculator required. Prerequisite: MATH& 152 with a minimum grade of C. (LE)

MATH 208  SEQUENCES AND SERIES (3)
A course in the techniques of working with infinite sequences and series, intended for math and science majors. The course includes limits of sequences, subsequences, series, alternating series, absolute and conditional convergence, power series, Taylor and Maclaurin series, Fourier series, applications. Graphing calculator is required. Prerequisite: MATH& 151 with a minimum grade of C. (QSR,MS)

MATH 238  INTRODUCTION TO DIFFERENTIAL EQUATIONS (5)
Introductory course in differential equations. Topics include first and higher order linear equations, power series solutions, systems of first order equations, numerical methods, La Place transforms, applications. Graphing calculator required. Prerequisite: MATH& 152 with a minimum grade of C. (QSR)

MATH& 264  CALCULUS IV (5)
This is the second quarter of multivariable calculus. Topics include multiple integration in different coordinate systems, the gradient, the divergence, and the curl of a vector field. Also covered are line and surface integrals, Green’s Theorem, Stoke’s Theorem and Gauss’ Theorem. Prerequisite: MATH& 163 with a minimum grade of C. (QSR,MS)

MATH 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced levels of knowledge of a topic in Math. Required preparation: acceptance into the Honors Program. (QSR,MS)

MT  MASSAGE THERAPY

MT 105  BUSINESS PRACTICES FOR MASSAGE PRACTITIONERS (3)
Introduction to legal and ethical issues within the healthcare system; ethical problem-solving methods for use within the massage profession specifically. Required preparation: program admittance. (UE)

MT 105  ETHICAL & LEGAL ISSUES FOR MASSAGE PRACTITIONERS (3)
Introduction to legal and ethical issues within the healthcare system; ethical problem-solving methods for use within the massage profession specifically. Required preparation: program admittance. (UE)

MT 110  MASSAGE THERAPY I (7)
Introduction to history, theory and technique of Swedish massage. Students will learn to provide full and partial body massages; including proper draping techniques,
body mechanics, beginning documentation skills, as well as adaptations for geriatric massage. Development of fundamental qualities of touch. Required preparation: program admittance. (UE)

MT 111 MASSAGE THERAPY II (7)

MT 112 MASSAGE THERAPY III (7)
Continued application of Swedish, deep tissue, and hydrotherapy treatment techniques. Introduction to alternate massage therapy techniques, and Eastern Medicine philosophies. Further development of documentation skills. Orientation to a variety of healthcare professionals and roles within the healthcare setting. Required preparation: program admittance; MT 111. (UE)

MT 202 KINESIOLOGY FOR MASSAGE PRACTITIONERS (4)
Introduction to kinesiology with emphasis on the functional application and analysis of the musculoskeletal system, including palpation techniques. Required preparation: program admittance. (UE)

MT 202 KINESIOLOGY I FOR MASSAGE PRACTITIONERS (4)
Introduction to kinesiology with emphasis on the functional application and analysis of the musculoskeletal system, including palpation techniques. Required preparation: program admittance. (UE)

MT 203 KINESIOLOGY II FOR MASSAGE PRACTITIONERS (2)
Application of kinesiological principles of the musculoskeletal system to massage practice. Includes palpation and Swedish gymnastics as applicable to the upper extremity, head and neck. Required preparation: program admittance; MT 202. (UE)

MT 204 KINESIOLOGY III FOR MASSAGE PRACTITIONERS (2)
Application of kinesiological principles of the musculoskeletal system to massage practice. Includes palpation and Swedish gymnastics as applicable to the lower extremity and lumbar spine. Required preparation: program admittance; MT 203. (UE)

MT 205 BUSINESS APPLICATIONS FOR MASSAGE PRACTITIONERS (3)
Introduction to basic business applications for massage practitioners. Includes billing, marketing, business plans and financial considerations. Student will develop a business plan as part of the course requirements. Required preparation: program admittance; MT 250. (UE)

MT 230 MASSAGE APPLICATIONS: ORTHOPEDIC TREATMENT (8)
Advanced training in the theories and techniques of treating orthopedic soft tissue conditions with massage. Emphasis on accurate assessment of conditions and the most effective massage treatments to provide client relief. Required preparation: program admittance; MT 112 and permission of instructor. (UE)

MT 235 MASSAGE APPLICATIONS: WELLNESS TREATMENT (8)
Advanced training in the theories and techniques of massage as used in a Spa, or Wellness center. Emphasis on spa treatments that can be performed in a dry-room setting, including Aromatherapy, Hot Stone Massage, Scrubs, and Wraps. Required preparation: program admittance; MT 112 and permission of instructor. (UE)

MT 240 PREPARATION FOR MASSAGE LICENSING (2)
Overview of content needed to prepare for Washington State licensing and national certification for massage practitioners. Resume and interview skills as part of an employment search process. Required preparation: program admittance; MT 250. (UE)

MT 250 STUDENT CLINIC (2)
Supervised practice of all massage techniques on clients within the student clinic setting. Student will work with the college instructor to set up an appropriate schedule to complete hours in the on-campus student clinic. Experience in documentation and other aspects of the massage practice will be given. Required preparation: program admittance. (UE)

MT 260 CLINICAL EXTERNSHIP (1)
Supervised practice of all massage techniques on clients within the clinical setting. Student will work with the college instructor to setup an appropriate placement in an off-site setting. Experience in documentation and other
aspects of the massage practice will be given. Students must pass all competencies in order to graduate from the massage therapy program. S/U grading. Required preparation: program admittance; MT 112 and concurrent enrollment in MT 202. (UE)

MT 271 ANATOMY/PATHOPHYSIOLOGY I-MASSAGE PRACTITIONERS (3)
Basic overview of systems of human anatomy, and the disturbance of normal mechanical, physical, and biochemical functions of those systems. Special emphasis will be placed on the role of the massage practitioner in the treatment and recovery of these conditions, as well as indications and contraindications. Part one of a two part course. Required preparation: program admittance. (UE)

MT 272 ANATOMY/PATHOPHYSIOLOGY II-MASSAGE PRACTITIONERS (3)
Basic overview of systems of human anatomy, and the disturbance of normal mechanical, physical, and biochemical functions of those systems. Special emphasis will be placed on the role of the massage practitioner in the treatment and recovery of these conditions, as well as indications and contraindications. Part two of a two part course. Required preparation: program admittance; MT 271. (UE)

MUSC MUSIC

MUSC& 105 MUSIC APPRECIATION (5)
An introduction to the art of listening through the study of the principal genres, forms, and composers of the Western tradition. The course examines societal influences on music throughout history in addition to the current issues in music and art. Open to all students. (Hg)

MUSC 110 INTRODUCTION TO WORLD MUSIC (5)
An introduction to the traditional music of the world’s peoples. Focus is on the purposes/roles of music, musical characteristics, and cross-cultural influences within each culture studied including traditions from the Middle East, Asia, Africa, Latin America, and the Pacific Islands. Open to all students. (Hg)

MUSC 115 SURVEY OF AMERICAN MUSIC (5)
An overview of musical styles in the United States from the colonial period to the present. American art, music and popular genres (jazz, Tin Pan Alley, Broadway musicals, country, rock styles) will be examined in a historical, social, and stylistic context. Native American music will also be examined. (Hd)

MUSC& 141 MUSIC THEORY I (5)
Progressive study of traditional and contemporary techniques of musical form. Keyboard ability, aural perception and analysis of musical composition are integrated with introductory studies of harmony and counterpoint. Cultural motifs unique in music are followed to their place of origin and studied in a global perspective. (Hg)

MUSC& 142 MUSIC THEORY II (5)
Progressive study of traditional and contemporary techniques of musical form. Keyboard ability, aural perception and analysis of musical composition are integrated with intermediate studies of harmony and counterpoint. Cultural motifs unique in music are followed to their place of origin and studied in a global perspective. Prerequisite: MUSC& 141. (Hg)

MUSC& 143 MUSIC THEORY III (5)
Progressive study of traditional and contemporary techniques of musical form. Keyboard ability, aural perception and analysis of musical composition are integrated with intermediate studies of harmony and counterpoint. Cultural motifs unique in music are followed to their place of origin and studied in a global perspective. Prerequisite: MUSC& 142. (Hg)

MUSC 156 INTRODUCTION TO DIGITAL AUDIO TECHNOLOGY (4)
Introduction to the basic operation and techniques of digital audio software through projects involving mixing, sequencing and music production. Development of critical listening skills to better understand creative expression through recorded music. (LE)

MUSC 160 CLASS PIANO I (2)
This course introduces fundamentals of piano technique, repertoire, and musical literacy. Scales, modes and melody will be explored alongside elementary keyboard harmony. Working at digital pianos, this course is paced both for students beginning musical studies and for musicians active in other areas but new to the keyboard. (LE)

MUSC 161 CLASS PIANO II (2)
This course continues progressive study of piano technique, repertoire, and musical literacy. A balance of classical and jazz genres will be introduced with principles of fingering, interpretation of chord symbols and the
experience of performance in ensembles. Prerequisite: MUSC 160. (LE)

MUSC 162 CLASS PIANO III (2)
Concepts of harmony, transposition, improvisation, and composition will be developed at the keyboard. Repertoire will be expanded with an individual portfolio of audition pieces in varied genres compiled for each student. Performance abilities will be demonstrated through interactive ensemble playing. Prerequisite: MUSC 161. (LE)

MUSC 163 CLASS VOICE (2)
This class will teach students the theory and practice which form the basic singing skills of vocal production, sight singing, and repertoire preparation. This includes vocal anatomy, breathing exercises, vocalism, tone production, vowel and consonant production and modification, resonance, vocal registers, repertoire selection, and vocally healthy speaking and singing habits. (LE)

MUSC 165 COLLEGIATE CHOIR I (2)
Study and performance of representative compositions from the Western choral tradition, from other world cultures, and from popular genres (folk, jazz). Students will explore vocal technique and basic musicianship skills. Attendance at all performances, on and off campus, is required. Open to all students. (LE)

MUSC 166 COLLEGIATE CHOIR II (2)
Study and performance of representative compositions from the Western choral tradition, from other world cultures, and from popular genres (folk, jazz). Students will explore vocal technique and basic musicianship skills. Attendance at all performances, on and off campus, is required. Prerequisite: MUSC 165. (LE)

MUSC 167 COLLEGIATE CHOIR III (2)
Study and performance of representative compositions from the Western choral tradition, from other world cultures, and from popular genres (folk, jazz). Students will explore vocal technique and basic musicianship skills with the option to pursue solo and small ensemble literature. Attendance at all performances, on and off campus, is required. Prerequisite: MUSC 166. (LE)

MUSC 171 BEGINNING GUITAR (2)
An introductory course in guitar intended for students with little or no background. Students will learn basic techniques, repertoire in a variety of genres, and music fundamentals. A study of guitar literature and history will also be included. The course will combine large group, small group, and individual instruction. Acoustic guitar is required and Nylon strings are preferred. (LE)

MUSC 172 INTERMEDIATE GUITAR (2)
This course builds on the skills acquired in MUSC 171, Beginning Guitar. Students will expand techniques and study music in a variety of styles including classical, flamenco, finger style, blues, jazz, and folk. Students will continue their study of music theory, literature, and performers. Songwriting skills will be explored. Acoustic guitar is required and nylon strings preferred. Prerequisite: MUSC 171. (LE)

MUSC 175 JAZZ BAND I (2)
Rehearsal, study, and performance of jazz styles from the “big band” era to the present, including Afro-Cuban and other Latin genres. Attendance at all performances, on and off campus, is required. Required preparation: auditions may be required if a section of the band is filled beyond capacity. (LE)

MUSC 176 JAZZ BAND II (2)
Rehearsal, study, and performance of jazz styles from the “big band” era to the present, including Afro-Cuban and other Latin genres. Improvisation skills will be explored. Attendance at all performances, on and off campus, is required. Prerequisite: MUSC 175, auditions may be required if a section of the band is filled beyond capacity. (LE)

MUSC 177 JAZZ BAND III (2)
Rehearsal, study, and performance of jazz styles from the “big band” era to the present, including Afro-Cuban and other Latin genres. Continued study of improvisation. Attendance at all performances, on and off campus, is required. Prerequisite: MUSC 176, auditions may be required if a section of the band is filled beyond capacity. (LE)

MUSC 186 CONTEMPORARY MUSIC ENSEMBLE I (2)
Musical rehearsal and performance in small instrumental groups, including strings, brass, woodwinds, keyboard and percussion. Skills developed will include the study of rehearsal and performance techniques, basic improvisation, and reading and interpreting musical scores, while exploring contemporary genres. (LE)

MUSC 187 CONTEMPORARY MUSIC ENSEMBLE II (2)
Musical rehearsal and performance in small instrumental groups, including strings, brass, woodwinds, keyboard
and percussion. Skills developed will include the application of rehearsal and performance techniques, idiomatic improvisation, and reading and interpreting musical scores, while exploring contemporary genres. Prerequisite: MUSC 186 with a minimum grade of C or permission of instructor. (LE)

**MUSC 188 CONTEMPORARY MUSIC ENSEMBLE III (2)**
Musical rehearsal and performance in small instrumental groups, including strings, brass, woodwinds, keyboard and percussion. Skills developed will include using rehearsal and performance techniques to lead an ensemble, non-idiomatic improvisation, and reading and interpreting musical scores, while exploring contemporary genres. Prerequisite: MUSC 187 with a minimum grade of C or permission of instructor. (LE)

**MUSC 211 MUSIC OF THE MEDIEVAL, RENAISSANCE AND BAROQUE (5)**
Study of the development of Western music from origins to the 17th century, including composers, works, styles and forms as well as significant concepts and issues. Prerequisite: placement in ENGL& 101 and any 100-level MUSIC course with a minimum grade of C. (Hwg)

**MUSC 212 MUSIC OF THE CLASSIC AND ROMANTIC ERAS (5)**
Study of the development of Western music in the 18th and 19th centuries, including composers, works, styles and forms as well as significant concepts and issues. Prerequisite: placement in ENGL& 101 and any 100-level MUSIC course with a minimum grade of C. (Hwg)

**MUSC 213 MUSIC OF THE TWENTIETH CENTURY (5)**
Study of the development of Western music from the early 20th century to the present, including composers, works, styles and forms as well as significant concepts and issues. Prerequisite: placement in ENGL&101 and any 100-level MUSIC course with a minimum grade of C. (Hwg)

**MUSC 265 CHAMBER CHOIR I (2)**
Upper level choral ensemble. Entrance by audition. Expand vocal technique and sight singing skill. Participation in college and community performances. Required preparation: MUSC 165, 166, or 167; auditions required. (LE)

**MUSC 266 CHAMBER CHOIR II (2)**
Upper level choral ensemble. Entrance by audition. Expand vocal technique and sight singing skills.

Participation in college and community performances. Required preparation: MUSC 265; auditions required. (LE)

**MUSC 267 CHAMBER CHOIR III (2)**
Upper level choral ensemble. Entrance by audition. Expand vocal technique and sight singing skill. Almost entirely a capella music, refining choral ensemble singing. Participation in college and community performances. Required preparation: MUSC 266; auditions required. (LE)

**MUSC 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Music. Required preparation: acceptance into the Honors Program. (H)

**NURS NURSING**

**NURS 100 NURSING ASSISTANT (8)**
This comprehensive training course prepares students to take the state Nursing Assistant Certification exam, and provides awareness of the role of the nursing assistant in nursing care. The certification exam and the exam fee are not included in this course. A background check and PPD (Tuberculosis test) are required for clinicals. Recommended preparation: assessment into ENGL 95 or higher and admission into NAC program required. (UE)

**NURS 160 INTRODUCTION TO PHARMACOLOGY CONCEPTS (2)**
Course is a concept-based approach for the beginning nursing student. An overview of the principles of pharmacology and the major classifications of pharmaceuticals commonly used in nursing and medical practice. Recommended Preparation: ANTH& 235. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 161. (UE)

**NURS 161 INTRODUCTION TO NURSING CONCEPTS WITH PRACTICUM (12)**
Introduces concepts within the three domains of nursing practice: individual, nursing, and healthcare at a basic level. Course focus is basic nursing assessment and skills building. Introduces the nursing process to begin development of clinical judgment. Health across the lifespan and comprehensive physical assessment are emphasized. Recommended preparation: ANTH& 235. Required preparation: program admittance. Concurrent enrollment in NURS 160. (UE)
NURS 162  NURSING CONCEPTS WITH PRACTICUM I (12)
Course focus is strengthening nursing assessment and continued basic skills building. Continues building on the concepts introduced in previous course. Introduces new concepts related to the individual, nursing, and health care domains at a basic level. Prerequisite: minimum grade of C in both NURS 160 & NURS 161. (UE)

NURS 163  NURSING CONCEPTS WITH PRACTICUM II (12)
Course focus is refining nursing assessment and continued basic skills building, Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an intermediate level. Prerequisite: minimum grade of C in NURS 162. (UE)

NURS 170  INTRODUCTION TO PHARMACOLOGY CONCEPTS (2)
Course is a concept-based approach for the beginning nursing student. An overview of the principles of pharmacology and the major classifications of pharmaceuticals commonly used in nursing and medical practice. Recommended Preparation: ANTH& 235. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 171. (UE)

NURS 171  INTRODUCTION TO NURSING CONCEPTS WITH PRACTICUM (9)
Introduces concepts within the three domains of nursing practice: individual, nursing, and healthcare at a basic level. Course focus is basic nursing assessment and skills building. Introduces the nursing process to begin development of clinical judgment. Health across the lifespan and comprehensive physical assessment are emphasized. Recommended preparation: ANTH& 235. Required preparation: program admittance. Concurrent enrollment in NURS 170. (UE)

NURS 172  NURSING CONCEPTS WITH PRACTICUM I (10)
Course focus is strengthening nursing assessment and continued basic skills building. Continues building on the concepts introduced in previous course. Introduces new concepts related to the individual, nursing, and health care domains at a basic level. Prerequisite: minimum grade of C in both NURS 170 & NURS 171. (UE)

NURS 173  NURSING CONCEPTS WITH PRACTICUM II (9)
Course focus is refining nursing assessment and continued basic skills building, Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an intermediate level. Prerequisite: minimum grade of C in NURS 172. (UE)

NURS 261  NURSING CONCEPTS WITH PRACTICUM III (12)
Course focus is on the nursing care of individuals experiencing complex medical conditions of an acute or chronic nature. Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an intermediate level. Prerequisite: minimum grade of C in NURS 163. (UE)

NURS 262  NURSING CONCEPTS WITH PRACTICUM IV (12)
Focus on the nursing care of individuals experiencing complex alterations in the childbearing process, the acute respiratory and cardiovascular systems, and the endocrine system, including diabetic complications and emergencies. Includes content related to emergent mental health nursing and client/family violence. Integrates pharmacology, nutrition, health-teaching, and legal/ethical aspects of nursing. Prerequisite: minimum grade of C in NURS 261. (UE)

NURS 263  NURSING CONCEPTS WITH PRACTICUM V (12)
Course focus is on the transition to nursing practice. Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an advanced level. Includes 120' preceptorship experience. Prerequisite: minimum grade of C in NURS 262. (UE)

NURS 271  NURSING CONCEPTS WITH PRACTICUM III (9)
Course focus is on the nursing care of individuals experiencing complex medical conditions of an acute or chronic nature. Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an intermediate level. Prerequisite: minimum grade of C in NURS 173. (UE)
NURS 272  NURSING CONCEPTS WITH PRACTICUM IV (10)
The course focus is on the nursing care of individuals experiencing complex medical conditions of an acute or chronic nature. Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an intermediate level. Prerequisite: minimum grade of C in NURS 271. (UE)

NURS 273  NURSING CONCEPTS WITH PRACTICUM V (11)
Course focus is on the transition to nursing practice. Continues building on the concepts introduced in previous courses. Introduces new concepts related to the individual, nursing, and health care domains at an advanced level. Includes 120' preceptorship experience. Prerequisite: minimum grade of C in NURS 272. (UE)

NUTR 101  NUTRITION (5)
This course concentrates on both the cellular and organismal effects of human nutrition. Cellular structure, energy needs, genetic predisposition, exercise and overall organismal nutritional needs will be addressed. (MS)

NUTR 114  NUTRITION IN HEALTHCARE I (1)
An introduction to nutritional concepts in healthcare to establish a foundation to examine the scientific, social, economic, cultural, ethnic and psychological implications of nutrition in relation to health across the lifespan and in the context of healthcare professions. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 171. (MS)

NUTR 115  NUTRITION IN HEALTHCARE II (1)
Examines the scientific, social, economic, cultural, ethnic, and psychological implications of nutrition in relation to selected health issues across the lifespan and in the context of healthcare professions at a beginner level. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 171. (MS)

NUTR 116  NUTRITION IN HEALTHCARE III (1)
Examines the scientific, social, economic, cultural, ethnic, and psychological implications of nutrition in relation to selected health issues across the lifespan and in the context of healthcare professions, expands on NUTR 115. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 172. (MS)

NUTR 117  NUTRITION IN HEALTHCARE IV (1)
Examines the scientific, social, economic, cultural, ethnic, and psychological implications of nutrition in relation to selected health issues across the lifespan and in the context of healthcare professions, expands on NUTR 115 & 116. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 173. (MS)

NUTR 214  NUTRITION IN HEALTHCARE V (1)
Examines the scientific, social, economic, cultural, ethnic, and psychological implications of nutrition in relation to selected health issues across the lifespan and in the context of healthcare professions, expands on NURS 115, 116, & 117. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 271. (MS)

OCEA 101  INTRODUCTION TO OCEANOGRAPHY W/LAB (5)
Formerly GEOL 135. Study of plate tectonics, ocean currents, waves, tides, the coastal ocean, marine topography, marine sediment, landforms, marine life, ocean pollution, and ocean resources. Lab work and field trips included. (MSI)

OFFAD 100  BEGINNING KEYBOARDING (2)
Basic course covering the touch system on the keyboard, with a speed goal of 20-30 wpm, using a computer. Instruction on the use of numbers, letters, and symbols. No previous keyboarding experience needed. S/U grading. Recommended preparation: ESLA 115. (UE)

OFFAD 104  KEYBOARDING FOR SPEED AND ACCURACY I (2)
Includes review of proper typing techniques. Intensive practice on computer keyboard to build speed and accuracy from any skill level. S/U grading. Prerequisite: OFFAD 100 with an S grade or keyboarding test. Recommended preparation: ESLA 115. (UE)

OFFAD 105  RECORDS MANAGEMENT (3)
Introductory course stressing managerial considerations and systems thinking. Records organization, updating, processing, and retrieval are investigated. Recommended preparation: placement in ENGL& 101. (UE)
OFFAD 150 OFFICE PROCEDURES (5)
This course introduces a variety of practical skills, knowledge, and abilities required for effectively completing daily office tasks, including time management, filing, reception, formatting interoffice memos and correspondence, basic business research, travel and meeting planning, selecting, ordering and maintaining office supplies and equipment, understanding business terminology, processing mail, and effective use of phone, fax, and email. Recommended preparation: ENGL& 101. (UE)

OFFAD 154 INTRODUCTION TO LOGISTICS (5)
This course studies the functions, characteristics, advantages and limitations of each type of transportation; major aspects of international transportation, import and export; the role of transportation companies in the US and World economy; an overview of documentation, law and regulations; sustainable and environmental issues related to transportation; and exploration of employment and career opportunities. Recommended preparation: BIS 101. (UEs)

OFFAD 160 OFFICE MANAGEMENT (5)
This is a comprehensive course covering business organization and relationships; supervisory styles and responsibilities; employee/employer relations; office systems analysis, including work measurement, standards, and simplification; scheduling and managing multiple priorities; budgeting; advanced meeting planning; managing reprographics and mail services; and managing the office environment. Recommended preparation: ENGL& 101. (UE)

PARED 103 BEHAVIOR AND DIVERSITY (1 OR 3)
Students are introduced to guidance techniques in parenting, diversity and contemporary issues involving families. (UEd)

PARED 104 SAFETY AND DEVELOPMENTALLY APPROPRIATE PRACTICES (1 OR 3)
This course is for parents/caregivers. Parents attend parenting education lectures that help them apply safety and developmentally appropriate practices. (UE)

PARED 105 CHILDHOOD DEVELOPMENT AND DIVERSITY (1 OR 3)
Parents examine social and cultural influences on parenting practices and explore childhood development. (UE)

PARED 106 GUIDANCE TECHNIQUES AND FAMILY RESOURCES (1 OR 3)
Parents assess resources for family support and practice positive and effective guidance techniques. (UE)

PARED 110 PARENTING PRESCHOOLERS (2)
This online course covers child development in 3-5 year olds, including emotional, social, physical, cognitive, and language. The following parenting topics will be covered; positive communication, guidance, temperament, identity, health and safety, learning environments, routines, difficult topics, and stress. (UE)

PE 102 STRENGTH TRAINING (2)
Activity and theory based course introducing the concept and benefits of strength exercise. (LE)

PE 103 CARDIOVASCULAR CONDITIONING I (2)
Designed to enlist lecture, written and active learning modes to explore and enhance both aerobic and flexibility fitness. Relationship of aerobic and flexibility fitness to overall health and fitness level will be explored. Recommended preparation: ability to engage in vigorous exercise. (LE)

PE 105 FUNCTIONAL FITNESS (2)
Through lecture, demonstration, and participation this course introduces students to the application of high intensity functional fitness and to basic muscle anatomy and physiology. Students learn and practice proper execution of functional movements over a range of
intensities and improve joint range of motion through active mobilization techniques. Students with existing injuries should consult their doctor prior to enrollment. (LE)

PE 106 BASKETBALL SKILLS AND RULES (2)
Analysis of the skills needed for intercollegiate basketball. Current officiating rules covered. (LE)

PE 108 YOGA (1)
Instruction, practice and exploration of yoga incorporating several influences including the iyengar method. Includes introduction to yoga postures, vinyasa (uninterrupted flow of yoga postures), breathing/relaxation techniques and home practice. Emphasis on postural alignment for safe yoga practice that promotes whole body awareness of balance, strength, flexibility, relaxation and breath awareness. (LE)

PE 109 INTRODUCTION TO PILATES (1)
This course will explore basic Pilates exercises in order to gain better posture, core stability, joint mobility and overall muscular strength. (LE)

PE 123 VOLLEYBALL SKILLS AND RULES (2)
This course is designed to complement the practice, game and conditioning elements of intercollegiate volleyball. Requires the students to observe, participate and implement strategies surrounding the philosophy and rules of the game. Required preparation: permission of instructor. (LE)

PE 126 INTRODUCTION TO HIKING (1)
This course is intended to serve as an introduction to day hiking. Course will cover basic concepts and will apply these concepts in the field. Required preparation: must have ability to engage in strenuous exercise. (LE)

PE 133 INTRODUCTION TO ATHLETIC TRAINING (3)
An introduction to the profession of Athletic Training with concentration on the role/function of an Athletic Therapist/Trainer, human anatomy, human physiology, injury description and injury recognition. (LE)

PE 135 ULTIMATE FRISBEE TECHNIQUES (1)
The course is designed to expose students to the many aspects of ultimate frisbee. Techniques, strategies and rules will make up the curriculum. Cleats are highly recommended. (LE)

PE 136 INTRODUCTION TO SOCCER TECHNIQUES (1)
The course is designed to expose students to the many aspects of basic soccer. Techniques, strategies and rules will comprise the curriculum. Cleats and/or turf shoes are highly recommended. (LE)

PE 138 INTRODUCTION TO FLAG FOOTBALL (1)
Individual and team aspects of flag football. Students will learn the concepts of offensive and defensive team play and strategy. Students will learn rules and various drills specific to the sport, and demonstrate appropriate sportsmanship. (LE)

PE 139 ZUMBA (1)
This fitness class provides a Latin-inspired aerobic-dance workout which incorporates upbeat music with choreographed footwork and arm movement. This is a fun way to workout, burn calories, and relieve stress. No dance experience required. (LE)

PE 141 INTRODUCTION TO TAI CHI (1)
This course is an introduction to Tai Chi. It is designed to expose students to the basic principles of proper body mechanics, balance, flexibility, fluidity, strength and relaxation during movement. (LE)

PE 146 SOCCER SKILLS AND RULES (2)
Analysis of the skills needed for intercollegiate soccer. Current officiating rules covered. Required Preparation: Permission of instructor. (LE)

PE 153 INTRODUCTION TO PERSONAL FITNESS (2)
Comprehensive course designed for the student actively participating in a fitness program. Students will determine individual goals to be reached by the end of the quarter. Topics include strength, fitness, health, and body composition. Class format is both lecture and active participation. Prerequisite: PE 102 or PE 103 or currently participating in an exercise program. (LE)

PE 157 YOGA II (1)
This course expands on the fundamentals of yoga. Course includes intermediate poses, the Yoga Sutras, the 5 sheath model, Chakra energy system, Sanskrit terminology, and breathing techniques. Recommended preparation: PE 108 or concurrent enrollment in PE 108 or previous yoga experience. (LE)
PE 158 RACQUET SPORTS (1)
This course is designed to introduce and improve participation in racquet sports as lifetime activities. This course requires students to participate and implement strategies and rules of various racquet sports. (LE)

PE 170 BASKETBALL TECHNIQUES (1)
Introduces techniques and strategies of basketball. Topics include offensive and defensive play as well as personal skill development. (LE)

PE 181 HEALTH AND WELLNESS (3)
Health and wellness explores physical and emotional health and wellness topics, such as stress reduction, proper nutrition, and physical fitness. Students will examine major health and lifestyle issues of contemporary society and will participate in personal assessments and develop a wellness plan. (LE)

PE 202 ADVANCED STRENGTH TRAINING (2)
A class in which students will gain greater proficiency and capability in strength training. Exercise theory will include the concept of relative intensity and periodization in obtaining high levels of strength adaptation. Prerequisite: PE 102 or permission of instructor. (LE)

PE 202 STRENGTH TRAINING II (2)
A class in which students will gain greater proficiency and capability in strength training. Exercise theory will include the concept of relative intensity and periodization in obtaining high levels of strength adaptation. Prerequisite: PE 102 or permission of instructor. (LE)

PE 203 ADVANCED CARDIOVASCULAR CONDITIONING (2)
Students will experience five metabolic pathways that will assess and challenge them from anaerobic to aerobic capabilities. Each student’s work capacity will be evaluated and programs will be determined for enhanced capacity. Students will evaluate exercise methodologies as they relate to anaerobic and aerobic metabolism. Prerequisite: PE 103 or permission of instructor. (LE)

PE 203 CARDIOVASCULAR CONDITIONING II (2)
Students will experience five metabolic pathways that will assess and challenge them from anaerobic to aerobic capabilities. Each student’s work capacity will be evaluated and programs will be determined for enhanced capacity. Students will evaluate exercise methodologies as they relate to anaerobic and aerobic metabolism. Prerequisite: PE 103 or permission of instructor. (LE)

PE 206 ADVANCED BASKETBALL SKILLS AND RULES (2)
In depth analysis of the skills needed for intercollegiate basketball. Officiating rules covered at the NCAA level. (LE)

PE 223 ADVANCED VOLLEYBALL SKILLS AND RULES (2)
In-depth analysis of the practice, game and conditioning elements of intercollegiate volleyball. Requires the students to observe, participate and implement strategies surrounding the philosophy and rules of the game. Required preparation: permission of instructor. (LE)

PE 241 INTERMEDIATE TAI CHI (1)
This course expands on the fundamentals of Tai Chi. It is designed to continue the study of proper body mechanics, balance, flexibility, fluidity, strength and relaxation during movement. The first set of Tai Chi will be reviewed and the second set of long form Tai Chi will be introduced. Prerequisite: PE 141. (LE)

PE 246 SOCCER SKILLS AND RULES II (2)
In depth analysis of the skills needed for intercollegiate soccer. Officiating rules covered at the NCAA level. Required preparation: permission of instructor. (LE)

PE 269 SPORTS PERFORMANCE (2)
Correlates all aspects of intercollegiate team sports, including conditioning, nutrition, and application of team sports concepts and techniques. Includes observation, participation, and implementation of strategies surrounding the rules and techniques of various team sports. Also, includes strength training/conditioning specific to team sports. Required preparation: permission of instructor. (LE)

PE 270 ADVANCED CONDITIONING FOR BASKETBALL I (2)
Advanced skill acquisition and conditioning for competition. Combines aspects of advanced skill training with specific conditioning exercises required for advanced level of play. Required preparation: PE 170 and permission of instructor. (LE)

PE 271 ADVANCED CONDITIONING FOR BASKETBALL II (2)
Designed to prepare students through advanced skill acquisition and conditioning for higher levels of competition. Combines the aspects of advanced skill training with specific conditioning exercises required for advanced levels of play. Required preparation: PE 270 and permission of instructor. (LE)
PHIL PHILOSOPHY

PHIL& 101 INTRODUCTION TO PHILOSOPHY (5)
Introduction to the problems, history and nature of philosophy with reading and discussion of selected writings from the Pre-Socrates to the present, focusing on traditional Western philosophical issues. (Hg)

PHIL& 115 CRITICAL THINKING (3 OR 5)
Critical thinking ability is highly valued among employers. This course introduces you to sound reasoning principles used in daily life. Covers informal, non-symbolic introduction to logic with emphasis on real-life examples. Students learn how to critically evaluate their own reasoning and how to construct arguments. (H)

PHIL& 117 TRADITIONAL LOGIC (5)
Investigation of systems of formal logic with emphasis on symbolic reasoning. Prerequisite: MATH 99 with a minimum grade of C. (QSR)

PHIL 118 ETHICS AND POLICY IN HEALTHCARE I (1)
An introduction to the exploration of values, ethics, and legal decision-making frameworks and policies used to support the well-being of people and groups within the context of healthcare professions. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 171. (H)

PHIL 119 ETHICS AND POLICY IN HEALTHCARE II (1)
Explores values, ethics, and legal decision-making frameworks and selected policies used to support the well-being of people and groups within the context of healthcare professions at a beginner level. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 173. (H)

PHIL 130 INTRODUCTION TO ETHICS (5)
An ethical examination of contemporary controversial issues such as the nature of liberty, the death penalty, capitalism and communism, abortion, animal rights and environmental ethics. (H)

PHIL 132 ENVIRONMENTAL ETHICS (5)
How humanity conceives of its environment is central to an understanding of how humans should act and think of themselves as part of planet Earth. Topics to be covered include: an historical examination of current attitudes and practices, competing religious and cultural perspectives, anthropocentrism, animal rights and ecocentrism. (Hdgs)

PHIL 140 INTRODUCTION TO WORLD RELIGIONS (5)
An investigation of Western and Non-Western religious traditions including the histories and practices of specific traditions and of their differing world views. A general consideration of the role that religion plays in human existence including what has been called the “spiritual dimension”, or “transcendence” of personal needs and desires. Prerequisite: placement in ENGL& 101. (Hwdg)

PHIL 200 PHILOSOPHY OF RELIGION (5)
Covers traditional Western issues and problems such as the nature of theism, arguments for the existence of God, the problem of evil, religious plurality and exclusivism, fideism, agnosticism and atheism, and death and immortality. Prerequisite: placement in ENGL 101. (H)

PHIL 214 ETHICS AND POLICY IN HEALTHCARE III (1)
Explores values, ethics, and legal decision-making frameworks and policies used to support the well-being of people and groups within the context of healthcare professions, expands on PHIL 119. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 271. (H)

PHIL 215 ETHICS AND POLICY IN HEALTHCARE IV (1)
Explores values, ethics, and legal decision-making frameworks and policies used to support the well-being of people and groups within the context of healthcare professions, expands on PHIL 214. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 272. (H)

PHIL 216 ETHICS AND POLICY IN HEALTHCARE V (1)
Explores values, ethics, and legal decision-making frameworks and policies used to support the well-being of people and groups within the context of healthcare professions, expands on PHIL 215. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 273. (H)

PHIL 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Philosophy. Required preparation: acceptance into the Honors Program. (H)
<table>
<thead>
<tr>
<th>COURSE</th>
<th>TITLE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 301</td>
<td>PROFESSIONAL ETHICS (5)</td>
<td>This course examines ethical principles and moral or ethical problems that arise in a business environment. Upon successful completion of the course, students will be able to apply the codes of conduct, professional responsibilities and regulatory aspects associated with common professional business. Prerequisite: program admittance or permission of BAS program coordinator. (LE)</td>
</tr>
<tr>
<td>PHYS 109</td>
<td>ENERGY: USE AND CONSEQUENCES (5)</td>
<td>Conceptual introduction to physics principles relative to energy conversion including oil, hydroelectric, electricity generation, nuclear, fossil fuel, and alternative fuel sources. Elementary mechanics, thermodynamics and environmental impacts will be considered. Recommended preparation: MATH 098. (MSls)</td>
</tr>
<tr>
<td>PHYS&amp; 110</td>
<td>PHYSICS FOR NON-SCIENCE MAJORS (5)</td>
<td>Formerly PHYS&amp; 100. An introductory, comprehensive survey of the dominant concepts in physics. Emphasis is on conceptual and historical development, rather than quantitative. Topics include Newton’s laws of motion and gravity; energy; theory of electromagnetic waves (light); Einstein’s theories of relativity; model of the atom and quantum physics; nuclear physics and nuclear power. Lab work included. Recommended preparation: MATH 098. (MSl)</td>
</tr>
<tr>
<td>PHYS 112</td>
<td>ENVIRONMENTAL PHYSICS (5)</td>
<td>Introduction to the physical aspects of environmental science. Topics include energy and matter transfers between water, earth and atmospheric systems. Current environmental problems will provide the common themes. Lab work included. Recommended preparation: MATH 098. (MSlgs)</td>
</tr>
<tr>
<td>PHYS&amp; 114</td>
<td>GENERAL PHYSICS I (5)</td>
<td>Formerly PHYS&amp; 121. Introduction to mechanics and physical reasoning strategies and investigation methods for students majoring in technically oriented fields not requiring a calculus based physics course. Newton’s laws, work and energy, kinematics conservation principles. Computer interfaced laboratory investigations, technical writing, problem solving, mathematical reasoning and scientific method of inquiry skills will be emphasized. Prerequisite: MATH&amp; 142 with a minimum grade of C-. (MSl)</td>
</tr>
<tr>
<td>PHYS&amp; 115</td>
<td>GENERAL PHYSICS II (5)</td>
<td>Formerly PHYS&amp; 122. Second course in algebra-trigonometry physics sequence, solids and fluids, introduction to thermodynamics, simple harmonic motion, mechanical waves. Computer interfaced laboratory, technical writing, problem solving, mathematical reasoning, critical thinking skill will be emphasized. Prerequisite: PHYS&amp; 121 or PHYS&amp; 114 with a minimum grade of C-. (MSl)</td>
</tr>
<tr>
<td>PHYS&amp; 116</td>
<td>GENERAL PHYSICS III (5)</td>
<td>Formerly PHYS&amp; 123. Third course in algebra-trig physics sequence. Electricity and magnetism, simple circuits, light and introduction to modern physics. Weekly laboratory work. Prerequisite: PHYS&amp; 122 or PHYS&amp; 115 with a minimum grade of C-. (MSl)</td>
</tr>
<tr>
<td>PHYS&amp; 221</td>
<td>ENGINEERING PHYSICS I (5)</td>
<td>Basic principles of mechanics. Emphasis on critical analysis, interpretation, and problem solving, energy and momentum conservation, rotational motion, static equilibrium. Prerequisite: MATH&amp; 151 with a minimum grade of C-; placement in ENGL&amp; 101; and one college level physics course or a high school physics course. (MSl)</td>
</tr>
<tr>
<td>PHYS&amp; 222</td>
<td>ENGINEERING PHYSICS II (5)</td>
<td>Basic principles of thermodynamics, mechanics of fluids and oscillatory motion, and mechanical waves. Prerequisite: PHYS&amp; 221 and MATH&amp; 152 with a minimum grade of C-; placement in ENGL&amp; 101. (MSl)</td>
</tr>
<tr>
<td>PHYS&amp; 223</td>
<td>ENGINEERING PHYSICS III (5)</td>
<td>Basic principles of electricity and magnetism, waves, optics and atomic structure. Prerequisite: PHYS&amp; 222 with a minimum grade of C-. (MSl)</td>
</tr>
<tr>
<td>PHYS 295</td>
<td>HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)</td>
<td>Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Physics. Required preparation: acceptance into the Honors Program. (M5)</td>
</tr>
<tr>
<td>PHYS&amp; 224</td>
<td>ENGINEERING PHYSICS IV (5)</td>
<td>Basic principles of electricity and magnetism, waves, optics and atomic structure. Prerequisite: PHYS&amp; 222 with a minimum grade of C-. (MSl)</td>
</tr>
<tr>
<td>PHYS 295</td>
<td>HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)</td>

develop critical thinking skills required to pursue scientific understanding of important ideas in physical systems. Not intended for students with prior physical science coursework. Preferred sequence is PHYSC 104, GEOL 104, and BIOL 104. Lab work included. (MSI)

**PHYSC 295  HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Physical Science. Required preparation: acceptance into the Honors Program. (MS)

---

**PLS  PARALEGAL STUDIES**

**PLS 111  INTRODUCTION TO LAW AND THE LEGAL PROCESS (5)**
This course provides students with an overview of the American Legal System, and introduces students to various legal fields and topics. Prerequisite PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment. (UE)

**PLS 112  LAW OFFICE TECHNOLOGY (3)**
This course provides students with an overview of the American Legal System, and introduces students to various legal fields and topics. Prerequisite PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment. (UE)

**PLS 120  CIVIL PROCEDURE AND LITIGATION (5)**
Principles and procedures used in the U. S. Court system with strong emphasis on Washington court rules and case law. Topics include venue, jurisdiction, pleading, discovery and trial, including the administrative process. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101; and recommended preparation: PLS 111 with a minimum grade of C. (UE)

**PLS 125  INDIAN LAW (3)**
This course is an introduction to a variety of legal resources, the use of the law library, and computerized legal research. Focus is on effective legal writing. Designed for law office staff, legal assistants, and Limited License Legal Technicians to develop skills in the process of legal research, writing, and analysis. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment. (UE)

**PLS 127  LEGAL TERMINOLOGY (3)**
This is an introductory course for law office personnel on the definition, use, and spelling of legal terms. Includes Latin-based words generally used in the legal profession. (UE)

**PLS 130  LEGAL INTERVIEW AND INVESTIGATION TECHNIQUES (3)**
Covers interviewing techniques and skills needed to work with clients and witnesses. Includes investigation procedures and a general understanding of the rules of evidence. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101; and recommended preparation: PLS 111 with a minimum grade of C. (UE)

**PLS 151  LAW OFFICE PROCEDURES AND ETHICS (5)**
Designed to help students preparing for or to enhance their careers as paralegals, Limited License Legal Technicians (LLLTC) and legal secretaries. Topics include law office management, non-litigation, and litigation responsibilities. Emphasis on ethics, client interactions, business practices and understanding, formatting, and preparation of legal documents. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment, or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101. (UE)

**PLS 152  INTRO TO LEGAL RESEARCH, WRITING AND ANALYSIS (3 OR 5)**
This course is an introduction to a variety of legal resources, the use of the law library, and computerized legal research. Focus is on effective legal writing. Designed for law office staff, legal assistants, and Limited License Legal Technicians to develop skills in the process of legal research, writing, and analysis. Prerequisite PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101. (UE)
WHATCOM COMMUNITY COLLEGE

PLS 160 ADMINISTRATIVE LAW (3)
This course covers the history of administrative agencies, administrative law procedures, use of expert witnesses, law of evidence, and constitutional limitations of judicial review. Designed for professional practice of paralegal staff and individuals working with law-related agencies. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101; and recommended preparation: PLS 111 with a minimum grade of C. (UE)

PLS 175 CONTRACTS, CONSUMER LAW AND ACCESS TO JUSTICE (3)
This course is an introduction to the principles of contract law. In addition to discussion of the basic substantive law of contracts and consumer law, the course will provide practical information for the paralegal, legal assistant, or Limited License Legal Technician (LLLT) in providing access to justice. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment. (UE)

PLS 185 TORTS (3)
This course is an introduction to the principles of tort law, which is the law of personal injuries. In addition to discussion of the basic substantive law of torts, the course will provide practical information for the paralegal in such areas as the discovery process in tort cases, obtaining medical records, medical releases, and a general overview of the legal assistant's role during a tort case. Prerequisite PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and recommended preparation: placement in ENGL 101. (UE)

PLS 190 COOPERATIVE EDUCATION FOR PARALEGAL STUDIES (1-5)
Designed for PLS students to work in a law office or agency in an internship capacity in order to gain experience in paralegal practice and to learn the daily operations of the office. Recommended preparation: completion of core and paralegal field requirements for paralegal studies degree. (UE)

PLS 191 COOPERATIVE WORK EXPERIENCE SEMINAR (2)
Designed for advanced PLS students to explore the practical, ethical and career issues relevant to the legal profession; to also gain experience in paralegal practice and learn the operations of a legal office. Recommended preparation: completion of PLS degree core requirements. (UE)

PLS 210 LEGAL DOCUMENTS, ADMIN PROCESSES, PROBATE, WILLS (3)
This course will explore and apply Washington state and federal law necessary to prepare legal documents; examine the processes for probate, wills, power of attorney, guardianship, name change, health care legal issues; administrative advocacy for legal financial obligations, medical coverage; and advocacy for clients involved with administrative agencies. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and recommended preparation: PLS 111 and placement in ENGL& 101. (UE)

PLS 220 REAL ESTATE LEGAL PROCEDURES (3)
This course examines the application of legal procedures and requirements in real estate transactions and litigation. Includes drafting of documents and pleadings with emphasis on contracts, closings, deeds, leases, liens, and foreclosures. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101; and recommended preparation: PLS 111. (UE)

PLS 230 CRIMINAL TRIAL PROCEDURE (3)
This course covers the steps of the criminal trial process from first court appearance through pre-trial procedures. Includes plea bargaining, ethical considerations, initial appearance, probable cause, discovery, and pre-trial motions. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101; and recommended preparation: PLS 111. (UE)

PLS 240 FAMILY LAW I (5)
Covers the fundamental issues of family law and providing services to family law clients under attorney supervision or as a Limited License Legal Technician (LLLT) or other non-lawyer practitioner. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122...
with a minimum grade of C or concurrent enrollment; and placement in ENGL& 101; and recommended preparation: PLS 111. (UE)

**PLS 241 FAMILY LAW II (5)**
This course focuses on economic and child custody family law issues and providing services to family law clients supervised by an attorney and as a Limited License Legal Technician (LLLT) or other non-lawyer practitioner. Prerequisite: PLS 240 with a minimum grade of C. (UE)

**PLS 242 FAMILY LAW III (5)**
This course focuses on ethics, social and economic family law issues and providing services while supervised by an attorney or as a Limited License Legal Technician (LLLT) or other non-lawyer practitioner. Prerequisite: PLS 240 with a minimum grade of C. (UE)

**PLS 245 U.S. IMMIGRATION APPLICATIONS AND PROCESSES (3)**
This course is an introduction to current immigration application processes including non-immigrant, immigrant, and citizenship. Topics will cover family and employment visas and green cards, labor certification, overview of refugee/asylee status, and immigration court. Prerequisite: PLS 127 with a minimum grade of C or concurrent enrollment; and BIS 121 with a minimum grade of C or concurrent enrollment or BIS 122 with a minimum grade of C or concurrent enrollment; and recommended preparation: PLS 111. (UE)

**POLS& 203 INTERNATIONAL RELATIONS (5)**
Examines the history of international relations and theories of how such relations work, possible trends in globalization or interdependence, problems of authority, concepts and reality of conflict and security, and economics. Studies key international actors such as nation-states, international organizations and others including multinational corporations, and terrorist groups. Also addressed: diplomacy, human rights and international law. (SSg)

**POLS& 204 COMPARATIVE GOVERNMENT (5)**
Advanced study of major foreign powers including France, Great Britain, West Germany, Russia, China, India and others as time permits. Recommended preparation: POLS& 101 or 202. (SSg)

**POLS 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)**
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Political Science. Required preparation: acceptance into the Honors Program. (SS)

**PSYC PSYCHOLOGY**

**PSYCH105 CAREER SEARCH PROCESS (3)**
Designed for students to assess their own interests, aptitudes, values, and motivators through various self-assessment instruments, informational interviews, lectures, guest speakers, and group discussions. Students will explore decision making, life transitions, building positive attitudes, time and stress management, and networking. Includes brief discussions of resume writing, interviewing, and job retention. (UE)

**PSYCH106 JOB FINDING SKILLS (2)**
Develops an in-depth understanding of transferable skills, effective resume writing, employment letters, and the application process. Students will develop successful and creative job search techniques and in-depth interviewing skills and job market analysis. (UE)

**PSYC& 100 GENERAL PSYCHOLOGY (5)**
Surveys the knowledge and methods of the discipline of psychology. Emphasis include an overview of current knowledge in major areas of psychology, accessing and assessing information about behavior, skills in scientific reasoning and critical thinking. (SS)
PSYC 114  PSYCHOSOCIAL ISSUES IN HEALTHCARE I (1)
An introduction to the examination of some determinants of health and illness including social, psychological, environmental, spiritual, and cultural dimensions across the lifespan and within the context of healthcare. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 171. (SS)

PSYC 115  PSYCHOSOCIAL ISSUES IN HEALTHCARE II (1)
Examines some determinants of health and illness including social, psychological, environmental, spiritual, and cultural dimensions across the lifespan and within the context of healthcare at a beginner level. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 172. (SS)

PSYC 116  PSYCHOSOCIAL ISSUES IN HEALTHCARE III (1)
Examines some determinants of health and illness including social, psychological, environmental, spiritual, and cultural dimensions across the lifespan and within the context of healthcare, expands on PSYC 115. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 173. (SS)

PSYC 165  PSYCHOLOGY OF ADJUSTMENT (5)
The Psychology of Adjustment teaches the principles of psychology as they relate to adaptations of life's challenges. Topics include the nature and management of stress, coping strategies, interpersonal communication, relationship dynamics, self-concept, lifelong learning, and career development. (SSg)

PSYC& 180  HUMAN SEXUALITY (5)
Study of the factors influencing the development and expression of individual sexuality, human sexual behavior, attraction and love, gender identity, sexual orientation, sexual aggression, sexual dysfunction and disorders, characteristics of and factors influencing the use of contraceptives, characteristics and risk factors of sexually transmitted diseases. Recommended preparation: PSYC& 100, SOC& 101, or ANTH& 206. Prerequisite: placement in ENGL& 101. (SSwd)

PSYC& 200  LIFESPAN PSYCHOLOGY (5)
Growth and development through the life span including physical, social, cognitive, and neurological development. Topics covered included daycare, education, disabilities, parenting, types of families, gender identity and roles, career decisions, illnesses and treatments, aging, retirement, generativity, and dying. Prerequisite: placement in ENGL& 101; and PSYC& 100. (SSw)

PSYC 210  CHILD DEVELOPMENT (5)
Psychological growth and development from conception through adolescence including biological, social and cognitive development. Recommended preparation: PSYC& 100. (SS)

PSYC 211  SOCIAL PSYCHOLOGY (5)
The scientific study of the influence of people upon each other's behavior. Topics include social perception, attraction, pro-social behavior, aggression, attitude formation and change, group processes, applied topics, e.g. legal system, health, organizations. Prerequisite: placement in ENGL& 101; recommended preparation: PSYC& 100. (SSw)

PSYC 214  PSYCHOSOCIAL ISSUES IN HEALTHCARE IV (1)
Examines some determinants of health and illness including social, psychological, environmental, spiritual, and cultural dimensions across the lifespan and within the context of healthcare, expands on PSYC 116. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 271. (SS)

PSYC 215  PSYCHOSOCIAL ISSUES IN HEALTHCARE V (1)
Examines some determinants of health and illness including social, psychological, environmental, spiritual, and cultural dimensions across the lifespan and within the context of healthcare, expands on PSYC 214. Prerequisite: admission into the Nursing program; concurrent enrollment in NURS 271. (SS)

PSYC& 220  ABNORMAL PSYCHOLOGY (5)
Introduction to the characteristics, origins, diagnosis, treatment, and management of psychological disorders and related controversies. Major perspectives include Biological, socio-cultural, cognitive behavioral, and psychodynamic. Includes acute and chronic disorders in major categories of DSM IV such as autism, ADHD, PTSD, mood disorders, schizophrenia, personality disorders, anxiety disorders, and Alzheimer's disease. Civil commitments an insanity plea issues included. Recommended preparation: PSYC& 100. (SSd)
PSYC 225     COGNITIVE PSYCHOLOGY (5)
Examines the historical development of cognitive psychology. Cognitive theories and research methods are related to practical applications in daily life as well as in classroom settings. Areas of focus include acquisition, storage, and retrieval of information, the role of imagery in cognition, and the development of cognitive processes. Prerequisite: placement in ENGL& 101; PSYC& 100. (SSw)

PSYC 240     ENVIRONMENTAL ISSUES AND HUMAN BEHAVIOR (5)
Investigates the influence of human behavior in creating environmental problems. Applies behavioral and social science knowledge to changing behaviors and systems to reduce the problems. Includes the role of cognitive processes, learned behavior, reinforcement, cultural norms, education, religion, economics, government, political processes, environmental organizations, and ecological science in shaping the behaviors that contribute to the problems. Local, national, and global issues considered such as global warming, recycling, energy use, biodiversity, pollution and population. (SSgs)

PSYC 250     INTRODUCTION TO ORGANIZATIONAL BEHAVIOR (5)
Applies psychological knowledge to understanding and changing behavior in the workplace. Includes individual, group, and organizational components. Topics include perception, learning, personality, attitudes, motivation, group dynamics, communication, decision-making, conflict resolution, power, leadership, culture, structure, change. (SS)

PSYC 265     CROSS CULTURAL PSYCHOLOGY (5)
Cross-Cultural Psychology examines psychological theories and research from a cross-cultural perspective. Primary goals of the class include the study of the effects of culture on human thought and behavior, of cross-cultural interactions, and of the similarities and differences in behavior across cultures. Students will also discuss the impact of culture on cognition, development, emotion, motivation, sex roles, disorders, group behavior, conflict, stereotyping, and prejudice. (SSg)

PSYC 270     PSYCHOLOGY OF DEATH AND DYING (5)
This course is an introduction to the study of death and dying and is designed for a general audience. Students will also learn of the services available in communities for those who are dying or grieving. (SS)

PSYC 295     HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Psychology. Required preparation: acceptance into the Honors Program. (SS)

PTA PHYSICAL THERAPIST ASSISTANT

PTA 101     INTRODUCTION TO PHYSICAL THERAPY (3)
Introduction to the practice of physical therapy with emphasis on the PTA as a member of the health care team. Examination of the therapist-patient relationship. Introduction to documentation standards, SOAP note writing and other documentation formats related to physical therapy. Introduction to legal and ethical issues in physical therapy including HIPPA legislation. Required preparation: admission to PTA Program. (UE)

PTA 105     TESTS AND MEASUREMENTS (2)
This course provides instruction in various types of physical therapy tests and measurements including goniometry, manual muscle testing, sensory testing and posture examination. In addition, this course examines the application of these tests to the patient plan of care. Required preparation: program admittance; Prerequisite: HLTH 202. (UE)

PTA 110     PTA PROCEDURES I (5)
Basic patient care skills focused in the acute care setting including aseptic techniques, vital signs, bandaging, bed mobility and patient transfers and preparation and maintenance of treatment environment. Theory & application of selected physical therapy equipment. Required preparation: program admittance. (UE)

PTA 111     PTA PROCEDURES II (7)
Theory and application of cold and heat modalities. Basic principles& application of selected massage techniques. Introduction to fundamentals and use of electrotherapy & traction modalities. Basic edema management including lymphedema. Required preparation: program admittance; HLTH 202. (UE)

PTA 113     PTA PROCEDURES III (4)
Principles of normal and abnormal ambulation, use of assisted devices, postural analysis and selected functional rehabilitation activities. Required preparation: program admittance; PTA 110. (UE)

</table>
| PTA 280 | SPECIAL TOPICS IN PHYSICAL THERAPY (2)  
Overview of specialized topics in physical therapy including aquatic therapy, cardiac rehabilitation, women’s health, wound care and chest physical therapy. Integration of physical therapy techniques and communication skills learned throughout the program. Required preparation: program admittance; concurrent with PTA 221 and PTA 201. (UE) |
| PTA 285 | MANUAL THERAPY TECHNIQUES- PHYS THERAPIST ASSIST (1)  
Beginning practice in selected manual therapy techniques including peripheral joint mobilization, myofascial release, muscle energy techniques and strain/counter-strain techniques. S/U grading. Required preparation: program admittance; HLTH 202 and PTA 220 and concurrent enrollment in PTA 221. (UE) |
| SOC | SOCIOMETRY |
| SOC 101 | INTRODUCTION TO SOCIOLOGY (5)  
Study of human group life emphasizing socialization, social structure, and social interaction patterns. Class work augmented by individual study experience situations. (SSd) |
| SOC 120 | MARRIAGE AND FAMILY (5)  
Scientific study of the social institution of marriage and family. Family related issues and types; relationships, socialization, mate selection, alternative enduring relationships, and divorce. Varieties and functions of contemporary American and cross cultural marriages and families. (SSd) |
| SOC 201 | SOCIAL PROBLEMS (5)  
Study of the phenomenon of deviance with implications for society at large. Specific problems covered include crime, delinquency and family dissolution. (SSd) |
| SOC 210 | URBAN SOCIOLOGY (5)  
Analyzes the transition and development of urban environments and the impact on human behavior and activities. Includes theory, origins, problems and resources associated with cities. Sources of change examined along with cross cultural variations in urbanization, modernization and industrialization. (SSg) |
| SOC 220 | CONTEMPORARY SOCIAL ISSUES (5)  
Examination of current social issues. Includes in-depth study of an issue of student's choice. (SSd) |
| SOC 250 | MULTICULTURAL ISSUES (5)  
Focuses on learning about the local ethnic populations in terms of community issues identified by representatives from these populations. Students will also look at how ethnic values, culture and heritage affect these issues. (SSd) |
| SOC 295 | HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)  
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Sociology. Required preparation: acceptance into the Honors Program. (SS) |
| SPAN | SPANISH |
| SPAN 104 | ACCELERATED ELEMENTARY SPANISH (5)  
A comprehensive, intensive review of elementary Spanish through both traditional grammar/vocabulary study and active communication. For those who at some time have completed the equivalent or near equivalent of college-level, first year Spanish but need a refresher before undertaking further study. Prerequisite: two years of high school Spanish or the equivalent. (Hg) |
| SPAN 121 | SPANISH I (5)  
An introductory course, which facilitates elementary ability in comprehension, speaking, reading, and writing in Spanish, provides some understanding of Hispanic cultures, and prepares students for Spanish II. Intended for students who have no prior experience in Spanish. (LEg) |
| SPAN 122 | SPANISH II (5)  
Builds upon the foundation of Spanish I. Facilitates ability in comprehension, speaking, reading, and writing in Spanish, provides some understanding of Hispanic cultures, and prepares students for Spanish III. Continued emphasis on both traditional grammar/vocabulary study and real communication. Prerequisite: SPAN& 121. (LEg) |
| SPAN 123 | SPANISH III (5)  
Capstone of the first-year series. Completes the basic foundation of understanding/ability in the four language skills and of basic knowledge of Hispanic cultures, and prepares students for second year Spanish. Continued emphasis on both traditional grammar/vocabulary study and active communication. Prerequisite: SPAN& 122. (Hg) |
SPAN& 221 SPANISH IV (5)
A second-year course which facilitates the leap from basic comprehension of the mechanics of the language to real ability to comprehend, speak, read, and write effectively in Spanish. Provides some solid insight into Hispanic cultures through readings and other media. Taught in Spanish. Prerequisite: SPAN& 123 or SPAN 104. (Hg)

SPAN& 222 SPANISH V (5)
Continuation of Spanish 201 which further develops practical conversational skills in Spanish while increasingly stressing reading comprehension strategies and effective writing. Hispanic cultures are investigated in increasing depth as students prepare for more advanced study. Taught in Spanish. Prerequisite: SPAN& 221. (Hg)

SPAN& 223 SPANISH VI (5)
The capstone of the second-year series. Students refine practical conversational skills and polish formal writing techniques while studying more advanced structures and registers. Linguistic ability and cultural insight are further developed through the reading and study of authentic literary works. Prerequisite: SPAN& 222. (Hg)

SPAN 295 HONORS PROGRAM SPECIAL TOPICS SEMINAR (2)
Reading, writing, discussion and oral presentations designed to develop in-depth, advanced level knowledge of a topic in Spanish. Required preparation: acceptance into the Honors Program. (H)

VISCM VISUAL COMMUNICATIONS

VISCM 240 TYPOGRAPHY (3)
Study of the design of letterforms, the function of type, and the use of type as a design element. Required preparation: program admittance. (UE)

VISCM 250 LAYOUT AND PUBLICATION DESIGN I (5)
Application of layout and typographic principles to the design of identity systems, publications and collateral materials such as brochures, newsletters, catalogs. Emphasis on learning page layout software and preparation of art and copy for print reproduction. Required Preparation: program admittance; VISCM 240 or concurrent enrollment. (UE)

VISCM 251 LAYOUT AND PUBLICATION DESIGN II (5)
Further study of layout and publication design including the use of grid systems for multipage publications. Course covers document creation for print and digital publication and addresses issues of layout design for mobile devices such as eBook readers and tablets. Required preparation: program admittance and VISCM 250. (UE)

VISCM 260 VECTOR ILLUSTRATION (5)
Illustration principles and techniques using vector-based software. Course covers the creation of illustrations for editorial, advertising and information graphics purposes. Required preparation: program admittance. (UE)

VISCM 261 RASTER ILLUSTRATION AND IMAGE EDITING (5)
Illustration concepts and techniques using bitmapped graphics software. Includes digital image manipulation and image editing of scanned images. Required preparation: program admittance. (UE)

VISCM 262 ADVANCED DIGITAL IMAGING (3)
Advanced Photoshop skills in preparing raster images for print, web, and digital publishing. Topics include: color management, image resolution, color correction, clipping paths, masks, sharpening, retouching, and compositing techniques. Required preparation: program admittance. (UE)

VISCM 270 PRINT PRODUCTION AND PREPRESS (5)
Study of commercial print processes and digital preparation of artwork for reproduction. Topics include: printing process, project workflow, industry standard graphic file formats, digital color foundations, preflight, quality issues, paper stock, bindery processes, business relationships, quoting print jobs. Prerequisite: program admittance. (UE)

VISCM 280 WEB DESIGN AND AUTHORING I (5)
Fundamentals of web design and site development using coding and web authoring software. Topics include: site planning, workflow, usability, interface and layout design, cross-platform issues, HTML/CSS, image optimization, and web typography. Required preparation: program admittance. (UE)

VISCM 282 WEB DESIGN AND AUTHORING II (5)
Further study and application of web design principles and site development. Course covers designing for mobile and desktop screen sizes, grid systems for web layout, using HTML/CSS and jQuery for animation and interactivity. Required preparation: program admittance; VISCM 280. (UE)
VISCM 284  WEB CONTENT MANAGEMENT SYSTEMS (5)
Fundamentals of developing web sites using open source content management systems (CMS). Topics include: CMS functionality for web management needs, content organization, developing graphics for theme-based layouts, modifying theme design through HTML, CSS and scripting. Required preparation: program admittance. (UE)

VISCM 286  VIDEO PRODUCTION FOR THE WEB (5)
Fundamentals of video production with focus on creating and preparing video for streaming on the Web. Topics include: content development, digital video/audio production, digital editing techniques, file formats and compression for Web delivery. Program admittance required. (UE)

VISCM 292  PORTFOLIO/PROFESSIONAL PRACTICES (2)
Standard professional and business practices in the graphic and web design profession with emphasis on the preparation of a portfolio of the student’s work. Other topics include: resume writing, interviewing, portfolio presentations, business contracts, copyright law, recordkeeping, and taxes. Required preparation: program admittance. (UE)

College Policies

All Whatcom Community College policies, in addition to those listed here, are maintained by the President’s office.

ALCOHOL AND CONTROLLED SUBSTANCES—INFORMATION RELATED TO THE FEDERAL DRUG-FREE SCHOOL AND COMMUNITIES ACT OF 1989

Purpose

The College desires to facilitate access to appropriate health and medical care for students who develop academic problems, and employees who develop job performance problems as a consequence of drug and alcohol abuse.

Whatcom Community College recognizes drug dependency, including alcoholism, as a treatable illness that interferes with academic and work performances, personal health and safety, and the safety of others. The College recognizes its efforts to facilitate access to appropriate health and medical care for students and employees who develop drug and alcohol problems are limited to the following: 1) the effects of drug and alcohol abuse on a student’s academic ability and behavior while involved in College activities; 2) the effects of drug and alcohol abuse on an employee’s job performance and on-the-job behavior.

I. Relevant State/Local Laws & College Policies

A. STUDENT USE OF MARIJUANA, ALCOHOL, AND CONTROLLED SUBSTANCES: Students are prohibited from being observably under the influence of marijuana or the psychoactive compounds found in marijuana, or otherwise using, possessing, selling, or delivering any product containing marijuana or the psychoactive compounds found in marijuana and intended for human consumption, regardless of form, on college premises. While state law permits the recreational use of marijuana, federal law prohibits such use on college premises or in connection with college activities. Students are prohibited from being observably under the influence of any alcoholic beverage on college premises; with the exception of sanctioned events, approved by the president or designee, and in compliance with state law. Students are prohibited from the use, possession, or the appearance of being demonstrably under the influence of any legend drug, including anabolic steroids, androgens, or human growth hormones as defined by RCW 69.41, or any other controlled substance under RCW 69.50, except as prescribed for a student’s use by a licensed practitioner. These prohibitions apply to every student whenever said student is present upon or in any College facility and whenever said student is present at or engaged in any College-sponsored activity which is held in College facilities or non-College facilities. (WAC 132U-125-020). Violation of these student responsibilities will result in disciplinary action.

B. EMPLOYEE USE/ABUSE OF ALCOHOL AND CONTROLLED SUBSTANCES: Employees are prohibited from being under the influence of or participating in the unlawful manufacture, distribution, possession, or use of a controlled substance in and on College-owned or controlled property; disciplinary action and possible termination will be taken in accordance with the Higher Education Personnel Board rules, bargaining unit agreements, tenure laws, or other policies of the institution. (WAC 296-024-073 (6) (e) and College Policy 404).

C. DRINKING AGE LAWS: It is unlawful for any person under the age of 21 years to acquire, possess or consume any alcoholic beverage. It is also unlawful for any person, other than a parent or guardian (and then only in specific situations), to provide alcoholic beverages to someone under 21. (RCW 66.44.270 and Local Ordinances 8707 and 8573).

E. COLLEGE FUNCTIONS THAT PROVIDE OR ALLOW ALCOHOLIC BEVERAGES WITHOUT COST (BANQUET PERMITS): No functions that involve the service or consumption of alcoholic beverages may take place on College grounds without a state banquet permit. (RCW 66.20.010). Any person acting without a required permit shall be guilty of a gross misdemeanor. (RCW 66.44.090). It is illegal to serve alcohol to anyone who appears intoxicated. (RCW 66.44.200).

F. SALE OF ALCOHOLIC BEVERAGES ON CAMPUS: Alcoholic beverages may not be sold on College property without obtaining an appropriate state liquor license. (RCW 66.20) Liquor licenses must be displayed in plain sight at the location of the event. (RCW 66.24.010(7)).

G. OPENING OR CONSUMING LIQUOR IN PUBLIC PLACES: Except where permits have been issued by the State Liquor Board and approval granted by the President,
it is illegal to have an open container of alcohol or to consume alcohol in a public place, which includes College hallways and lounges, athletic fields, parks, sidewalks, parking lots, etc. (RCW 66.04.010(23) and 66.44.100 and Local Ordinance 9044.7).

H. PROMOTION OF LIQUOR AT WHATCOM COMMUNITY COLLEGE: No activities by liquor manufacturers or importers or their representatives which promote the sale or consumption of alcoholic beverages, either by brand name or in general, are allowed on College property except in accordance with state regulation and approved by the president. (RCW 66.28.160).

II. Assistance

The College recognizes its obligation to promote the health, safety, and well-being of its students and employees and to encourage appropriate assistance.

STUDENT ASSISTANCE: Students are encouraged to voluntarily seek expert assistance for alcoholism or drug dependency. Students who voluntarily reveal to a College staff member that they have been or are currently involved in the abuse of alcohol or illicit drugs shall have the confidentiality and anonymity of their communication respected, except under subpoena. The staff member should refer students to the Whatcom Community College counseling office. The counseling office shall be capable of making referral to community resources for alcohol or drug abuse diagnosis or treatment. Confidentiality by counselors will be fully maintained according to Federal Law 42 CFR Part 2.

Any student receiving approved professional treatment for an alcohol or drug problem may be considered for Hardship Withdrawal listed on page 18. Students will use their own resources to cover costs incurred for treatment.

Employees of Whatcom Community College are encouraged to refer students who abuse alcohol or illicit drugs to Whatcom Community College’s counseling center for assessment and/or intervention and referral. Student confidentiality and anonymity of their communication shall be respected and limited to referral to the Whatcom Community College counseling office. No official College records shall be kept.

III. Sanctions

Whatcom Community College will impose sanctions on students and employees consistent with local, state and federal laws. These sanctions include possible expulsion or termination of students or employees who violate these laws. Faculty members, other College employees and students who breach or aid or abet another in the breach of any of these provisions shall be subject to: a) possible prosecution under the state criminal law, b) any other civil or criminal remedies available to the public, or c) appropriate disciplinary action pursuant to the state of Washington higher education personnel board rules or the College’s policies and regulations. (WAC 132U-120-030(2) and College Policy 1140).

Refer to the College’s website for the complete version of this policy.

DISCRIMINATION, HARASSMENT, AND SEXUAL HARASSMENT COMPLAINTS

WAC 132U-300-030 Statement of Policy. The College provides equal opportunity in education and employment and does not discriminate on the basis of race, color, national origin, age, disability, sex, sexual orientation, marital status, creed, religion, or status as a veteran of war as required by Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, Title VII of the Civil Rights Act of 1964, the Age Discrimination Act of 1975, RCW 49.60.030, and their implementing regulations. Prohibited gender-based discrimination includes sexual harassment.

(1) Harassment is defined as a form of discrimination consisting of physical or verbal conduct that:
(a) Denigrates or shows hostility toward an individual because of the their race, creed, color, religion, national or ethnic origin, parental status or families with children, marital status, sex (gender), sexual orientation, gender identity or expression, age, genetic information, honorably discharged veteran or military status, or the presence of any sensory, mental, or physical disability, or the use of a trained dog guide or service animal by a person with a disability, or any other prohibited basis; and
(b) Is sufficiently severe or pervasive so as to substantially interfere with the individual’s employment, education or access to College programs, activities, and opportunities.
(2) Sexual harassment is defined, for the purposes of this policy as follows: Unwelcome sexual advances, requests, and other unwelcome conduct of a sexual nature where:
   (a) Submission to such conduct is made, either expressly or implicitly, a term or condition of an individual's employment or education; or
   (b) Submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting any individual; or
   (c) Such unwelcome conduct is sufficiently severe, persistent or pervasive to have the effect of substantially interfering with any individual's academic or professional performance.

Complaint Procedure. The College recognizes its responsibility for investigation, resolution, implementation of corrective measures, and monitoring the educational environment and workplace to stop, remediate, and prevent discrimination and harassment, including sexual harassment. Employees, students, or visitors who believe they have been the subject of discrimination or sexual harassment should report the incident to the following official: human resources director, affirmative action officer and Title IX coordinator, 360.383.3404.

The entire discrimination and harassment procedure is located on the College website.

WAC 132U -125-005 - STATEMENT OF JURISDICTION. The student conduct code shall apply to student conduct that occurs on College premises, to conduct that occurs at or in connection with College-sponsored activities, or to off-campus conduct that in the judgment of the College adversely affects the College community or the pursuit of its objectives. Jurisdiction extends to, but is not limited to, locations in which students are engaged in official College activities including, but not limited to, foreign or domestic travel, activities funded by the associated students, athletic events, training internships, cooperative and distance education, online education, practicums, supervised work experiences, study abroad, or any other College-sanctioned social or club activities. Students are responsible for their conduct from the time of application for admission through the actual receipt of a degree, even though conduct may occur before classes begin or after classes end, as well as during the academic year and during periods between terms of actual enrollment. These standards shall apply to a student's conduct even if the student withdraws from College while a disciplinary matter is pending. The College has sole discretion, on a case-by-case basis, to determine whether the student conduct code will be applied to conduct that occurs off-campus.

WAC 132U -125-015 STATEMENT OF STUDENT RIGHTS. As members of the academic community, students are encouraged to develop the capacity for critical judgment and to engage in an independent search for truth. Freedom to teach and freedom to
learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility. The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the College community.

The following enumerated rights are guaranteed to each student within the limitations of statutory law and College policy which are deemed necessary to achieve the educational goals of the College:

(1) Academic freedom.
   (a) Students are guaranteed the rights of free inquiry, expression, and assembly upon and within College facilities that are generally open and available to the public. Students are free to pursue appropriate educational objectives from among the College's curricula, programs, and services, subject to the limitations of RCW 28B.50.090 (3)(b).
   (b) Students shall be protected from academic evaluation which is arbitrary, prejudiced, or capricious, but are responsible for meeting the standards of academic performance established by each of their instructors. Students have the right to a learning environment which is free from unlawful discrimination, inappropriate and disrespectful conduct, and any and all harassment, including sexual harassment.

(2) Due process.
   (a) The rights of students to be secure in their persons, quarters, papers, and effects against unreasonable searches and seizures is guaranteed.
   (b) No disciplinary sanction may be imposed on any student without notice to the accused of the nature of the charges.
   (c) A student accused of violating this code of student conduct is entitled, upon request, to procedural due process as set forth in this chapter.

(3) Student participation in College governance.
   (a) Whatcom Community College recognizes the special role that students have in the development and maintenance of student programs.
   (b) The College provides opportunities for students to participate in College governance, including the formulation of College policies and procedures relevant to students, through representation by the Associated Students of Whatcom Community College (ASWCC).
   (c) Students are also appointed, according to the ASWCC constitution and bylaws, to serve on a variety of College committees.

WAC 132U-125-020 STUDENT RESPONSIBILITIES AND PROHIBITED CONDUCT. As members of the Whatcom Community College community, students have an obligation to demonstrate academic and personal honesty and integrity. Students are expected to respect individual rights, recognize their impact on others, and take responsibility for their actions.

Students may be subject to disciplinary action for any activity that unreasonably disrupts the operations of the college or infringes on the rights of another member of the college community. Students are prohibited from engaging in any unlawful conduct and may be subject to criminal or civil prosecution. The College may apply disciplinary proceedings for student conduct on or off the College premises that, in the judgment of the College, adversely affects the College community or the pursuit of its objectives. The College may carry out these disciplinary proceedings prior to, simultaneous to, or following civil or criminal proceedings in court.

The College may impose disciplinary sanctions against a student who commits, or aids, abets, incites, encourages or assists another person to commit, an act(s) of misconduct, which include, but are not limited to the following:

(1) Academic Dishonesty. Any act of academic dishonesty, including but not limited to cheating, plagiarism, and fabrication:
   (a) Cheating includes any attempt to give or obtain unauthorized assistance relating to the completion of an academic assignment.
   (b) Plagiarism includes taking and using as one’s own, without proper attribution, the ideas, writings, or work of another person in completing an academic assignment. Prohibited conduct may also include the
unauthorized submission for credit of academic work that has been submitted for credit in another course.

(c) Fabrication includes falsifying data, information, or citations in completing an academic assignment and also includes providing false or deceptive information to an instructor concerning the completion of an assignment.

(2) Other Dishonesty. Such acts include, but are not limited to:
(a) Forgery, alteration, submission of falsified documents or misuse of any College document, record, or instrument of identification;
(b) Tampering with an election conducted by or for College students; or
(c) Furnishing false information, or failing to furnish correct information, in response to the request or requirement of a College officer or employee.

(3) Obstruction or Disruption. Obstruction or disruption of:
(a) any instruction, services, research, administration, disciplinary proceeding, or other College activity, including the obstruction of the free flow of pedestrian or vehicular movement on College property or at a College activity; or
(b) any activity that is authorized to occur on College property or under College jurisdiction, whether or not actually conducted or sponsored by the College.

(4) Assault or Intimidation. Assault, physical abuse, verbal abuse, threat(s), intimidation, harassment, bullying, stalking or other conduct which harms, threatens, or is reasonably perceived as threatening the health or safety of another person or another person’s property. For purposes of this paragraph:
(a) Bullying is physical or verbal abuse, repeated over time, and involves a power imbalance between the aggressor and victim.
(b) Stalking is intentional and repeated following of another person, which places that person in reasonable fear that the perpetrator intends to injure, intimidate or harass that person. Stalking also includes instances where the perpetrator knows or reasonably should know that the person is frightened, intimidated or harassed, even if the stalker lacks such an intent.

(5) Cyber-Misconduct. Cyber-stalking, cyber-bullying or online harassment. Use of electronic communications, including, but not limited to, electronic mail, instant messaging, electronic bulletin boards, and social media sites, to harass, abuse, bully or engage in other conduct which harms, threatens, or is reasonably perceived as threatening the health or safety of another person. Prohibited activities include, but are not limited to, unauthorized monitoring of another’s email communications directly or through spyware, sending threatening emails, disrupting electronic communications with spam or by sending a computer virus, sending false messages to third parties using another’s email identity, non-consensual recording of sexual activity, and non-consensual distribution of a recording of sexual activity.

(6) Property Violation. Attempted or actual damage to, or theft or misuse of, real or personal property or money of (a) the College or state, (b) any student or College officer, employee, or organization, or (c) any other person or organization, or possession of such property or money after it has been stolen.

(7) Failure to Comply with Directive. Failure to comply with the direction of a College officer or employee who is acting in the legitimate performance of his or her duties, including failure to properly identify oneself to such a person when requested to do so.

(8) Weapons: Carrying, exhibiting, displaying or drawing any firearm, dagger, sword, knife or other cutting or stabbing instrument, club, explosive device or any other weapon capable of producing bodily harm, in a manner, under circumstances, and at a time and place that either manifests an intent to intimidate another or that warrants alarm for the safety of other persons. No person or group may use or enter onto Whatcom Community College grounds or facilities, owned or leased, while having in their possession firearms or other dangerous weapons, even if licensed to do so. An exception shall be made for commissioned police officers and other law enforcement officers as permitted by law.

(9) Hazing. Hazing includes, but is not limited to, any
initiation into a student organization or any pastime or amusement engaged in with respect to such an organization that causes, or is likely to cause, bodily danger or physical harm, or serious mental or emotional harm, to any student.

(10) Alcohol, Drug, and Tobacco Violations.
(a) Alcohol. The appearance of being observably under the influence of any alcoholic beverage, or otherwise using, possessing, selling or delivering any alcoholic beverage on college premises; with the exception of sanctioned events, approved by the president or designee, and in compliance with state law.
(b) Marijuana: The appearance of being observably under the influence of marijuana or the psychoactive compounds found in marijuana, or otherwise using, possessing, selling or delivering any product containing marijuana or the psychoactive compounds found in marijuana and intended for human consumption, regardless of form, on college premises. While state law permits the recreational use of marijuana, federal law prohibits such use on college premises or in connection with college activities.
(c) Drugs. The use, possession, delivery, sale, or the appearance of being under the influence of any legend drug, including anabolic steroids, androgens, or human grown hormones as defined in RCW 69.41, or any other controlled substance under RCW 69.50, except as prescribed for a student's use by a licensed practitioner.
(d) Tobacco, electronic cigarettes, and related products. The use of tobacco, electronic cigarettes, and related products in any building owned, leased or operated by the college or in any location where such use is prohibited, including twenty-five feet from entrances, exits, windows that open, and ventilation intakes of any building owned, leased or operated by the college. “Related products” include, but are not limited to cigarettes, pipes, bidi, clove cigarettes, water pipes, hookahs, chewing tobacco, and snuff.

(11) Lewd Conduct. Conduct which is disorderly, lewd, or obscene.

(12) Discriminatory Conduct. Discriminatory conduct which harms or adversely affects any member of the college community because of race; color; national origin sensory, mental, or physical disability; use of a service animal; age (40+); religion; gender; including pregnancy; marital status; genetic information; sexual orientation; gender identity; veteran’s status; or any other legally protected classification.

(13) Sexual Misconduct. The term “sexual misconduct” includes sexual harassment, sexual intimidation, and sexual violence.
(a) Sexual Harassment. The term “sexual harassment” means unwelcome conduct of a sexual nature, including unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, electronic communication, social media, or physical conduct of a sexual nature that is sufficiently serious as to deny or limit, and does deny or limit, the ability of a student to participate in or benefit from the college’s educational program or that creates an intimidating, hostile, or offensive environment for other campus community members.
(b) Sexual Intimidation. The term “sexual intimidation” incorporates the definition of “sexual harassment” and means threatening or emotionally distressing conduct based on sex, including, but not limited to, nonconsensual recording of sexual activity or the distribution of such recording.
(c) Sexual Violence. The term “sexual violence” incorporates the definition of “sexual harassment” and means a physical sexual act perpetrated without clear, knowing, and voluntary consent, such as committing a sexual act against a person’s will, exceeding the scope of consent, or where the person is incapable of giving consent, including rape, sexual assault, sexual battery, sexual coercion, sexual exploitation, gender- or sex-based stalking. The term further includes acts of dating or domestic violence. A person may be incapable of giving consent by reason of age, threat or intimidation, lack of opportunity to object, disability, drug or alcohol consumption, or other cause.

(14) Harassment. Unwelcome and offensive conduct, including verbal, nonverbal, or physical conduct, that is directed at a person because of such person’s protected status and that is sufficiently serious as to deny or limit, and that does deny or limit, the ability of a student to participate in or benefit from
the College’s educational program or that creates an intimidating, hostile, or offensive environment for other campus community members. Protected status includes a person’s race; color; national origin; sensory, mental, or physical disability; use of a service animal; age (40+); religion; genetic information; gender, including pregnancy, marital status; sexual orientation; gender identity; veteran’s status; or any other legally protected classification. See “Sexual Misconduct” for the definition of “sexual harassment.” Harassing conduct may include, but is not limited to, physical conduct, verbal, written, social media and electronic communications.

(15) Retaliation. Retaliation against any individual for reporting, providing information, exercising one’s rights or responsibilities, or otherwise being involved in the process of responding to, investigating, or addressing allegations or violations of federal, state, or local law, or College policies, including, but not limited to, student conduct code provisions prohibiting discrimination and harassment.

(16) Misuse of Electronic Resources. Theft or other misuse of computer time or other electronic information resources of the College. Such misuse includes but is not limited to:
(a) Unauthorized use of such resources or opening of a file, message, or other item;
(b) Unauthorized duplication, transfer, or distribution of a computer program, file, message, or other item;
(c) Unauthorized use, collection or distribution of someone else’s password or other identification;
(d) Use of such time or resources to interfere with someone else’s work;
(e) Use of such time or resources to send, display, or print an obscene or abusive message, text, or image;
(f) Use of such time or resources to interfere with normal operation of the College’s computing system or other electronic information resources;
(g) Use of such time or resources in violation of applicable copyright or other law;
(h) Adding to or otherwise altering the infrastructure of the College’s electronic information resources without authorization;
(i) Failure to comply with the college’s electronic use policy.

(17) Unauthorized Access. Unauthorized possession, duplication, or other use of a key, keycard, or other restricted means of access to College property, or unauthorized entry onto or into College property.

(18) Abuse or Misuse of College Policies or Procedures. Abuse or misuse of any of the procedures relating to student complaints or misconduct, including but not limited to:
(a) Failure to obey a verbal or written directive from a College official;
(b) Falsification or misrepresentation of information;
(c) Disruption, or interference with the orderly conduct, of a proceeding;
(d) Interfering with someone else’s proper participation in a proceeding;
(e) Destroying or altering potential evidence, or attempting to intimidate or otherwise improperly pressure a witness or potential witness;
(f) Attempting to influence the impartiality of, or harassing or intimidating, a student conduct committee member; or
(g) Failure to comply with any disciplinary sanction(s) imposed under this student conduct code.

(19) Safety Violation. Safety violation includes any non-accidental conduct that interferes with or otherwise compromises any college policy, equipment, or procedure relating to the safety and security of the campus community, including tampering with fire safety equipment and triggering false alarms or other emergency response systems. A safety violation may include the operation of any motor vehicle on college property in an unsafe manner or in a manner which is reasonably perceived as threatening the health or safety of another person.

(20) Violation Other Laws and Policies. Violation of any federal, state, or local law, rule, or regulation or other College rules or policies, including College traffic and parking rules.

(21) Ethical Violation. The breach of any generally recognized and published code of ethics or standards of professional practice that governs the conduct of a particular profession for which the student is taking a course or is pursuing as an educational goal or major.
In addition to initiating discipline proceedings for violation of the student conduct code, the College may refer any violations of federal, state or local laws to civil and criminal authorities for disposition. The College shall proceed with student disciplinary proceedings regardless of whether the underlying conduct is subject to civil or criminal prosecution.

**WAC 132U-125-025 CLASSROOM CONDUCT.** Faculty have the authority to take appropriate action to maintain order and proper conduct in the classroom and to maintain the effective cooperation of the class in fulfilling the objectives of the course.

An instructor has the authority to exclude a student from any single class session during which the student is disruptive to the learning environment. The instructor shall report any such exclusion from the class to the vice president of student services, or designee, who may summarily suspend the student or initiate conduct proceedings as provided in this procedure. The vice president of student services, or designee, may impose a disciplinary probation that restricts the student from the classroom until the student has met with the student conduct officer and the student agrees to comply with the specific conditions outlined by the student conduct officer for behavior in the classroom. The student may appeal the disciplinary sanction according to the disciplinary appeal procedures.

**WAC 132U-125-030 TRESPASS.** The vice president or designee(s) shall have the authority and power to prohibit the entry or withdraw the license or privilege of any person or group of persons to enter into or remain in any College property or facility. Such power and authority may be exercised to halt any event which is deemed to be unreasonably disruptive of order or impedes the movement of persons or vehicles or which disrupts or threatens to disrupt the movement of persons from facilities owned and/or operated by the college. Any person who disobeys a lawful order given by the vice president, or designee(s), shall be subject to disciplinary action and/or charges of criminal trespass.

A complete version of the student rights and responsibilities policy is available on the College website.

---

**STUDENT COMPLAINTS**

**WAC 132U-125-130 PURPOSE.** Whatcom Community College is committed to providing quality service to students, including providing accessible services, accurate information, and equitable and fair application of policies and procedures, including evaluation of class performance, grading, and rules and regulations for student participation in College activities and student conduct. The College procedures pertaining to student complaints are delineated in the Whatcom Community College policy and procedure manual and published on the College website.

---

**STUDENT COMPUTER USE RULES**

Students are guests of Whatcom Community College’s managed technology environment. Campus computers are intended to support educational goals and may not be used for personal gain or illegal activities. Please refer to Whatcom Community College Procedure 1189, *Use Of College Computing Resources*.

- Students may not use staff computers.
- Do not mistreat or damage the computer equipment.
- Hardware or software configurations may not be altered.
- Do not download or install any software or applications. This includes games, e-mail software, and unauthorized tutorial CDs that may be included with your textbooks.
- Do not install any peripheral devices.
- No personal computers or other devices may be connected to the College network or telephone system.
- Campus technology resources will be provided off-campus with VMware View, available at MyWCC on the College website.
- Attempts to remotely access, hack, bypass, alter, or circumvent any network or computer security on any system is illegal.
- Individuals must not interfere with the personal rights of others or the educational process of the College as defined by the WCC Student Rights and Responsibilities outlined in the WCC catalog.

In addition, individual labs and departments may have procedures or guidelines beyond the rules listed here.

Unauthorized use of WCC’s technology resources is a serious offense and may result in disciplinary or legal action that could include expulsion from school, civil prosecution by the College or criminal prosecution.

Whatcom Community College takes photographs on campus throughout the year. These images often include students, employees and guests in classrooms, computer labs, athletic events and other campus activities. WCC reserves the right to use these photographs as part of its publicity and marketing effort. Those who attend, visit or work at WCC do so with the understanding that these photographs might include them and might be used by the College for promotional purposes, including but not limited to publications, advertisements, website and social media.
Campus Map
Driving Directions

I-5 Southbound:
Take the Bakerview Rd. Exit (#258)
Turn left onto Bakerview Rd.
Turn left onto Cordata Parkway
Turn left onto W. Kellogg Rd.

I-5 Northbound:
Take the Meridan St. Exit (#256A)
Turn right onto Meridan St.
Turn left onto W. Kellogg Rd.
